THE PUBLIC DEBT

Whether the debt of a country is increasing or rapidly or not, depends entirely on whether the expenditure which causes the debt is a wise one and for legitimate objects of public utility.

22,000,000 a year more than under a conservative government!

But we must not overlook another fact. While a conservative government expended the debt by over \$80,000,000, it expended upon public works and in payment of debt of the province \$115,435,208, thus expending over 35 millions more than the increase in the public debt, whereas Mr. Mackenzie in his five years, while he increased the debt by 40 millions, expended only \$38 millions in similar works so that the debt itself of 1/3 a credit side.
