Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of spetite, should suggest the use of Ayer's Sursupurilla. 'This preparation is, most effective for giving tone and strength to the enfechied system, promoting the digestion and assimilation of food, restorcondition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years ago my health began to fail.
I was troubled with a distressing Cough.
Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed
by different physicians, but became so weak that I could not go up stairs with-out stopping to rest. My friends recom-mended me to try Aper's Sarsaparilla, which I did, and I am now as healthy and strong as ever. — Mrs. E. L. Williams,

I have used Ayer's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly egadicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever-M. D., Greenville, Tenn.

Dyspepsia Cured. It would be impossible for me to de-acribe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of varieus physicians and tried a great many kinds of medicines, but never obtained more than temporary re-lief. After taking Ayer's Sarsaparilla for a short time, my headache diappeared, and my stomach performed its duties more

perfectly. To-day my health is com-I have been greatly benefited by the prompt use of Ayer's Sursaparilla. It the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered .- H. D. Johnson,

From its wonderful power over this tembly fatal disease, when first offering this now celebrated remedy to the public, Dr. Piracz thought seriously of calling it his "Consumption Cure," but abandoned that name as too limited for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-billious, pectoral, and putritive properties, is unequaled, not only as a remedy or consumption of the lungs, but for all

THE REFORM POLICY.

A grit fly sheet informs the world that the reform party have a policy at last that Mr. Blake announced it at Ogen Sound recently, and that the leader of the party are committed to its advocacy and the carrying of it out There the little scrap gives it all very pit-a-pat. Alas for the poor grit, he will find that the planks of the platform are already sawed nearly through, and to save it the leaders have to stand on either end to prevent an utter collapse. One of the planks is a rotten imitation of that good tree named the N. P. Mr. Edward Blake stands at one end to say, "It is clearer than ever that a very high scale of taxation be retained, and that the manufacturered have nothing to fear, There is no possibility of a change. Sir Richard Cartwright concurs with me. But the knight of the brezen shield, Sir Richard-the commander-in chief of deficits, the original and only originator of soup kitchens, notwithstanding his chieftain says what we have quoted, croaked his old, old tune at Weston, last Friday, and said "he considered the national policy A TREMES DOUS BLUS DER, A MILTANS and that he believed the people had been injured by it," and A. G. Jones, in Halffax, says "The national policy must go." If the gods should afflict the fair dominion of Canada with more than Egyptian plagues by going as a government of grits, by the grits, and for the grits, who is to do the wagging? Is the tail to wag the dog-or the dog to wag the tail ? who Is to govern, Blake or Cartwright? Let the electors be true and then neither will.

Another plank in Blake's platform to "Economy and retrenchment in the public service." What the reformers mean by these well sounding wor is is shown by what they did during the dark days between 1874 and 1878. Then they half built the Neebing hotel near the Kaministiquia river at a cost of \$5,900, an hote! in which not even a mouse ever lived; then they bought tons upon tons of steel rails at high figures, thereby benefitting great'y some dear (in every sense of the word) friends of the min'ster. then they had representatives at the centennia! exhibition, who spent on their riotous living alone in Philadelphia over \$7 600; then print ng coutracts were givento the speaker of the commons;" then wages were reduced, and skilled mechanice had to do the work of day laborers; then the government caused coup Litchens to be established throughout the land, considering it a worthy retrenchment to keep the sacchanic upon the diet to be got in such places instead of letting him earn enough to buy what and where he choose In fact so economical from a common Blotch, or Ereption, where he choose In fact so economical to the worst Serolain, Sait-Fieum, was Mr. Mackenzie's government—so far as the laboring men were concernedin short, all discusses studied by heat blood are conquered by this powerful, purifying, and invigorating medicine. Great Enting Ulters and invigorating medicine. Great Enting Ulters and independent to benign inducence for a rapidly has it manifested its potency in and Swellings, Bose East, Carbunal Solution of the countries of the countries of the countries of the countries of the same would have died; but for live upon and would have died; but for tunniely the advent of Sir John Mac done is stampe for a large treatise, with colored plates, on Skin Diseases, or the same ored plates, on Skin Diseases, or the same amount for a treatise on Scrottulous Affections.

"The BLOOD IS THE LIFE."

Thoroughly cleaned to purifying, and that soon they would have had them so for foot is the direction of giving protection to the varied industries of the countries to the va straw a day-she succeded, but just hen the cow died Mr. Blake's promises a 'e like the apples of Sodom-very fair to look upon-but that is all.

KINGSTON AND THE N. P.

That the business man and the manu facturer consider the national policy, in troduced and continued by Sir John Macdonald, is the best system for Causda is shown by the stand taken by the Kings ton merchants and the Kingston manufacturers. Where do we find the wholesale dry goods merchants, the wholesale hardware, the wholesale grocers? All on Sir John's platform (except the firm of A. Gunn & Co.) Where do we find those interested in the cotton mill, in the hosiery mill, in the stove business ? Sir John's committee rooms. Where are the lumber merchants? With Sir John Without the N. P. even the locomotive norks would be shut up. Where do we find the leading forwarders and ahtp pers and ship-owners? All helping on Sir John's canvass. Take away the conservatives and their works and their bust- | 1878 nerses from Kingston, and very little would remain, but the lunatic and idio saylume. We feel sure that every wor ... butter for his bread. The Yankee who awallowed stewed crow said he could ert it, but drat him if he banker I after it. So the honest workingman, who is willing, at all times, to do a fair day's work for a fair day's wages, can eat Cartwright's soup, but he says : "Drst me, if I hanker after it." And he will on Tuesday next daughters robust health; frequently, aland ald, and then his wife can go a shopping all important changes take place in the and find that with her dollar she can get female constitution, upon the management and find that with her dollar she can get female constitution, upon the management of Dr. Bage's Catarra Remedy for a case of estarra which they far more of groceries and of dry goods now of which depends future happiness or Dollar and Endower's Pills associable if

This list would have been much larger had he grits not set up a hopless opposition in number of constituencies where the conservative cardidates are sure of elecion. Thus Sir John is sure in Carleton, Hon. Mr. Kirkpatrick in Frontense, Mr. Bell, in Addington, Hen. Mr White in Cardwell, Col. Tyrwhitt in South Simcoe, | Yale B.C. Mr. Hall in Sherbrooke, and Mr. Burns in Gloucester; but they are opposed by men of straw that the government may not have the moral effect of their election by acciamation. The conservatives are ready, however, and confident that Tuesday's battle will result in a decisive vic tory for the government.

The announcement of our learned friend, Mr. John Maule Machar, in the grit meeting, that Sir Richard Cartwright had been elected by acclamation, caused a Grenville, South terrible waste of enthusiasm, and "warmed the cockles of the grit hearts" in vain. Grey, North The gallant knight of deficits has a strong opponent in Mr. J. J Hawkins, who will Hamilton keep him actively engaged in his own constituency, and who will make a vigor. Hastings, West ous attack on the grit strong hold in which Sir Richard found a secure seat.

Sir John Macdonald has given the anchise to hundreds of young men this city who will vote on Tuesday for the first time Mr. B'ake and his followers opposed the franchise bill bitterly for five months. Young men! Vote for the man who has given you this privilege and show that you are grateful.
