MAJORITIES. Grit journals point to the large majorities secured by several of their political friends in Ontario and then ask if that does not prove that the Tory victory in this province has been due to the "jerry-mander."

Mrs. Beecher has gone to Florida with her daughter, Mrs. Scoville. An excess of animal food and a partial closing of the pores of the skin, during the winter months, cause the system to become filled with impurities. These can be removed and the blood purified and invigorated by taking Ayer's Sarsaparilla.

Sarah Schaffer, the colored woman who was purchased from her owner by Plymouth church at Mr. Beecher's suggestion in 1860, and given her freedom, is still living at Peaskill, where she has a little place and sells chickens and eggs for a living.
