Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Aver's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, promoting the ligestion and assimpliation of food, restoring the nervous forces to their normal condition, and for purifying, enriching, and vitalizing the blood. '

Failing Health.

Ten years ago my health began to fail, was froubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedles prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong in ever. — Mrs. E. L. Williams, Alexandria, Minn.

I have used 'Aver's Sarsaparilla, in my family, for Scrofula, and know, if it is aken faithfully, that it will thoroughly eradiente this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded: — W. F. Fowler, D. D. S., M. D., Greenville, Tenn.

I was under the care of various physicians and tried great many kinds of medicines, but ever obtained more than temporary reof. After taking Ayer's Sarsapariila for short time, my headache disappeared, ad my stomack performed its duties more perfectly. To-day my health is com-pictely restored.—Mary Harley, Spring-field, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. I ones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. Railway disasters, like other misfortiones, seem to come "not sengle spice but in battalions." During this the first week of the new year there has been an almost unprecedented number of collisions and amashes up of various kinds, many of them attended with considerable loss of life and limb. Canada has not entirely escaped the general fate.

Prosecuting newspaper men for libel lous statements in their journals seems to be very popular in Montreal. Richard White, of the Gazette, and Mr. Graham, of the Star, have both been committed for trial on a charge of having criminally libelled one Donald Downte A similar charge was recently threatened by Mr. Cloran against the Gazette manager. It is tortunate for some of the grit Ananiases that such proceedings have not become popular in this province.

The Toronte Globe has been quoting the prices of sugar and tea in Great Britain, and asking Canadians to compare them with the cost of the same articles here. Its object was to expose the awful results caused by the national policy in putting up prices in Canada as compared with the policy of free trade in England. It either forgot or thought its readers had forgotten that tea pays no duty coming into Canada! This simple fact completely destroys any argument basid on the dif Steamers leave Portland on Thursdays | ference in the price of sugar on which a duty does exist. For if there is such a difference in the price of tea in the two places, which manifestly cannot be caused by a duty which has no existence, how can the deference in the price of augar be attributed to the duty?

> Gosohen has decided to enter the Salis bury ministry to fill the vacancy left by the resignation of Churchill. He is not, however, to be the leader in the commons. that duty being assumed by Mr. W. H. Smith, the present minister of war. Hu name and portfolio are both singularly appropriate, for the next session bids fair to be a continuous battle. It is expected that Sir R A Cross and Lord Iddesleigh (formerly Sir Stafford Northcote) will ret sign in order to give seats for two ap pointees of the new minister Lord Northcote and Mr. Ritchie are mentioned as their probable successors. The conservatives are, however, atrongly averag to these men and have suggested the names of our governor general and the earl of Morley. The Gladstonian liberals are delighted, at the tumult created in the tory camp by the retirement of th member for Woodstock, and a boom is given to the prospects of reaching m.dus vivendi between the two wings of he liberal party.

It will not be long till the ham et which sticke to gas for its street lighting will be looked upon by travellers, as these gentlemen would now regard a place that still contented itself with tallow dips. "Let there be light," the Ecernal's fiat, is the watchword of to-day. It nevertheless behooves our civic legislators while complying with the wishes of the citizens, to watch carefully that they do not "pay too dear for their whistle." A thing may be most desirable in itself but discretion and caution must

GREATLY INTERESTED Our grit contemporaries are greatly interested in discussing the time or the next dominion elections. Before the dissolution of the Ontario legislature they were shaping their arguments in such a way as to condemp Sir John whichever way he acted, whether he dissolved the house before holding another session or whether he waited till after that event. They were not certain which he was going to do, just as they were uncertain what course would be pursued in reference to they tried to lay a foundation for complaint no matter which course should be chosen.
