The Daily News.

SUNDAY MORNING, MAY 1.

After all that had been said about the evils of party there is another side to the question. The emulation of parties ensures every subject of national importance to be illuminated by sifcrce blaze of discussion, and neither side can persist in wrongdoing without being certain of a sharp reckoning the public opinion at no distant period. In the long run, although temporary triumphs may be won by crookedness, regard for the common weal is the foundation of success.

A comparison of the census of 1881 with that of 1871 shows that the number of Germans in Canada have increased only to the number of 98S in ten years. This is lamentably unsatisfactory, but means have been taken to produce a more satisfactory result in the future. The Secretary of the Montreal Board of Trade, Mr. Patterson, in October last, supplied Mr. Mundorff, the German consul, with replies to a series of questions concerning the extent, resources, and capacity for settlement of the Dominion. Those replies will be circulated all over Germany, and will undoubtedly have considerable effect in attracting German emigration to our shores.

REDISTRIBUTION OF SEATS.

The recent census of the Dominion revealed the fact that in accordance with the provisions of the Confederation Act the Province of Ontario was entitled to four additional representatives in Parliament. As the constituencies under their present arrangement display a number of anomalies, the town of Niagara with its 10,000 inhabitants having as large a vote on a division in the house as the County of Kent with its almost 37,000, it became additionally necessary that there should be to some extent a reconstruction of boundaries and a redistribution of seats. This work has been accomplished, the most brilliant and popular American novel that has been given to the public. Robert Herrick's poem, "To Daunone," is beautifully illustrated by Abbey. In the opening part of the Number, "Spanish Union II.," Mr George F. Lathrop describes the great windows the cathedral of Toledo. Besides the numerous illustrations printed in the text, from drawings by Reinhart, there is a frontispiece called "A Spanish Peasant," exquisitely engraved by Juengling from a drawing by Chase. W. H. Bisel contributes a touching story called "A Child's First Impression of Mountains," accompanied with an illustration from his own pencil. "Music and Musicians in Austria," is an extremely interesting paper, by Mary Alice Shedd, illustrated with portraits of the distinguished musicians. An appreciative sketch of the life and work of an early American sculptor, given in the paper on David Rittenhouse by Samuel W. Pennypacker. It is accompanied with two illustrations. In "A Squirrel's Highway" Mr. W. H. Gibson contributes a charming paper, beautifully illustrated. The exquisite delicacy and refinement of Mr Gibson's drawings were never more evident than in this sketch. Mr Nesbit contributes a thoughtful and interesting paper on "Some London Poets," which includes an account of a visit to Swinburne, and other personal reminiscences. Several finely engraved portraits are given with the article. Another illustrated paper is Mr Johnson's description of the Paper Peninsula of Mohiganic, in which the writer gives an interesting account of that famous mining region. A characteristic and excellent story, called "On the Nose Mole," is contributed by Sherwood Bonner. Kirk Munroe also contributes a long Eastern poem of great beauty and depth, called "Love and Death." Poems are also contributed by Ada M. E. Nicholas, Louise Chandler Moulton, and A. T. I. The Editorial Departments are filled with timely and interesting matter.

Mr Chs F. Kennedy, general passenger agent of the L. N. A. & Chicago Railway, Louisville, Ky., says: "I was troubled and suffering from rheumatism and general bodily ailment coming from disorder of urinary nature, should use St. Jacobs Oil. I was induced to use it after recommending it to several suffering in the same way. I did so, after every thing else had failed

Liver, Kidney and Bright's Disease.

A medicine that destroys the germ or cause of Bright's Disease, Diabetes, Kidney and Liver Complaints, and has power to root them out of the system, is above all price. Such a medicine is Hop Bitters, and positive proof of this can be found by one trial, or by asking your neighbours, who have been cured by it.

The Sportsman states that the scratching of Gerald for the 2 000 guineas race at the last minute and the withdrawal of Iroquois from the entries for the city and suburban handicap has rendered the once popular colours of Lorillard very unpopular in London.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." —*Civil Service Gazette.* Made simply with boiling water or milk. Sold only in Packets and Tins (lb. and ½lb.) labelled "JAMES EPPS & Co., Homœopathic Chemists, London, Eng." Also makers of Epps's Chocolate Essence for afternoon use.

Public speakers, actors and vocalists find and state that Dr. Thomas' Eclectric Oil relieves hoarseness and irritation in the throat better than remedies especially advertised for that purpose. Its wonderful power to relieve pain is quite unique, since it saves external burns, scalds, sprains, pains, and a variety of other unhealthy conditions.

REAL ESTATE

Notwithstanding the high stage of water which is in many places interfering with business, in Manitoba there is still an activity in real estate. Mr. C. Cooper-Imess has within the past week disposed of nearly four hundred lots in the village of St. Vincent at good round prices, and has now closed contracts under their present arrangement display a number of for the sale of one hundred more. At the market until Wednesday next, in order that he may be at liberty to attend to his business in Kingston.

Harper's Magazine.

Harper's Magazine for May is signalized by the beginning of a new serial story by Wm. Black, and the conclusion of "A Modern Instance" by Constance Fenimore Woolson, the most brilliant and popular American novel that has been given to the public. Robert Herrick's poem, "To Daunone," is beautifully illustrated by Abbey. In the opening part of the Number, "Spanish Union II.," Mr George F. Lathrop describes the great windows the cathedral of Toledo. THE OLD, OLD STORY.

Trickett Again Vanquished—Hanlan Defeats His Rally.

Putney, May 1, 12 o'clock.—The weather is splendid. There is a large attendance. A slight breeze blows behind the scullers. Trickett is backed for a hundred pounds on an average of 7 to 2. He appears confident, and he doubtless much improved since the last row here. Hanlan appears as confident as usual.

London, May 1, 1:30 p.m.—The men embarked half an hour before the race. Both were much applauded. Trickett just before the start appeared somewhat anxious. The water is smooth. The Indian Hanlan rowed easily at Hammersmith. There was never any doubt as to the result.

London, May 1.—Hanlan was leading by four lengths under Hammersmith bridge.

London, May 1.—Hanlan won by four lengths very easily.

London, May 1.—In the Hanlan Trickett race to-day Hanlan won easily by four lengths. The course was on the Thames from Putney to Mortlake, and the stakes were one thousand pounds.

The accounts of the number of lengths vary.

IN FRANCE AND ENGLAND.

It is now recognized by the leading medical men that Dr. M. Souvielle's Spiritine is the most wonderful invention of the age for the cure of Catarrh, Asthma, Bronchitis, and all lung diseases. After having been used in the leading hospitals, it was proved that 75 per cent. of these diseases, by many called incurable, can be cured by the Spiritine, an instrument which conveys medicinal properties to the parts affected. This discovery is proving a blessing to mankind and a credit to his name. Many persons in the city of Montreal, and out of the Dominion, have been cured of the above diseases. Below are a few of the many testimonials:

Mr. C. Hill, Montreal, catarrh and bronchitis.

Mr. Delbosc-Brunelle, of the Indian Department, Ottawa, catarrh of many years, now cured.

Mr. Geo. Agar, Ottawa, catarrh and lung diseases, cured.
