Failing Health.

Ten years ago my health began to faft. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla. which I'did, and I am now as healthy and strong as ever .- Mrs. E. L. Williams,

I have used Ayer's Sarsaparilla, in my family, for Scrotula, and know, if it is taken faithfully, that it will thoroughly eradiente this terrible disease. I have also prescribed it as a tonic as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever ompounded. - W. F. Fowler, D. D. S. M. D., Greenville, Tenn.

scribe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines, but ever obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is com-pletely restored. — Mary Harley, Spring-I have been greatly benefited by the

proinpt use of Ayer's Sarsaparilla. It ones and invigorates tho system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered. - H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.

THE CURRAN RESOLUTION.

Mr. Landerkin, of South Grey, will no loubt pose as a friend of Ireland; yet on Friday, in his speech, nominally in favor of Mr. Curran's resolution, he gratultously lugged into the discussion a criticism of the course of some conservatives on the Blake resolutions of last year. Had the resolution now before the house issued from the government, and had Mr. Landerkin been opposing it, his criticism would have been perfectly in order But on the contrary this resolution was the United States, which prevents rail brought up by a private member, and | ways discriminating in favor of the great Mr. Landerkin professed to be supporting | grain shippers in the North-West, has it, yet, knowing that to provoke the hos- given an immense impetus to the lake tility to it of the government and its traffic from that section of the country, friends would be the very best possible | and it is expected that fully 75 per cent. way of slaughtering it, he deliberately of the standard vessel tonnage of the and unnecessarly travelled away from the lakes will be employed in that trade at resolution to attack the government, proving most conclusively that his main purpose in speaking was to make a political point even at the expense of the defeat of the resolution which he was hypocritically pretending to support !

past course of the wire-pullers of the London, Oat :grit party on the Irish question. Their love for that country was of suspiciously sudden growth, and their tactics proved that they cared very little what became of the resolutions provided they could put the government, in a false position, andone is strongly led to suspect that many of the grits would have been much better pleased had the government squarely opposed them and thus brought about their rejection, in the hope that such a result would lose the government the further support of those in this country who are friendly to the national movement in

We may observe that so far Mr. Landerkin is the only member who has inany way attempted to make the Curran resolution a political football. Messra: Laurier and Blake both made strong speeches in favour of the resolutions, yet had the decency and common sense to deal with them without mixing up with the consideration of them any reference to the course of government supporters in previous years.

O'BRIEN'S VISIT TO CANADA. Archbishop Lynch has wisely cabled acress the Atlantic his opinion that the coming to this country of Mr. Wm. O'Brien, the editor of United Ireland, as proposed by him, was entirely unadvisable. We have no doubt that such an expression of opinion, coming from a source whose fidelity to the Irlah cause is obove suspicion, will have great weight and will convince Mr. O'Brien that his visit to this country for the purpose of attacking the governor general would be 2:30 p.m., have been sent to the various

They con demn the visit of O'Brien but quote with disapproval an alleged paragraph or item that is said to have appeared in the London Times and which states that the dominion government would probably arrest O'Brien if he etrongly attacked the governor. There is no ground whatever for any such item. The government here has made no such statement of intention nor anything that could be construed into it. No doubt if a very violent and growly insulting attack were made upon Lord Lansdowne the government would promptly protect the representative of her majesty from outauthorities of that country in punishing | the United States and Canada. the insulter, and, if they failed in that, the British government would be justified in demanding his punishment. Much more would the Canadian authorities be bound to protect the governer general. It is too bad, however, that any attempt should be made to make political capital out of the item in the Times, unsupported, as it is,

From the Montreal Daily Star. The warning uttered by the Star of the attempt that is being made to rush the abattoir scheme through the council perpetuate another monopoly upon citizens of Montreal for a period twenty years has had its effect and those most interested in the matter are awakening to the danger with the prospect that the designs of the ring may be nipped in the bud.

(To the Editor of the DAILY NEWS,) Sir,-Owing to the fact that the National Canadian lacrosse association of Canada, in a recent convention held in Montreal, upheld the action of the committee of management of that body in ordering the Toronto lacrosse club to proceed to Montreal to play the Montreal lacrosse club in that city for the fourth time during the season on the 27th of November, 1886, as against once that the Montrealers played the Torontos in Toronto, the Toronto lacrosse club decided to withdraw from an association from which such scanty justice was meted out to them. Although the Torontos were actually forced out of the association, they still consider that it was a fortunate circumstance which brought about this result, and they have already taken steps towards the formation of a new association, the result of which must be that a great impetus will be given towards the development of our national game in western Ontario.
