OTTAWA, May 7.- There is a strong im pression in political circles here that the Government intends to prevent Mr. William O'Brien from speaking in public. This idea gains confirmation from the fact that the French papers, which are organs of the Ministers, have been at work for several days preaching that the sole purpose of Mr. O'Brien's visit is to make trouble and that Lord Lansdowne, as the representative of the Queen, must be protected. FRESHETS IN NEW BRUNSWICK.

Boat Landings and Streets at Portland Ender Water. St. John, N.B., May 7.-Not since 1854 has this province suffered so disastrously by freshets as this spring. The wharves and boat landings in Portland are under water, the streets fronting on the river have all been inundated and many firms have been obliged to suspend business. The cellars of twelve tenements and the school house have been invaded and one building was carried off. All the mills in the immediate vicinity and in the har bor have been obliged to close except two and several hundred hands are thrown out of employment. The floods have extended at some points far inland and the river yesterday was rising half an inch an hour, passing the high-est point ever before reached. If it continues its advance at the same rate as during the last
