Canker and Nursing Sore Mouth! in num rous cases, have been speedily cured.

BUT WHAT IS THE ROCK ROSE The following history of the Rock Rose Plant and its medicinal properties, we take from the New Haven Palladium, March,

"The increased interest manifested in the ROCK ROSE Plant in consequence of the many wonderful cures effected by 'Meyers' Com pound Extract of Rock Rose,' calls for a brief history of it, in order to correct any erroneous opinion that may have been entertained rance and Guarantee Association of concerning it; and also to set in a true light the nature of a plant which promises to be universally beneficial.

We are indebted to the United States Dispensatory of 1847, for the following descrip-

It is entirely different from the common Rose. It is a red-stemmed, oblong leaf plant, having a bitter taste. In addition to a remarkable peculiarity of the plant, of bearing To PROFESSOR HOLLOWAY, two cross of flowers in one season, it also has another interesting and beautiful prosperity. Dr. Euton says that in the months of November and December, he has seen hundreds 111 of these plants sending out, near their roots, broad, thin, curved ice-crystals, about an inch in breadth, which melted during the day and were renewed in the morning. For a more minute and analytical description of it, the

reader is referred to Torrey and Gray's Botanical Works. Its Medical History and Properties are far the most important, since upon these depends its value to the community. Dr. Loudon says that in 1799 it was so valuable in England that it was cultivated from the seeds. Ever! since 1806, Prof. Ives, of Yale College, has habitually used it with great success in Scrofula and Chronic Disease, and through him its virtues were made known, until, as Dr. Tyler says, 'it is now in this section [New Haven] CINGER'S Patent Sewing Machine, Offices a common article in domestic practice for the

cure of numerous cases of Scrofula, especialin children. Dr. Sparry, in his medical werk published 1847, quotes the strong commendation of Dr Eli Ives, Professor in Yale College, who, n his lectures to the medical students, recommended the use of the Rock Rose, even in

cases where the disease is uncertain. The value of the Rock Rose has also been To PHOFESSOR HOLLOWAY, set forth by Dr. Tyler, of New Haven, Ct.,

Assurances may either be effected by Parties on their own Lives, or by Parties interested therein on the Lives of others. The great success of this Institution in Europe and the numerous Policies, issued by the different

Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured.

The income of the Company, independently of the large Subscribed Capital, is about Eighty Thousand Pounds, Sterling, per Annum, and o this a great part is continually accumulating for the payment of losses. A Party effecting an Assurance with this Company, may do so for a fixed sum, payable at his

or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk. The necessary forms, and every requisite information, as to the mode of effecting Assurances,
