THE RESULT OF THE ELECTIONS The discrepancies which exist in the election returns as given by the two parties are accounted for by the Montreal Gazette as follows:

"Mr. Greenshields, opposition, is represented as having been elected for Richmond and Wolfe by a majority of 19; he was defeated by 153. Mr Auger, opposition, is credited with success in Shefford; he was beaten by 31 Mr. Desjardins, men ber elect for Hochelags, is classed as a supporter of Mr. Blake; le government, was bitterly opposed by the iberals and nationalists and elected by he ministerial majority in the constitu ency. Mr Therien, of Montoalm, is coming a candidate for the commons. placed in the opposition column; he is a life long conservative, connected for a considerable time with Le Monde, who presented himself and was returned as a straight supporter of the government Mr Guilbault, of Joliette, is represented as a liberal, returned by acclamation; he was opposed by a nationalist, and elected as a supporter of the government as he has been for the last five years. M Desaulniers, of Maskinonge, appears in the Globe's forty-one oppositionists; he is a national-conservative who was defeated by a straight ministerialist. So much for the reliability of the Globe's figures.

The actual position of parties is not a difficult matter to determine. In Onta-Are offering extra inducements to parties | rio journals of all shades of politics agree that fifty-two conservatives and thirtynine liberals have been elected. In Nova Scotia fourteen conservatives and seven berals have been returned. In New Brunswick the result is nine to seven, conservatives being in the majority; the eix island seats have been carried by the opposition, and in Manitoba three of the four constituencies have elected supporters of the government. The Toronto Globe says: "It would be unkind to doubt the Kingston News' statement, that Sir John Macdonald's victory there was "bought and won," but if the organ wants to prove that it knows what it is talking about let it give us the price" It would be unkind of the Globe to doubt a statement that was never made We never said that 'Sir John Macdonald's victory" had been bought and won. We said the battle had been bought and won, i. e., bought by the grits and won by us.

The New York Times was one of the few American, papers whose Canadian correspondent did not predict a grit victory. The Globe belongs to the class tha require long memories. While claiming hast the opposition have a majority of one, the editor in an article entitled "A scoundrelly act" speaks of "those who in Sir John Macdonald's small majority." The paper in question an swers itself effectually.

The Globe is pained that party political are not introduced into the pulpit. such a practice were to become common Canada might be a paradise for those suffering from party rabies, but the sober portion of the population would seek a ledge in some vast wilderness elsewhere.

NOW THAT THE SEASON FOR

BALLS and EVENING PARTIES Has fairly set in, we would caution our friends and patrons against exposing them selves to the cold frosty air, after dancing and enjoying themselves in over-heated rooms. The best known preventative against taking cold under such circumstances is to take a good steaming hot cup of JOHNSTON'S FLUID BEEF just before leaving the house. It prevents the cold from striking in, and will ep you warm and comfortable either walking or driving.
