avoiding the occasional great

they noted our presence they scampered along | we'll try for a fire. the shelf until hidden behind a projection. down and along every side. There were a must sacrifice some portion of the boat. The dozen places where the sun was melting the | door to the locker in the stern sheets was undown, and the waves were breaking along made shavings and kindlings of it. one whole side and throwing spray fifteen some of the entrails and fat were cut up in sengers on an ocean steamer passing two or of our cave. As soon as the kindlings were seemed to us to be about as ugly an object as the sea, could bear up. We were on the to, each man for himself, and cut off as much lee side, of course, and as the bears scampered along we pursued until we found their further progress stopped by a high cliff, up which nothing could make its way. We and the fire was soon after smothered out. could come up within half pistol shot, and the In clear weather it would have sent out a

musket. How far the bears had been carried | crow's nest of a whaler, but with that thick on the berg, or how long they had been atmosphere shutting us in, it was simply loat, it was of course impossible to tell; but | burning up precious fuel for nothing. the mate figured from the wear and tear of the big lump of ice that it had been weeks at | hours, and snowing in a way to have made sea. At any rate, the bears seemed greatly | drifts ten feet high on land, very little of rattled at the sight of us, shrinking against the wall and whining like dogs as soon as fire | to the high winds blowing over it. The mate was opened. They were both down after | gave us leave to scatter for a look around. seven or eight shots. You will mind that the ship was to windward of the berg and two miles away. We company as we walked part way along the had pulled around to the lee side, and were | length of the shelf and came to a spot upon consequently out of sight of the vessel. We which we could climb with a promise of had downed the bears and were looking for a view to windward. Up we went, making our lace to make the boat fast in order to get at feet sure at every step, and the howling the carcasses, when, as suddenly as if you | the gale all the time seeming nearer, and had clapped a blanket over it, the sun was by and bye we looked out between two pinbscured, there was a sharp puff of wind. | nacles and had a square look into the face of

and the next moment it was snowing as it | the storm. We were not yet at the top only snows off dreary Cape Horn at the right | the berg by any means, but had struck a verspread in no time, and we could not see the water twenty feet away. The ship had seen the squall gathering and fired guns for | fect turmoil, flinging spray almost as high as out all other sounds. When I said the ship was to windward of the berg, and that it on the side from which the waves were runof whisky from the stern locker and said:

not see a boat's length away, we finally heard | called upon God to save us. The berg kept | which will gradually restore the action on which the bears lay dead. Having been and the heavy ice which covered the sea for cruising among the ice for weeks, our boat miles around us. The berg was driving faster resident. Capital, \$250,000, - Money to lend on the ice, and nothing could check its cond hand Books, which he will sell | benumbed, and it was plain that we must to the sun was thawing. We had a clear sky, times oppress a vast portion of the popu April 2 | have exercise or we would soon be frostbit and could see for miles around us, and a grand | lation. Under the wholesome, purifying

light appeared. The fall of snow was not so

fully dawned, the mate said: water we discovered the bears, but as soon as hauls us. We've got bread and meat, and

He was the first man out of the cave. I exyou never saw an iceberg it will be hard to | pect we'd all been preparing ovrselves to find make you understand just what they are. | the boat smashed to splinters or gone entirely This one stood up 150 feet out of the water at for when Mr. Wharton called that she was all its highest point. The surface was cut up right, a great load was lifted from our into ravines, hills, towers, and all sorts of | minds. To get a fire we must have wood, inequalities, and these inequalities extended and to get wood, as was soon realized, we ice so that streams of water were trickling hinged, and a couple of the men fell to and feet high. I presume some of the lady pas- small pieces, and we started a fire at the door three miles away might have called it a grand | alight we put on pieces of fat, and there was sight, but as we reached the base of the berg a cheer all around as the fire began to blaze up and throw out its warmth. Then we fel. meat as we wanted and held it over the blaze on splinters. Despite the poor roasting and the absence of salt we made a hearty meal mate and Smith were good shots with the smoke to be seen twenty miles from the

Although it had been snowing for so many had remained on the lerg, owing, of course, though warning us against taking any , chances, and presently I found myself in his eason of the year. The whole heavens were | sort of rift in the center of it and about forty feet above the sea. A more forbidding sight I never looked upon. The sea was in a perour faces, and two other bergs, each seemingly as large as our own, were in sight through the haze. One was on what might be called our starboard bow, and the other on the starboard quarter, and the three of were driving off to the west under the in ence of the waves and the gale. Above our

part way down and stopped to rest, "what do

have the chance of being sighted by another "That's all true," he said in a gloomy voice, "and we must keep up our spirits. The most | happy, would become the best of all

I fear just now is another collision. three. They had also obtained a look to feeling the wind shrieking about us, and we ing around to the gale, while it was at the the corner, and were soon at the very shelf on the tremendous struggle between our berg

news came that the appeal had been lost and the sentence must be carried out. "Yes," said the sheriff, "I'll have to have

the poor fellow shot." "Where is he? I don't see any jail." "He's at home.

"Well, you don't expect to get him to come "Certainly I do. He'll be here to morrow. And the merry stranger laughed. Next day he was on hand to witness the sheriff's discomfiture. But a few minutes before the

hour a cavalcade appeared in the distance. It himself to the sheriff. He went about among the crowd, shook hands with everybody, gave one his saddle, another his horse and so on, until he had disposed of all he possessed. Then he selected his bosom friend as the man to fire the fatal shot, an honor his bosom heart, the point the bullet was to take, and was a shot and he was dead. I wonder if there is nothing at all the white man can learn from the Cherokee indian .- San Francisco Chronicle "Undertones."

When Gould Was Blackballed. from the city. Ten of them combined, at the suggestion of one of the colony, and made arrangements with the Hudson River railroad for a special drawing room car on the regular train, so that they could be sure of having seats together every day and be free to talk to each other. Each paid his share of the expense and was entitled to a certain number of seats for himself and members of his family. and altogether it was a very nice, sociable arrangement. They had a coach, too, at Irving-

that the proper thing was to vote upon the sary to state whether or not the vote was the special car. Mr. Gould is not a boor in tainly intelligent. But those business men have certain ideas about ways of making by which Jay Gould has acquired his wealth -Clara Belle in Cincinnati Enquirer.
