February 1.

THE BOERS.

English Ignorance About the People they Tried to Whip.

(Blackwood's Magazine.)

A striking instance of English ignorance of the Boer is to be seen in the illustrated papers issued during the late war. There the Boer is represented as a man of enormous size, his forbidding face surrounded by a shaggy beard, his head in the biggest of wide-awake hats, over his shoulder the bandoleer of cartridges—as good an average ruffian as the artist could devise. One picture showed our picket attacked by Boers, one of these firing at our men—running away of course—with a revolver. I never saw a revolver in any ordinary Boer's hand; had he such a weapon I am quite sure he would not fire it from horseback. Another illustration of the Boer's method of fighting showed a dozen of them lying down under the crest of a hill taking aim at the soldiers below, each Boer holding his horse by the bridle, the animals forming excellent targets for the soldiers below. Now, a Boer thinks more of his horse than himself, and would never dream of bringing him up into the fire. The horses have been taught to stand without any one holding them, and are left under cover well in rear. Another introduces us to a Boer family sitting down to a meal, the Kafirs of the establishment seated at the table with the rest—an incident that happened only in the artists imagination, as no Boer would sit down with his Kafir to a meal on any consideration, not to mention the misery which a table and a knife and fork would entail on the misplaced native. Your Boer might pass any day for a small English farmer; perhaps a bit more untidy about the beard, not unlikely evincing a stronger dislike to the wash-tub in more senses than one. The superior class are just substantial men, gentlemen farmers, while many of them are strikingly handsome. They are a tall race, six feet four inches being a common stature, and differ from English of the same class only in dress—corduroy suits of hideous shades of brown and yellow being worn almost without exception. Pretorious, who commanded the investing force round Pretoria is a very handsome man. Joubert has a hard-lined, clever face, not altogether unpleasant. Kruger seems a cross between a butcher and a Methodist parson.

Chicken Hatching by Electricity.

The chicken hatching machine in the Electrical Exhibition deserves celebration as well as other electrical contrivances. It is an ordinary egg hatching machine in which the heat is regulated by a thermometer, the surface of the mercury in which, as it rises or falls, acts by electric wires and a magnet upon a ventilator, which opens as soon as the heat rises to 104 degrees, and shuts when it becomes too low. It has been observed that machine-hatched chickens suffer from lonesomeness, and do not eat so well as those who hear a mother's constant voice; and so the ingenious proprietor of this machine is now constructing a telephone which will convey to his henless chicks, scattered in different cages about a meadow, the clucking of a central hen. It is a benevolent idea; and if he would go a little further, and discover a way of "laying on" maternal care to the poor featherless chicks that are so often seen abandoned in the stationary machines called perambulators, yet greater would be his boast that he has not lived in vain.—St. James's Gazette.

When Shall a Child Begin School?

This question is discussed by Dr. William Pepper, a provost of the University of Pennsylvania and professor of the practice of medicine in its medical department, in a brief but pointed article in Our Continent. The professor concludes his discussion with these words: "Many cases of indigestion, of nervousness, of general weakness, even of apparent backwardness of intellect, are due to insufficient outdoor exercise and premature study. Children vary greatly as to the age at which they can begin to bear restraint on the freedom of their movements, and strain upon their attention and memory. Mill may have begun Greek at 4, but Hunter did not know his alphabet at 7. The one thing certain is that any study or any attendance at school before the child can bear it without effort or fatigue is not only useless but hurtful, and will surely retard the education and lessen the future vigor and capacity of mind."

Garibaldi.

Garibaldi's illness has sadly changed the old hero. The principal physicians of Naples visited him the other day, and he enjoyed the surprise of their arrival. He at once recognized Prof. Tommasi, the oldest of the group, and exclaimed: "Oh! Prof. Tommasi, I am pleased to see you again!" The Professor was so moved at seeing Garibaldi's condition that he burst into tears, and even the other physicians had to conquer their emotion before proceeding to the consultation. When they took leave of Garibaldi, after deciding that every day one of their number should repeat the visit, the General's first thought was of Italy. "I wish," he said, "that before I die I could again render some service to my country." At Caprera he had seemed to feel his helpless condition very much. He once exclaimed, "A man should live 50 years and no longer."

How the Giddy Youths are Fooled

When you find Amoret asleep in her tea-gown by the drawing room fire, and she starts from her slumber to entertain you and give you a five o'clock cup of tea, you imagine that it is the siesta she has indulged in which makes her cheeks so charming a colour and her eyes so bright. You do not stay to argue it out; but you imagine, being a man, that no reasonable woman would make up her face in order to go to sleep by her own drawing-room fire. You go away convinced that Amoret, at least, does not paint. You forget that Amoret was aware of the possibility of your calling; that she knew her dreamy figure and bright eyes, lit by the fire flames, would make a very pretty picture for your memory, and, above all, that Amoret lives to be lovely. It is her profession; she has nothing else to do.—The Hour.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.—Made simply with boiling water or milk. Sold only in Packets and Tins (½lb and lb.), labelled—"JAMES EPPS & CO., Homœopathic Chemists, London, Eng." Also makers of Epps's Chocolate Essence for afternoon use.

TO RENT.—A house and ten acres of land, five miles from Kingston; also, a good bush farm for sale, containing 120 acres. Apply to the owner, William David, broker, Princess street, opposite Parkhill's Grocery.

TO BE SOLD at Wm. David's broker store, Princess street, Kingston, opposite Parkhill's, watch crystals at ten cents each. Bring on your watches.

THE END OF THE CRANK.

Brother Gardner Gives Expression to Opinions on a Current Topic.

"Am dar a crank present in de hall tonight?" softly asked Brother Gardner as the meeting opened.

Not a voice answered.

"Have any of you seen a crank aroun' town dis last week?" continued the President.

No one had, or, at least, no one admitted it.

"Two weeks ago de kentry was full of 'em, you could find 'em on de street kyar, at de depot, aroun' de hotels, an' eben in church. All of a sudden you kan't skeer up a single crank. De bizness has got to be unhealthy. De plea of insanity doan' go down with the jury as slick as it did. De time when one man kin put a knife into anoder an' make de jury believe he was bo'n dat way and couldn't help it has 'bout expired. The crank mus' go. de mus' quit snootin', stabbin', stealin', and bein' heard of in de land. When de crank fust brought for'd de ideah dat de Deity was behind him an' urged him on it was sunthin' new an' novel, but dat ideah am played out wid de rest.

"My fren's let de cantankerous bizness alone. Doan' call stealin' by any odder name. If your hands itch fur money dat belongs to some one else, take it an' skip, and when de law overhauls you doan' sot up de plea dat an angel from heaven urged you on. Legal farces have had deir day in dis kentry. Insanity, kleptomania, sudden emotion, drunkenness, an' loss o' memory will be poo' excuses before fucher juries."

Nervous Exhaustion.

and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

Fees and Doctors.

The fees of doctors is an item that very many persons are interested in just at present. We believe the schedule for visits is $3.00, which would tax a man confined to his bed for a year, and in need of daily visits, over $1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the $1,000 and all the year's sickness.—Post.

AT ALL SEASONS, but particularly during the winter, persons whose lungs and chests are weak should take every precaution against a cough or cold, as the breathing organs, if naturally feeble, speedily succumb to its ravages. In spite of sanitary precautions, however, coughs are very apt to fasten themselves upon weak lungs. In such a case ordinary prudence dictates the prompt use of a reliable specific. The ordinary cough remedies are too often inefficient. The best substitute for them is the highly sanctioned, long recognized remedy, Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. As is well known, the action of Cod Liver Oil is particularly marked in lung, rheumatic and strumous diseases. In this preparation it is characterized by peculiar purity. The phosphorus in the hypophosphites furnishes a vital element of the blood, brain and nervous tissues, and the lime and soda supply their strengthening properties to the bones of which they are natural constituents. This emulsion promotes expectoration, enabling the bronchiæ to throw off the irritating mucus which obstructs and distresses them; renders the vitiated secretions healthy and heals the lungs. This remedy has also been used with the most beneficent effects in cases of scrofula. As it is exceedingly dangerous to permit a cough to gain headway, the early use of the medicine is urged upon those whose throat or lungs are affected. Look for the fac-simile of our signature on the packages and the firm's name blown on the bottles.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

A Public Meeting

should be called of the citizens of every city, town and village in the Dominion, to consider what should be done to prevent the hair from turning grey—and falling out. If this important question received their earnest consideration they would unanimously decide that science had at last discovered something that would answer this purpose—and furthermore would recommend Cingalese Hair Renewer as being this something for restoring the hair to its natural colour, and prevents its falling out. For sale at WADE'S DRUG STORE, at 50 cents per bottle.

The People's World-Wide Verdict

BURNETT'S COCOAINE has been sold in every civilized country, and the public have rendered the verdict that it is the cheapest and best Hair Dressing in the world.

BURNETT'S FLAVORING EXTRACTS are invariably acknowledged the purest and the best.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma, and lung diseases by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung diseases are no longer feared until their very last stage. Write for particulars to M. Souvielle, ex Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. J. George King, Chemist and Druggist, Sold Agent for Kingston.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cents a box everywhere.

NOTICE.

SEALED TENDERS, addressed to the Superintendent-General of Indian Affairs, and endorsed "Tender for Indian Supplies," will be received at this office up to noon of WEDNESDAY, 1st March, 1882, for the delivery of the usual Indian Supplies, duty paid, in Manitoba and the North-West Territories, consisting of Flour, Bacon, Groceries, Ammunition, Twine, Oxen, Cows, Bulls, Agricultural Implements, Tools, &c.

Forms of tender and full particulars relative to the Supplies required, can be had by applying to the undersigned or to the Indian Superintendent, Winnipeg.

Each tender must be accompanied by an accepted cheque of a Canadian Bank for at least five per cent on the amount of the tenders for Manitoba, and ten per cent on the amount of the tenders for the North-West Territories, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The lowest or any tender not necessarily accepted.

[No newspaper to insert without special authority from this Department through the Queen's Printer.]

The Allan Line consists of twenty-four Iron Steamships, forming different Lines between Liverpool, Glasgow, Londonderry, Queenstown, Galway, and Quebec, Halifax, St. Johns, Newfoundland, Boston and Baltimore.

The Mail Line Steamships sailing between Halifax and Liverpool—calling at Moville—consists of the following full powered, Clyde built Steamships, which are unsurpassed for strength, speed and comfort, and are fitted up with all the modern improvements that practical experience can suggest:

PARISIAN........5,400 tons........Captain Wylie
SARDINIAN........4,650 tons........Captain Dutton
POLYNESIAN........4,100 tons........Captain Brown
SARMATIAN........3,600 tons........Captain Graham
CIRCASSIAN........4,000 tons........Lieut. Smith, R.N.R.
MORAVIAN........3,650 tons........Lieut. Archer

The latest train connecting with Steamer at Portland leaves Kingston every Wednesday at 9 p.m. and via Halifax on Thursday at 2 p.m. A through Pullman car will be run on these trains.

For tickets and every information apply to
FOLGER & HANLEY, Agents,
Office: foot of Brock Street.
November 23.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures **Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.**

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

THE CIVIC FATHERS.

The Market Fees Bill—A Deputation Appointed—Ald. McGuire's New Theory—A Passing Squib.

On Saturday night there was a special meeting of the City Council, called for the purpose of taking into consideration what action would be taken in regard to the Market Fees Bill now before the Local Legislature. Present, the Mayor and Alds. R. J. Carson, Clements, Craig, Creeggan, Downing, Dupuis, J. P. Gildersleeve, Gordon, Little, McCammon, McGuire, McIntyre, Quigley and Smythe.

The Mayor read a letter from the Clerk of St. Catharines asking the Council, to appoint a deputation to meet another delegation at Toronto on Tuesday, when the Government would be waited on regarding the Market Fees Bill—to protest against its passage or have it modified.

The Clerk read a summary of the bill in question, prepared by the City Solicitor, as follows:

1. It is drawn on quite different lines from the Bill of last session.

2. It maintains markets up to certain hours, that is, 9 a.m. in the summer, and 10 a.m. in the winter and authorizes fees in a small number of cases.

3. It abolishes fees on almost everything brought to the market.

4. It allows parties to take articles on which a market fee may be charged directly to the purchaser without going on the market, and without paying a market fee, if they do not go on the market or hawke the articles, and if the delivery is per prior contract, or if the parties enter the municipality after 9 a.m in summer, and 10 a.m. in winter, in which case they need not go on the market or pay a fee; and parties may leave the market after 9 a.m. in summer and 10 a.m. in winter and dispose of their goods elsewhere.

5. A market fee may be charged on cattle, butter, eggs and a few other articles, not exempted, and weighing charges may still be made.

6. No person would lease the market fees authorized to be taken, they are so few and insignificant, and would be in many cases so difficult of collection, most likely forming a small part of the load, the rest of which is exempted; they would in most cases escape detection and payment of fees.

7. Every waggon would have to be visited and searched, and the trouble would be far greater than the fees would repay, so that the practical result will probably be the total freeing of the market from fees, as it would hardly pay to collect them. The weighing charges with the cattle tolls might pay some officer as the Clerk of the Market (for there may still be a market) if they are maintained.

8. Nothing is said about throwing off the road tolls, and the Bill is, for the city, a much worse one than that of last year, this lever being lost.

9. No compensation is spoken of, and a large revenue is lost to the city.

10. The general regulating powers given by the Municipal Act are left, but sales may be made off the market after certain hours, as above.

11. Altogether it is a hard piece of legislation if nothing as compensation is to follow, and a complete surrender to the farmers, whom it will injure by delaying the abolition of road tolls.

THE DEPUTATION.

Ald. McIntyre moved, seconded by Ald. Smythe, that the Mayor, and Alds. C. F. Gildersleeve and R. Carson, be a deputation to go to Toronto to co-operate with other cities and towns with a view to opposing the Market Fees Bill, or having it modified.

The Mayor stated that it would be utterly impossible for him to get away as he had been three days at Ottawa on Municipal business already.

Ald. McIntyre—But you were dancing too.

The Mayor—Yes, just a little. I would rather someone would go in my place. I would suggest ex-Mayor Pense, as he has been there before.

Ald. McGuire—I move that Ald. McIntyre's name be substituted for that of the Mayor. How would it do to put ex-Ald. Harty on the deputation?

Ald. McIntyre—I do not wish to go; in fact I might not be able to go. However if I do go I will do my best to make the mission a success. Ald. Carson is a good man on the deputation, because he is in accord with the administration. The reason I named only three was to keep down expense, but if the Council want more I have no objection.

Ald. McGuire—Three is enough.

A VIGOROUS PROTEST.

Ald. McIntyre—It matters not whether there be a large or small number on the deputation, the people know that there is a very important matter about to be dealt with by the Legislature. The measure affects our pockets, and therefore we should protest strongly against any encroachment upon the privileges we have enjoyed for a number of years back. We have always enjoyed the right to impose a small toll upon parties who come to the city to dispose of their goods; therefore, when such a revolutionary act as the one mentioned is proposed, it is the duty of the representatives of the people to rise up and protest as strongly and vigorously against it as possible. If there is anything wrong in the imposition of these small tolls, then I hope the wrong will not be continued; but when we have given advantages and provided conveniences absolutely for the farmers' benefit, is it not wrong and unjust that the tolls should be taken away? I will not discuss the subject from a political standpoint, but from the point of right and justice. First, we were treated to the fact that the Legislature had stepped in and taken away our privilege of licensing, and then of appointing License Commissioners, and also of appointing an Inspector. They also took away the Council's control over the police force and other institutions, and now they strike at another privilege, which is absolutely ours, and which is a benefit to the city to the extent of $2,800 per annum. It is our bounden duty, as custodians of the people's interest, to protest against the encroachment. If the bill is carried, there will be only a few fees left to collect, and it will cost more to collect them than the fees would amount to. That being the case, the Legislature might say, by way of compensation, "We will abolish tolls altogether." It has always been a point where vested rights have been struck at that certain compensation has been made by the Legislature for the encroachment. There is no provision of the kind made in this case; the revenue is to be taken from us with one blow. I hope the delegation will succeed in having the bill modified to such an extent that some compensation will be allowed. In order to raise the revenue that will be taken away from us, it will be necessary to levy half a mill extra upon every taxpayer. When the people are made aware of that fact, they will see the importance of having the bill modified.

Ald. McIntyre's motion was then carried, after some names had been added to the deputation. Those who compose the delegation are: Mayor Gaskin, ex-Mayor Pense, and Alds. C. F. Gildersleeve, J. McIntyre and R. Carson, and ex-Ald. Harty.

MUNICIPAL AMENDMENTS.

The Clerk read the proposed municipal amendments, drafted by the City Solicitor.

It was proposed to send the amendments to Toronto with the delegation.

It was moved that the amendments be referred to the Law Committee with power to act.

Ald. J. P. Gildersleeve thought the amendments should be thoroughly understood before being sent to Toronto. He moved, seconded by Ald. Creeggan, that action in the matter be postponed for one week.

The amendment was lost and the main motion carried.

ON QUALIFICATION.

Ald. McGuire made a few remarks on a special subject. He said he was in favour of abolishing the qualification for Alderman. It was absurd that a man could legislate at Toronto and Ottawa without a qualification, and not in the City Council. The argument that education and ability belong to those who have been born with wealth will not be accepted now-a-days. The effect of the qualification system is injurious, because the material from which representative men are to be chosen is limited. The citizens should be allowed to select men who have the interest of the city at heart no matter whether they have money or not. It is said that a man who has a greater proportion of money in the city would take a greater interest in municipal matters than the man who has less. The same thing might be said of the man who is sent to Parliament. The interest of the individual who is sent to Ottawa is so much greater that the argument would apply with greater force. Premium, in this respect, should not be placed upon money, as often the biggest jackass has the most wealth, and the greatest philosopher is as poor as Job's turkey. Because a man's father dies and leaves him money, that is not to say he is better qualified for an Alderman than the man who has not had money left him, but who is honest and has the interest of the city at heart. A money qualification is not even necessary to hold the position of Premier of the Dominion. The reason why qualification is necessary in the Senate is because the people have no choice in the election of that body.

Ald. McCammon was opposed to Ald. McGuire's theory, although many of the principles involved were reasonable. If a man who has no stake in the city is put into the Council he will get those who have stake in the city over head and ears in debt.

Ald. McGuire—He would be a base, dishonest scoundrel.

Ald. McCammon—No he wouldn't. He would be negligent and careless. He would go in for making new roads wherever asked for, for the reason that their construction would not affect him in the least.

HIGH BAILIFF AND CHIEF OF POLICE.

Ald. McIntyre introduced a bylaw for the amalgamation of the office of High Bailiff with that of Chief of Police.

The Council went into Committee of the Whole, when the Mayor asked Ald. Creeggan to take the chair.

A PASSING SQUIB.

Ald. Creeggan—With your permission I will decline.

The Mayor—You had better take it; it may be your last chance.

Ald. Creeggan—I feel myself in a peculiar position, and therefore I decline with your permission.

Ald. Downing then took the chair.

Ald. Creeggan (retiring from the room)—I may have no qualification; if I have not, perhaps I could borrow a house. I may have one before long.

Ald. Smythe explained that the reason a High Bailiff was needed was because he could assist the civic officials when required. Through the Chief of Police and High Bailiff being the same person the Council were enabled to apportion him some civic duties.

The by-law was read a first, second and third time and passed.

MANDATORY BY-LAW.

Ald. Smythe introduced a by-law which compelled officials to do certain acts. If such acts are not performed, the Council is enabled to get the work performed and to levy the expense on the delinquent.

The by-law was read a first, second and third time and passed. Ald. Dupuis occupied the chair in committee.

SITTING ON PEDLARS.

Ald. McGuire introduced a by-law to prevent pedlars from disturbing people by knocking at their doors and ringing their bells in order to sell goods. The pedlars, however, would be allowed to "cry" their wares on the street.

Origin of Names in the Week.

In the museum at Berlin in the hall devoted to Northern antiquities, they have the representations from the idols from which the names of the days of the week are derived. From the idol of the sun comes Sunday. This idol is represented with his face like the sun, holding a burning wheel, with both hands on his breast, signifying his course round the world. The idol of the moon, from which comes Monday, is habited in a short coat, like a man, but holding the moon in his hands. Tuisco, from which comes Tuesday, was one of the most ancient and popular gods of the Germans, and is represented in his garments of skin, according to their peculiar manner of clothing; the third day of the week was dedicated to his worship. Woden, from which comes Wednesday, was a valient prince among the Saxons. His image was prayed to for victory. Thor, from whence comes Thursday, is seated in a bed with twelve stars over his head, holding a sceptre in his hand. Friga, from whence we have Friday, is represented with a drawn sword in his right hand, and a bow in his left. Seater, from which is Saturday, has the appearance of perfect wretchedness. He is thin-visaged, long-hared, with a long beard. He carries a pail of water in his right hand, wherein are fruits and flowers.

A conspicuous illustration of the St. Jacobs Oil as a remedy for rheumatism is found in J. A. Bonham, the well-known lawyer of Philadelphia, Pa., who thus tells his experience: "About two weeks ago I was seized with what the doctor called muscular rheumatism in my right leg. The leg below the knee was swollen until I could hardly stand upon it. I had seen St. Jacobs Oil advertised, and I sent to the drug store near my house, on the corner of Nineteenth and Master streets, for a bottle of it. I rubbed my leg with it that night, and in a short time the pain seemed to go away. Next morning the swelling had shifted from under the ankle to the upper part of the knee. Well I applied the Oil again, and the swelling in a short time went away, leaving a very slight pain. I didn't use any more of the Oil, thinking that the attack was all over. About a week later it appeared again in the same place. The leg swelled so badly that, after coming down and walking several squares, I gave completely out. Well, I went home intending to try some French medicine, but I forgot to get it, and having a part of this bottle of St. Jacobs Oil in the house yet, I tried it again, bathing the limb thoroughly. Well, sir, when I got up in the morning the pain and swelling were both almost gone, and after one more application I was as well as ever, and from that time to this I haven't been troubled."

-NAPERY GOODS-

WE ARE SHOWING IN THE ABOVE DEPARTMENT
A Large Stock and Unexcelled Value
—IN—
ALL DESCRIPTION
—OF—
HOUSE FURNISHING GOODS

TABLE LINENS, first-class value.
