The Case of Sharp.

New York, July 12.—Jacob Sharp did not awaken this morning until after ten o'clock. The dizziness which troubled him yesterday had gone, but in his place came severe pain in the head. He was unable to get up, but to his chagrin where he remained without being able to get to his chair. Despite the fact of so sorrow being his day of sentence, and the pain in his head, he was more cheerful than he was yesterday. He ate nothing this morning, but drank several glasses of milk. Mr. Stickney spent half an hour with him talking on legal matters.

W. J. Canfield, who was a former of the jury that convicted J. C. Sharp, has withdrawn his name from the petition asking Judge Barrett not to sentence Sharp to imprisonment, but to impose a fine of \$5,000 only. He says he signed the petition with the understanding that all the jurors were to sign it, but that two of them refused to do so. He says Judge Barrett has intimated to him that he feels it his duty to sentence Sharp to prison, but on account of his age and health it will be for a very short term.

New York, July 13.—The Sharp case was adjourned until tomorrow on account of the illness of Judge Barrett. Sharp was confined to Lincoln street jail. Detroit, Mich., July 13.—A rumor is current here in local railway circles that the trip of S. R. Callaway, late general manager of the Union Pacific railway to Europe, was not wholly in search of health, but in response to a summons from Sir Henry Tyler, M. P., president of the Grand Trunk. THE RED RIVER VALLEY ROAD.

Winnipeg to Take a Quarter of a Million of Heads.

Winnipeg, July 12.—This city has agreed, if necessary, to raise debentures for the purpose of completing the bonds of the Red River Valley railroad to a extent of a quarter of a million, or even more. Winnipeg has not yet reached her limit of indebtedness by nearly a million dollars, and is therefore in a position to give the local government any assistance that may be necessary.

Harvey, the contractor for the road, stated that surveyors had completed forty miles of survey, and that work would commence this morning, and, if all went well, some of the sub-contractors who have been holding themselves in readiness might be on work to day, and everything now is in readiness to go straight ahead with work.

Lt. Gov. Atkins, who is now visiting in Victoria, B.C., being interviewed on political questions, said, notwithstanding the disallowance by the Dominion government, the Provincial government would proceed with the work. The contractors had been let to energetic men, and a strong endeavor would be made to finish the line this year.

W. G. Gooderham, Toronto, who is at present in the city, has expressed the opinion that Manit should be left to the free exercise of her rights, and that under no circumstances whatever should any barrier be thrown in the way which would prevent her from making such progress as her geographical and physical position entitled her to make. He thinks no special part in politics, although he usually supported the Conservative party, but he was free to say that the government should at once remove any disabilities which prevented that province from securing to sever measures. The Archdeacon is determined that whatever course circumstances may force the province to take, the thing shall be no question about the non-observance of the canon law in his actions.

THE REBELLIOUS PRIEST.

TORONTO TOPICS.

The Carpenters' and Plasterers' Strike—Magistrate Love Elected.

FATHER MCGLYNN WILL NOT AGAIN ATTEND COMMUNION.

His Sympathizers to be Warned of Their Error and to be Advised to Turn from It—in Case of Non-compliance they will be Excommunicated.

New York, July 12.—Dr. McGlynn said last night that when he required the Exarchate at the hands of Father Brown in the Church of Our Lady of Victories, Brooklyn, early Sunday morning, neither he nor the officiating priest had notice of his excommunication. He denies the statement that he is going to make an appeal to Rome and fight the reinstatement. He will not present himself at any Catholic altar for communion to create any unnecessary disturbance.

Melting Supporters to be Warned.

New York, July 12.—The Commercial Advertiser says it was reported to day, on what appeared to be good authority, that all the Catholic priests in the city and throughout the diocese of New York will be instructed to issue warnings next Sunday to their congregations to avoid participation in McGlynn meetings and to associate with him only as far as the courtesies of life might require. If this warning has not yet been issued, it will be issued on the following Sunday announcing that he is to be received again at the church. Yesterday he had again an upward turn and stood at 76.7.

It is also asserted on the authority that Catholic priests have been requested to look out for the Melting supporters who are expected to sympathize with Dr. McGlynn, and to try to stem them over by any means possible before it becomes necessary to resort to severe measures. The Archdeacon is determined that whatever course circumstances may force the province to take, the thing shall be no question about the non-observance of the canon law in his actions.

THE IRISH LAND BILL.

Mr. Dillon Says It is Utterly Inadequate to Meet the Needs of Tenants.

London, July 12.—Mr. Dillon resumed the debate on the Land Bill in the House of Commons to-day, and said he rejected the measure with contempt as utterly inadequate to meet the needs of the Irish tenantry. He rebuked Mr. Chancery's assertion that the past efforts of English statesmen to ameliorate the condition of the people had invariably met with success. The Parnellites and the claimants had even offered their services to the government, but it was rejected.

The deputations spoke for two hours, the chief points of the opponents being that the House had already agreed to a bill introduced by Mr. Dillon, and that another would spoil it as a pleasure resort.

Yesterday evening Mr. Dillon, who was strongly in favor of the bill, told the government that he was certain she was destined to take. He was a firm believer in the greater future of the country, and he rejoiced to know that they had been for a long time.

Rav. Hugh Johnson, of Toronto, who accompanies Mr. Gooderham, also takes a very strong ground, and says he believes that he voices Eastern Canadian sentiments. In his sermon on Sunday he expressed strong sympathy with this provision.

HERE IS NEWS

From Washington, D.C., About the Manitoba Railway Agitation.

A special telegram from Washington to the *Advertiser* on Monday said the Red River Valley railroad will connect with the Duluth and Manitoba Road, which is probably a branch of the Northern Pacific, and that there will be an outlet westward, but it will not be compelled to submit to the charges of the Canadian Pacific.

Manitobans are the first consideration in this enterprise, but the real impulse behind the Manitoba is the Grand Trunk canal of Canada, or rather the Atlantic Brothers, sons of Sir Hugh Allan, who own and control it. These gentlemen are in connection with the Grand Trunk.

Mr. Dillon declared that the first thing the Canadian Pacific did was to offer to the Manitoba government a bill which would give the Grand Trunk an outlet to the sea.

The division on the second reading of the bill will take place on Thursday next. The Government, however, has not yet decided to settle the question, as it is not clear whether the bill will be passed.
