duced into Canada. The Subscriber has now on hand a number of Machines ready for sale, and is still making them, intending to complete 50 by the first of October next, or more if called for, so there will be no delay in furnishing them to his customers during the season. They are all made with the Nub Wheel, and Converge, or Internal Gear and Pinnion, with Larger Band Wheel than last season, as experience has shewn the power to be equal to a much greater speed. In all other respects they are built the same as la t year.

The Over Shot Thresher and Separator has been fully proved to be the best and safest ev er introduced and the Subscriber has made an improvement in the formation, making the Concave Bearers wider, thereby saving the wear of the covering of the Cylender, and giving a larger throat. He has also adopted a new plan for raising the Concave, by means of two Thumb screws, one on each side, enabling the Concave to be shifted, without stop ping the Machine.

The ubscriber, from his long experience in the Manufacture of all kinds of Joreshing Machines, feels confident that he can now offer to his friends and the public, an article which cannot be surpassed for Durability and

The Two Horse Power Thresher and Separator is capable with 3 or 4 men, of Threshing from 150 to 200 Bushels of Wheat or Rye.
