The mayor again rose to remark that this application for aid to her majesty's militia force was perfectly ridiculous. He

Councillor Battell said he would like to do something for our own volunteers, but he couldn't agree to vote for the amount asked for by Councillor Hewson.

On motion of Councillor Deering, the clerk was instructed to write to the officers and inform them that the town council would not entertain their request.

It is to be hoped that there are few municipal bodies in the dominion capable | sion for this feeling, as every sufferer can of such an exhibition of littleness as the Cobourg town council. Their right to refuse the prayer of the petition was undoubted, but good taste and decent causes of seventy five per cent. of such manners required that the refusal should | maladies as Biliousness, Indigestion, have been courteously made and free Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palfrom the petty ridicale which even ignor pitation of the Heart, and other distressance and stupidity fail to palliate. Mr. Hewson stands out in worthy prominence all the more conspicuous from his sordid surroundings.

A bill, called 'the Gallagher bill," de of guests and other inmates of hotels, which is now pending in the New York state assombly, is making a great stir among hotel proprietors in the Metropolis, who are not disposed to 'let 'er go Galligher' by any means. The managers and proprietors object mainly to the provisions of the bill, which necessitate the construction of galleries under the windows and iron ladders to connect these with the street, and which prohibit the employment of elevators situated nearer than twenty feet to the stairways; because, they say, the balcony provision is simply designed for the better protection and encouragement of hotel sneaks, and would depreciate the value of the rooms immensely, and-referring to the elevator trouble-a space of twenty feet would afford no more protection to people on the upper floors who wanted to come down the stairways, than two feet would if the elevator shaft were not fire-proof. Besides, it would cost she big hotels millions to move and re-construct their elevators. Hotel horrors are "horrors" without doubt, and guests are entitled to every protection from the fire fiend which can be afforded, yet the death rate in hotels is as one to ten in private houses, and as
