If the same paper there. clear statement of the theory. The had any sense of decency it would cease "Oh, isn't that too cuming for anything!" learned gentlemen showed how the variation of the strategies of th tions in characteristics between the com- Mowat's government which by its gerrymon offspring of the same parents, the mander act "stifled public opinion, and many." enormous amount of reproduction that set the will of the people at naught." goes on in the vegetable and animal the survival of those best adapted to the prosecution of respectable conservative conditions of their being, contributed to citizens has been the complete exposure the production of new species. He and refutation of grit slanders. The conpointed out the similarity, almost iden- servatives of this city, and of the domintity, of structure in man and in the anthro- ion, have been assailed with a storm of poid age, and declared his belief that contumely and slander during the recent physically man was descended from the campaign. The break down of the cases apes. Here, however, Prof. Wallace tried in the police court, the absence of a stopped. He abandoned his theory when shred of damaging evidence, should be the sphere of soul and intellect was enough to convince disinterested people

plause by the audience, they apparently pacity in their rulers. thinking that it would have been dismisconception this view appears to us t be. The splendor of our powers cannot be dimmed by a retrospect of whence we came. Our immortal destiny, if indeed we have such an heritage, belongs to us none the less because ages ago our ancestors were brutes. What we are, we are; what we shall be, we shall be; what our duty is, it is. Let us therefore pursue our enquiries in calm indifference the goal whither they may lead us. Pre sent facts being with us, past facts cannot be against us.

There is nothing monstrous about the cure, as we have connection with the hypothesis that the brain of man is a rich development from that of the ape, or that the mind and soul of man are developments of such intelligence as we see in the lower animals. A mysterious evolution takes place before our very eyes in Canadian architects are ruled out; a Mr. the world. From the embryo to the infant what an immeasurable distance Mozart, what an immeasurable distance! Yet noone thinks of being astonished at this every day miracle. Why then might Gazette from the North-West is to the not the same process have occurred in the development of the race? GRANT ALLEN'S DAY-DREAMS.

The citizens of Kingston will read with astonishment the extraordinary utterance of Mr. Grant Allen, originally published in the Pall Mall Gazette and reprinted in another column. Mr. Allen has attained some distinction as a man of science, but latterly he has gone into novel writing. The faculty of accurately observing facts is supposed to be one of the most peculiar requisites of a man of science, and certainly if it be we can easily understand rregular appetite, and dulous British public. Let anyone, if he Through the silence I will send my heart. Dyspepsia, and Torpid Liver, | can, recall anything in his own experience | 'If, perhaps now, while my tears are falling.
