### THE MERRIMAC DISASTER.

Arrival of Female-Passengers at Bala as -  
What They Say.

Halifax, N. S., July 14.—The women passengers from the Merrimac were arrived yesterday. They say they were on the wreck long after Hart and Fader left, and saw nothing of what those two gentlemen might have done. Of course there was considerable excitement and consternation upon the first shock of the disaster. That was quite natural and to be expected, but within a very few minutes Captain Cross and his officers were fully alive to the situation and to their responsibilities. Perfect discipline prevailed. The boats and life rafts were promptly launched, and the passengers placed in them, and everything done that it was possible to do for the safety of the comfort of the passengers, all of whom were removed from the wreck within one hour of the disaster. The women behaved heroically, and set an example to many of the men. They were supplied with blankets from the ship, and sent ashore to the mainland. The men were got ashore on the island. Some of the crew, as two passengers, were drunk on the island, and no efforts were made to restrain them. The Times denies that the Marquis of Londonderry intends to resign the office of lord lieutenant of Ireland.

The military element in Sofia is turbulent and is calling upon Major Peirce, the new minister of war, to resign. Pranzini, the murderer of Mme. Regnault, her maid, and the latter's child has been convicted and sentenced to death.

Lieut. Young, of the Surrey regiment, has been sentenced to eight months' imprisonment for abducting a girl seventeen years of age.

The London Post to day continues the crusade against Russian securities pointing out the fact that even Russia-loving France avoids them.

A fire in the premises of Symmes Bros., pulp manufacturers, Sherbrooke, Que., this morning did extensive damage, throwing 150 men out of work.

By the giving way of the seats during a performance of the Wilbur dramatic company at Portage la Prairie several spectators were injured; only one, however, seriously.

Sir Alexander Campbell, lieutenant-governor of Ontario, will visit Newfoundland on the 20th inst., and will also make an extended trip through the lower provinces this summer.

Mr. William Lavin Jackson, financial secretary to the treasury, says that the imperial government will arrange terms with the Canadian Pacific railway and announced them shortly.

A band of Albanians recently surprised the Montenegro frontier guard near Mokra Plana. A sharp fight followed, resulting in the Albanians being repulsed. Two Montenegrins and ten Albanians were killed.

An investigation into the condition of the oyster and lobster fisheries of the maritime provinces has been commenced by the Dominion government. The commissioners are now taking evidence in Prince Edward Island.

Chief Prince says all the troubles among the Indians at the annual treaty payment at St. Peter's reserve arose from two causes, viz.—first, the rations being placed on the ground; secondly Inspector McColl using unnecessarily strong talk to the chief and council.

Assays of the quartz found on the gold prospect of the Lake Superior iron company, west of the city, gave \$13 in gold from twelve ounces of rock, or \$35,000 to the ton. Miners have traced the vein two hundred feet on the surface. A storehouse is now being built to hold the rock. More rock as rich as the first was taken out yesterday.

**The Mystery Disaster.**

Bronxville, July 13.—Three more of the bodies of the fatal pleasure seekers, who went down with the yacht Mystery were recovered at Point Breeze this afternoon. Three more are still missing. One of the saddest incidents of the disaster came to light to day. A month ago Chas. Gargol of 86 Park avenue, after having been out of employment for some weeks, secured a lucrative position in a Chicago plate glass establishment. He went on, leaving his wife and two children at home. They were all drowned. Yesterday a letter came from Chicago to 86 Park avenue. Mrs. Gargol's brother received it and, seeing it addressed to his dead sister in the familiar handwriting of her husband, forwarded it to Mr. Gargol's brother. He opened it and found within an affectionate letter to the dead wife and the money to pay her expenses to Chicago with her children. There was an adhesion to come at once.

At Toronto yesterday Judge Morgan sentenced George Hayes, Thomas McGuffin, William Wood, James Daley and John Ryan to the penitentiary for five years each on charges of burglary; Martin Kelly to three years and John Smith to four years on similar charges.

S. At Toronto yesterday a prisoner said to the judge: "I have only one favor to ask. You will grant it in honor of the Queen, her imperial majesty. Grant me this and I will come out a better man. I have lived over half a century now. Send me for two years to the Kingston penitentiary instead of to the central prison." His request was granted. Commenting on the foregoing the *Mail* says: "Why do criminals prefer a long term at Kingston penitentiary to a short term at the central prison? This is a question which some people are asking. The answer is that convicts are given clothing and money when they leave the penitentiary. There are also more trades at the Kingston institution and not much hard work. When a man comes out of the central prison, as far as the government is concerned, he is thrown upon his own resources."
