CHILSON, SPANEN WORLD'S FAIR PRIZE MEDAL

E are happy to announce that CHIL-SON'S PATENT AIR WARMING cently improved and patented, is declared by collection of Church Music ever published in this high and reliable authority, to be the BESTFURNACEIN THE WORLD. Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating Dwellinge, Churches, School Houses, Academies. Court eign Countries. It has been awarded at the recent Fairs in this country, Gold Silver Medals First Premiums, and lastly, the Great Prize Medalat the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also city and state public committees on public buildings) We have wore than twenty five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable bject, the inventor of this Furnace first abandoned the manufacture of the common frail hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy scorching disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape mingle with the air; and then the annovance and expense of repairs, new pots, &c He now has the satisfaction of knowing that his efforts to secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely sucsessful. hey possess the following advantages. purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals of wood, all equally well - flues easily cleare out-great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Eizes for all classes of buildings. Also, 4 sizes of new and
