

The First Sign

Of falling health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite...

Falling Health.

Ten years ago my health began to fail. I was troubled with a distressing Cough, Night Sweats, Weakness, and Nervousness. I tried various remedies prescribed by different physicians...

Dyspepsia Cured.

It would be impossible for me to describe what I endured from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many kinds of medicines...

Ayer's Sarsaparilla.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5.

GALLOWAY.

How dear to my head was the Fur Cap of winter.

The story of a Cap that now I feel I can't do without.

Which because it is so light, I return to you.

But, like to the Cutler's Hat, it is not so light as I say.

That the soft fur or because lighter than any.

And cheaper still at a quarter in May.

The above allusions are forced upon you by the return of Spring, and, as editors say, let them remember that Galloway sang it first and deserves a call.

The Kingston News.

67 PRINCESS ST., KINGSTON, ONT. THE DAILY NEWS is published every evening except Sunday, and delivered by carriers in all parts of the city for \$1.00 a year, or Fifty Cents a Month.

THE CHRONICLE AND NEWS is published every Thursday morning, and sent, post-paid, to any address in Canada, the United States or Great Britain for One Dollar a Year.

ADVERTISEMENTS, first insertion, 10 cents per line; second insertion, 5 cents per line; when not inserted every day, 10 cents per line each insertion.

LEWIS W. SHANNON, Editor and Publisher.

A convention of Young Liberal Conservatives is called for Toronto on Sep. 13 and 14 for the purpose of forming a Provincial association. There will be no limit, we understand, to the number of delegates who may be sent from any assembly or any electoral riding, as it is felt that the matter of forming a Provincial association being a very important one, the very full representation is desirable.

THE WATERWORKS.

Up to the present no action has been taken to give the property-holders an opportunity of voting for the purchase of the Kingston waterworks on the terms fixed by the arbitrators in their award, but there is no doubt a by-law in this regard will be prepared and submitted to the people.

An objection is made by property holders who have wells on their premises, who do not desire to take the city water, and who think it would be a hardship to be compelled to pay for the acquisition of waterworks for which they have no use.

It is generally supposed the Hon. Mr. Archer, Interior Secy, according to the latest newspaper returns Mrs. Langtry is to marry four different men as soon as her divorce is accomplished, while she herself says she is "wedded to her art."

QUEBEC FINANCES.

Hon. Mr. Mercer, the new premier of Quebec, is in great luck. The province has been chronically hard up. Its people have become accustomed to the announcement of deficits as were the people of the Dominion under the able administration of Messrs. Mackenzie and Cartwright.

Mr. Wiman's First Duty.

The most urgent duty devolving on Mr. Wiman is to beseech the American government to take the tax off from Canadian "broilers," and by this means secure the free admission of them to those who are near enough to hear them cackle, but are prevented from fanning them over though they are seen standing on the fence.

Prominent People.

Mrs. Cleveland will be 23 July 21. Mrs. Langtry read a patriotic poem as part of the fourth of July exercises at San Francisco.

Julius Verne is 50, and with the exception of a stiff knee, caused by a shot from an insane nephew, is hale and hearty.

Will Carleton, the farm hand, who has just been elected trustee of the Hillsdale (Mich.) college, says that no post-mortem has ever been conducted in the Queen City of Green, is short and stout, but his figure is graceful and well formed, and his hands and feet are true.

Carrie Williams, a Detroit beauty, has brought, through her attorney, a suit in trespass against Photographer Tomlinson, of that city.

It was the late Granville Moody, the Fighting Parson, who at the battle of Stone River rode along his line shouting, "Give 'em hell; boys; give 'em hell in the name of God and your country!"

There is a specimen of American reasoning on commercial union, taken from the Detroit News.

Here is a thought from the lips of President Gates, of Rutgers college, which is commended to those who are so earnestly and persistently claiming for every man a voice in the affairs of government: "Not that all men govern, it is decreed that all men must be laborers."

A NEW INDIAN POLICY.

As Proposed by Henry Guy Carleton—Sloop and Spelling Books. I confess that I regard the situation as grave and critical. There are 400 Indians, including squaws and papooses, on the war-path, and our total available force with which to meet their ruthless advance upon civilization is even less than 25,000 regular troops.

Although the secretary has at his call the advice of persons who have studied and mastered the Indian question during a long residence in Washington, and whose experience with savage life in New York, Ohio, Indiana and other frontier states enables them to speak with assurance, I trust we will not despise the few little hints I have brought with me from New Mexico and Texas.

Here is a specimen of American reasoning on commercial union, taken from the Detroit News.

But aside from the enormous market which Canada would secure for her boots, shoes, cotton and eggs, the entire Canadian population would receive inestimable benefit by having American goods placed before them at a larger market.

It would puzzle the News to show how Canadian manufacturers are going to sell goods to a people whose "vast manufacturing industries" are at the same time unable to supply Canadians with cheaper goods at home.

London wants the earth. It has just secured a new railway, and now the Advertiser is agitating to secure the Grand Trunk shops, which, however, are to be located at Stratford. But hold!

Nicholas Flood Davin, M. P., is no body's fool, and he stirred up Philosopher Mills, of the Advertiser, considerably last session.

Rev. Mr. Oakley, of the First Methodist church, Pictou, told his people that during July and August he would preach sermons only fifteen minutes long.

The merciful man is merciful to brutes. This does not refer to the able-bodied person who jumps on an over-crowded car drawn by a poor horse, while the mercury is dancing around the nineties.

The Crow Indian has proved his claim to rank with "civilized" men. He has been caught selling large stones in the middle of the load as hay at \$10 a ton.

A Rochester firm advertises "vacuum beer." What Canadians generally call for is beer that will do away with a vacuum.

It is a good thing that the human body is three-fourths water. If it was not the whole population of this town would dry up and blow away.

A Case for Globe "Discipline." Christian Guardian.

The effect of this jubilee celebration is salutary. It will warn and strengthen loyalty and patriotism, and remind us that, in spite of the common disposition to complain, as a people we have many causes for thankfulness.

Mr. Wiman's First Duty. London Free Press.

Let packages of soap and spelling books be scattered through the fastnesses of the Members, the Sierra Blanca and the Magellan mounds, to discover the real condition of the people.

Have One Word. By JOSEPHINE POLLARD. The sun shines out for a day or two. And then the skies are no longer blue. And then come shadows, and clouds and rain.

Let packages of soap and spelling books be scattered through the fastnesses of the Members, the Sierra Blanca and the Magellan mounds, to discover the real condition of the people.

We will sell the remainder of our stock of soap and spelling books at a special price. This is the time to buy a carpet cheap at R. McPaul's.

The best medical writers claim that the successful remedy for nasal catarrh must be non-irritating, easy of application, and one that will, by its own action, reach all the remote parts and affected surfaces.
