Regulate my bowels. These Pills are mild in action. and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.

— G. F. Miller, Attleborough, Mass. Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered

for years. I consider them the best pills

made, and would not be without them. -

Morris Gates, Downsville, N. Y. I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends de-spaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor. - J. hn C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the ficsh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels. By the advice of a friend I began taking Aver's Pills. In a short time I was free from pain, my food digested properly, the

sores on my body commenced healing,

and, in less than one month, I was cured.

— Samuel D. White, Atlanta, Ga. I have long used Ayer's Pills, in my family, and believe them to be the best pills made. - S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.

### BEWARE!

The class of gentlemen who have for years been operating on the guileless simp'leity of our country cousins by selling them patent churns, hay forks, etc., have taken a bold step in a somewhat new. field of speculation. They have actually ried to an her themselves under the protection of incorporation and have formed a stock company with all the form dable array of president, amenatary, transurer, etc. All his gives the govern an accest ance of agir t - arrye with this they make

concrects with fa mers adling them a quantity of an alleged valuable kind of wheat at \$15 a bushel! Of course no farmer would be likely to buy at such a price if some s rong inducement were not held out to him. This they do by agreeing to buy bick what he produces from the wheat in question at \$10 a bushel. It is said they somehow forget to call for the wheat which they thus agree to buy at such a fancy figure. By the time the harvest arrives the company will be found miss ing. The matter has been brought up in the assembly at Toronto with a view to having the law so amended as to prevent the perpetration of this artful scheme Hon. Mr. Ross feared it would be found practically impossible to frame the desired act in such a way as to prevent the perpetration of the fraud complained of The exposure of the scheme will serve as a warning to our bucolic friends.

Mr. McDowell, one of the recently elected conservative members for the North-West territories, had business u gently requiring his presence in Engand, but in order that his party should not suffer from his absence, he arranged a "pair" with Mr. Edwards, the grit M. P. for Russell. The Free Press at the capital is very indignant at this and pitches into Mr Edwards, charging him. in effect, with throwing away his vote. Now "pairing" is by no means an un usual thing, but what makes the gritmad is that they think McDowell was obliged to be absent whether he got paired or not, and they hate to lose the advantage. which such an accident placed in their hands. These are the men, however, who prate so pharisaically about fair play and honorable warfare.

A bold effort is being made to defeat Mr. Norquay in Manitoba, by means of a coalition. Mr. Brown, one of the cabi net ministers, recently resigned, and it is whispered that he intends joining hands with the leader of the opposition, Mr. Greenway. The grits feel confident of defeating the government on the meet ing of the legislature in a few days from now. It would look as if history were re peating itself and that Manitoba is having the experience which Ontario had when the noble "serene-souled" Bake seduced Mr. Wood from his political allegiance and caused him in response to the notori ous "speak now" missive to suddenly

strike the leader in the back of a certain baking powder, at Montreal under the act against the adulteration of powder is not a "food" within the meaning of the tatute and consequently even if it were a fact that it is largely orm posed of aum, proved to be poisonous to the stomach, the manufacturers could not be dealt with under the act in question The judge after taking time to consider the matter has allowed the objection although used in the preparation of food is not "food" itself. This certainty seems tobe limiting the word much farther than we belive the legislature intended.

The appointment of the Hon. J. B. Plumb to the speakership of the senate will be received with general satisfaction, not only by the body over which he is to p eside, but by all who have had the good Warehouse fortune to have been brought in contact with him. He has had considerable experience as a parliamentarian, and is also possessed of social qualities well adapted OARPHT' ROOMS. for the high position in which he has been p seed. As a public speaker and debater, he has shown talent of a very high order, and his private work has long been acknowledged by all but the most bigoted of his political opponents.

It is rumored in Ottawa that Sir Adolphe Caron is about to retire from the position of minister of militia, and become lieut.-governor of his native province. King Solomon's Device Fails. A habeas corpus case was brought before Judge Dicken for trial last Tuesday for the possession of a colored baby. There was an able array of counsel for both claimants. Both sides proved so much that Judge Dicken was in doubt about who really was the right owner of the child. Bethinking himself of a Bible precedent, the judge proceeded to grasp the baby by the leg, reached down into his girdle and pulled out his bowie and proposed to do the square thing by the claimants by slicing the buby in two. Both claimants. thinking the judge had the right to divide the baby, rushed frantically up to him, saying Boss, don't kill him. You may have him. Henry County (Ga.) Weekly.

A Local Providence. Wanted; Adjustable Glass Eyes. One of the most serious defects of the glass eve is its single barrelled expression. To a person of sensitive nature this is an appalling obstacle, and the man who can invent an eye that works on the same plan as a seven shot revolver has millions within his grasp. Just imagine what a revolution such an invention would create. By a simple twitch of the eyehid the proud owner of a revolving eye could turn of any kind of emotion he desired. This invention would make the glass eye a perpetual joy. If the proprietor happened to be at a funeral how easy it would be to cast a gloom over the whole countenance by twitching the hid and letting the eye revolve around to station S. M.—"sadness and melancholy." So on through the whole list of emotions. If it was desired to paralyze a book agent the panorama would move around to the plate with the "cold, steely glare." This could also, be used with good effect at church fairs. So the eye with the "soothing, persuasive expression" would be such a convenience when one came home late from the lodge. And so on. But, alas! the revolving eye has not been invented and the dainty esthete who wishes to throw his soul into his gaze must either carry an assorted collection in his pocket or only let his emotion flow out of one eye.-New York World.

You know in fly loo each man lays a siece of sugar on the table, and the first one hat gets a fly looses the drinks or stakes. Last surumer I was at the Arcade in Denver, and one day a smooth looking eastern chap walks in an suggests fly loo. We carl got a lump of the bartender and went to work. It was first fly lose, for a dollar a shot. I got the first fly nd the second, and also the next eight. By hat time it dawned on me that he must have loctored his lump, for there wasn't a fly that uld go within a foot of it. I was pretty ore, but just then a brilliant idea struck me, and I proposed that we try ten more goes at \$10 apiece. He said all right, but when we of the money up I insisted that the rule hange and first fly win instead of lose. To my surprise he agreed to that, too. Well, to nake a long story short, the flies swarmed all over his lump for ten straight times, but nary one came to see me. When he put the last taxes in his pocket I was the wildest man in lolorado. I knew I'd been robbed, but didn't ee how it was done. Finally I called the stranger aside and said: "My friend, don't suppose that I'm impu-

GRATEFUL-COMFORTING. EPPS'S COCOA BREAKFAST.

"By a thorough knowledge of the natural 'aw which govern the operations of digestion and nuiri tion, and by a careful application of the fine proper tice of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored bev rage which may enve us many heavy doctors' bills It is by the judicious use of such articles of diet tha a constitution may be gradually built up until strong enough to resist every tendency of dis ass. Hundreds of subtle maladice are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well, for filled with pure blood and a properly nourished frame "—"Crvil 8-rvice Gazette." Made simply with boiling water or milk.
