Is it Fact or Fiction? The Campbellford Herald has the fo lowing startling paragraph in its last issue: Two of our citizens who had occasion to travel the country some miles north of talion to demand from the proprietors of the Canadian Freeman, a retraction and | Coe Hill, in North Hastings, last week; were unable to even purchase food. The nettiers complained of scarcity and refused money when offered them, fearing that their supply would be insufficient to carry them over to harvest. At one place the travellers stopped and asked for dinner and the genial old Scotchman, who was 'lord of the manor,' received them kindly, and said he thought he could accomodate them. They sat chatting with him about holy eximmunion, at 9:30 a.m., and the two hours, and then their host went to see if the meal was ready. In a few minutes he returned and told them he was afraid they had not enough for themselves, and the hungry travellers left as they The third action against the notorious came. CLOSING UP THE EVIDENCE FO THE WEEK.

What Mr. John McEwen Had to Say About the Botlers-Important Testimony from

At 2:30 yesterday afternoon the arbiration resumed its sitting. Mr. Charles | able fun this morning prior to adjourn-Booth said that he was a civil engineer | ment, and when the arbitration did adand resides in the city. He was em- journ, proceedings were stayed till the ployed to examine the excavations in the 18th. streets and test the electric light pits. The result of the examination is 3 feet 8a inches of clay to the pits, and at the in tersections of streets, 3 feet 7; inches. In hirty tests, as to thedepth of water pipes, the average is 4 feet 75 inches. He made all measurements and also took the capacity of the reservoir. He had measured 145 test pits, but could not swear accurately to the whole number of tests. He could to 114, however. Thirty one measurements had been omitted from the statement by accident. He was amployed odo the work by Mr. Irving and found 145 holes. He reported to Mr. Irving where | Swift's last evening the holes where, and then made out his statement. Mr. Whiting wanted a state ment of the measurements of thirty-one pits, and said that he would can the wit ness again. Mr. Kirkpartrick asked wit ness if he had measured the excavations in the reservoir. He said he had, but did not know the measurements; they for R Crawford. were on the plan. The plan was secured when it was found that the height of the retaining wall is ten feet. He messuredit on the east and west sides. In measuring the wall, he dug down to the base He was asked what the depth of the wall is on Colborne street, and he answered that | waiting for men. he had only taken an average, and that if the wall was more than ten feet in some places, he would admit that he was in error in his measurements.

engineer in the water works there, said In regard to the 14th going to Montreal | he had been in that position for 13 years The message was rather fudefinite of Toronto's work for laying 12 inch pipe, the terms which the company offer if the | \$10 for pipe laying. The cost of excavating a trench 5 feet, 5 inches wide at the rento paid \$24 and in 1884, \$28.75. The tenders for 1887 received were \$23. 75, \$25, \$23 25, \$25, \$23 45 and \$22 The last price was accepted. The cost of excavation for 6 inch pipe is \$10.50

Thos. J. McMinn, of Toronto, assistan

and for laying \$6.50, 'totalling \$17\_to inch pipe Nine dollars was paid for setting hydrants, which coat this year \$31.50, but which were bought last year for \$27 The tenders received this year for laying 3 inch pipes through macadam, were : \$11 75, \$12, \$12, \$11 45 and \$11, the last tender being accepted. For laying 6-inch, the tenders are : \$19 25, \$18 85 \$17.75, \$17, \$18.45 and \$17.50 The latter was accepted, although not the lowest. Service pipes ranges from to inch. Sometimes double service pipes are laid, and from one pipe two branches can be run, entering two houses. A half inch is placed from the main to the side walk, and a three eighths from the side valves they cost the company \$17.124 each last year, and this year they have contracted for fifty at \$16 each. In answer to a question by Mr. Whiting as to whether they had found that pipes or valves, deteroiated; Mr. McMinn said that would be a difficult question to answer, but that he knew pipes that had & Co Belleville, was entered by burglare, been under ground for some years, when lifted to be crusted inside with rust, thus

stopping the flow of water to a certain extent. The outside of pipes are also day last week and appropriated a quantity often affected by the soil they have lain of clothing. tn. An iron pipe is more liable to deterioate through rust than a lead pipe The natural soil of Toronto sand, sand and clay, , and considerable hard clay. In certain places there is running sand. The Toronto works capital stock is about two and a half millions. In regard to the success of the new engines witness was unprepared to make any statement. Last year when

excavating, the contractors found a little over ten feet of quicksand. Mr. S. Birch, of the firm of McKelvey & Birch, next gave evidence. He said that he has been in the steam fitting and plumbing business 17 years He has examined the brass fittings of the water works company in stock, and valued them at \$1,429,69, \$720 31 less than the value put on them by the company. In regard to the best fittings, if they were in his store he would gladly sell them for the street. valuation he has put upon them. The iron pipes on hand he also examined, and valued them at \$32.50 per ton. The meters in stock and in use, are worth, in his opinion, \$1,208 70; and the tools \$677.98 Five quarter inch service pipes, 33 feet long and seven pounds to the cubic yard, he values at \$7.85 each.

Saturday Morn'ng.

The arbitration adjourned at 6:10.

Mr. Birch was cross-examined at length Mr. Kirkpatrick. In speaking of e price of lead pipe, which he said was c, wholesale, he said that the asylum used ron pipe, and that if he were to sell lead pipe to the government it would be for 7c. the retail price. He would not cut pipe for 5 c, as there was considerable waste in cutting. Then there were joints which would cost 35c. each. He thought a day's feet of lead pipe, the trench to be open 20 feet at a time, and from a day and a half to two days' time a reasonable charge for laying 264 feet. He would charge a little over a cent a foot for laying 1,300 It looks as though Principal Grant feet of 15 inch fron pipe. It would

Witness was examined at length re garding what he would charge for taps, meters, etc. Jno. M. McEwen said he has been a member of the firm of McEwen & Son worth about \$600, the two new boilers prices, because they were second hand, Mr. Kirkpatrick cross-questioned wit. ing. and Mr R D Anglin in the evening. riess and asked him if he did not "Ludy Duke," chestnut filly, foaled just jump at his estimates, and the

## WHERE TO COME THEY KNOW

The reason why so many people from neighboring towns come to our Store to buy their Clothing is, because they can have such a large line to select from, at prices that are always as low as the same quality of clothes can be furnished.

We never advertise anything but what we can show when called upon to do so.

It takes but a short time to name an advertisement to catch people, but it takes years to win them back after they have once, been deceived,

the demand for lighter weight Clothing as the season advances.

We are constantly placing new goods on our tables to meet
