We have more than twenty five hundred references, many whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common frail bot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy scorching disagreeable odor, unfit to be in haled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and then the annovance and expense of repairs, new pots, &c He now has the satisfaction of knowing that his efforts o secure a Healthful, Economical, and durable Apparatus, for thoroughly warming and ventilating buildings, has been entirely sucsessful. An extensive sett of Tables has been computed for Assurance on Joint Lives, the Survivor of two or more lives, and for Contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every poss ble contingency affecting human life, against which it may be prudent or expedient to provide. The great success of this Institution in Europe and the numerous Policies, issued by the different A encies in Canada, evidently show that the advantuges of Life Assurance are daily becomin; more and more appreciated by those who fee the necessity of making some provision for their fa llies, or securing the amount of debte die by or to them in case of premature death. the tates of the Britannia are the lowest which car be offered consistently with security to the
