The Daily News,
TUESDAY EVENING, FEBRUARY 28.
Mayor Band of Minneapolis, is not disposed to have that prairie city dignified by high prices, such as those used by tycoons in the West, and has vetoed an ordinance prohibiting the electric light companies to exact such rates in Minneapolis. Detroit has passed the same order, and Philadelphia is seriously considering it. Besides disaffection, these cities oppose the public to considerable danger, as the electric currents required for the electric light have already led to fatal accidents.

The political shenanigans on the Princeton shore of Opposition were convoluted with laughter when the Finance Minister spoke of the increased amount of taxes which the people of Canada reluctantly paid into the treasury. The Finance Minister was right. The taxpayers did not have been justly used with reference to taxes upon the necessities of life, but three quarters of a million of the increment were paid on luxuries such as wine, silk, sashes, and fine wool; and people who are buying such articles more largely, cannot be said to be oppressed by taxation.

The ship-building business of the Clyde during 1881 has been remarkably prosperous, more tonnage having been turned out of the yards during that year than ever before in the same time. The results of the year's work give an output of 315,000 tons, which is equivalent to 300,000 tons. These figures show an increase of 29,000, and 29,835 tons over the output of 1880, and of 163,869, or nearly double that of 1877, the average of the past seven years. As contrasted with 1874, there is an increase of 45,000 tons in 1881. The estimated value of the ships and machinery may be said, in round figures, to be \$40,000,000 against \$30,000,000 for 1880, and \$20,000,000 for 1879. In the latter year, however, wages and salaries were lower, and rates for vessels considerably lower. Nearly one-fourth, or fully 75,000 tons of the tonnage launched consisted of vessels of steel.

There should be a full attendance at the meeting of the Engineering Association to-morrow evening. There has been too great a tendency on the part of the Conservatives of this city in the past to trust to the merits of the cause, instead of working and organizing efficiently. Their opponents have not been so neglectful, and to the marked difference in this respect between the two parties is attributable in a large measure the defeat of 1878. The policy of the present Government in encouraging the industries of Canada, and in opening up to settlement and colonization our vast domains in the Northwest, has been attended with distinguished success, and no country in the world can compare with ours in the production of wheat. Nearly one-fourth, or fully 75,000 tons of the tonnage launched consisted of vessels of steel.

VISITED THE CITY.

Meers D. McCarthy and C. Beaman, of Sordi, and James Shearer and G. B. Brash were at the British. They were accompanied by Mr. J. A. Macdonald, Mr. J. H. Ross, and Mr. H. B. and Mr. L.
