THE PRESENT RENTS PREVAILING IN IRELAND NOT LXCES IVE.

Another Scath Besulting From the Firing of the Police at Mitchellstown Suspension from the House of Mr. fimothy Harrington.

Dunger, Sept. 15. - At a conference of Irish the present rents prevailing in Ireland are excessive, or that general and reasonable abatements have been refused during times of distress. Rents have not been raised in Ireand during the period between 1840 and 1880, whereas in England, Scotland and Wales rents in the same time were ocreased between thirty four and thirty-nine per cent. THE DOMINION AND INDUSTRIAL. A Wonderful Success-Another Busy Day in the Horse Ring.

But one more day remains to see the great Toronto fair. To night at 10 o'clock the Exhibition will have closed. In point of attend-, snce, gate receipts, exhibits and amusements the fair has been an unqualified success. The weather on the whole has been eminently in favor of success, and the directors have every reason to be satisfied with the manner in which Old Proba has treated them. Monday, Puesday, Wednesday and yesterday, which are considered the backbone of the gate repeips, were simply superb, and in these four days it is estimated that over 100,000 people visited the city.

The railroad men say travel over their lines. has been unprecedented. On the Credit Valley and Owen Sound branches of the C.P.R. it was nothing to see a train steam into Union Cipher messages are passing between Station with 1000 passengers on board. The number coming from the section of country traversed by these lines was simply extraorfinary. From the eastern trains on the Grand

Yesterday was another busy one in the orse ring. The weather was threatening a orning, and about noon rain commenced all, which put a temporary stop to the judges thors. The rain continued till 20'clock, when it cleared off. The saddle horse display was the principal attraction of the afternoon. In the morning the carriage, general purpose, road and heavy draught horses occupied the ring, and were awarded prizes in their re spective classes. In these classes some hand some animals were shown, and far surpassed last year's exhibit. Graham Brothers of Clairmont were awarded first prize among the Clydesdales, with imported McArthur, by McGregor, This fine big stallion was the topic of conversation among the farmers and breeders. There was also a good class of Percherons or French draught horses. In the roadsters' class Crown Imperial was given first prize for stallion, 4 years and upwards, John Carroll of St. Catharines with Forest Mambrino being second. It is impossible to describe all these horses, as there are so many worthy of note. The afternoon was devoted principally to saddle horses, although the carriage teams, cobs and dog-cart horses received their share of attention. Dr. Grinside of Guelph was awarded first for his team, a stylish pair of pay mares, 5 years, by Sharpcatcher and error. Charles Brown of this city, with his pair of bay geldings, got second, and Sir W. P. Howland's pair by Gold Leaf third. The latter team, in the estimation of a majority of

PREMIER NORQUAY INTERVIEWED. A New York Reporter Questions Him About the Red River Road.

New York, Sept. 15. -Hon. John Norquay, premier of the province of Manitoba, was found at the Victoria Hotel by a Press News reporter last evening. On the reporter stating that he called to ascertain the present general state of affairs of the Red River Valley Railway, Mr. Norquay, before answering, lesired very much to knew from whom he reporter came and the object of his being sent. This being satisfactorily answered, and all evident suspicion of other than good intentions on the part of the eporter's errand being removed, he virually apologized by raying that he had been up to the time of this interview three weeks in New York and that his arrival had already been announced, but till no representative of the press had been to interview him. The reporter rewarked that his long beence from home was the occesion of much talk. Mr. Norquay then elaborated on the suspicion he elt toward the reporter by saying that namies of the Red River Vailey road had tried by insidious means to learn of his intentions, and that by the same
