Great heavens! how that girl lied to me, though her lips uttered no falsehood. She gave herself to me; she swore she would marry me, caring for that other all the time. Did you mark how she shrunk and cowered away from me? How she paled, and glanced at me as though perdi-

That past scene in the library is again before him-is again being enacted -brought to light by his disordered fancy. "Granit, think of something else," implores his mother, in a frightened man-

She clung to him!" His breath is coming in painful "There was adoration in the glance she directed at him! To gain such a glance I would have died. Well!" he stretches out his arms and then he clasps his head, "because of such a glance She has slain me!"

"Granit, my poor boy, do not talk so wildly. Forget this girl; think now of what is the best thing for you to do." "I have thought of that-that is all arranged. "

His tone is impatient. 'Where are you going, darling!" she isks, faintly.

"That she should live, and live with him, is the galling thought; that is more than I can bear. How her little white fingers fastened on his arm! Liar that she is! how soul she has destroyed.

"Oh, not your soul, darling! There is time-repentance. "There is very little time now and I am

unrepentant." He throws up his head and points to the window. The lamps in the room are waning, and through the closely curtained window the first streaks of coming morn are stealing with a persistency that will not be denied. Day is breaking, and with it his mother's heart. The cruel light will tear him from her, will carry

"I cannot." But why-why? "For the simple reason that I don't know myself." There is a curious gleam in his eyes that disturbs her and makes her forget the flippancy of his tone. Mysteries of a Laboratory in the North Carolina Mountains. ASHEVILLE, N. C., Jan. 13.-Last week I went out into the mountains for the purpose securing a holly tree with red berries on it for Yuletide.
