The Daily News.

THURSDAY EVENING, MAY 4.

The Irish resolutions were adopted by the Senate last night on a vote of 36 to 6.

One of the difficulties in connection with the development of the North-West is that speculators have been buying up land along the line of railway, and thus preventing useful settlers from occupying it. The Government has done all in its power to defeat these grasping gentlemen by witholding the lands in question from purchase for the present and putting them up for sale when the line of the road is definitely fixed and the stations marked. But hitherto it has been unable to surmount the difficulty of distinguishing between the settler and the speculative agent. If the speculator is willing to pay the full price per acre and forfeit the rebate, the extent of the difficulty may be imagined.

A correspondent in last night's Whig signing himself "St. Lawrence," blames the Mayor for not keeping better order at the Council meeting on Monday night. We agree with the writer that the Mayor should use his authority to keep order, and we have no doubt that Mr Gaskin, whose firmness will scarcely be questioned, will keep down disturbance as well as any of his predecessors. That he is not the only Magistrate, under whose rule an occasional outbreak has taken place, is apparent from the fact that at one of the first meetings of last year, Ald. Robinson felt compelled to recommend his political and personal friend, Mayor Pense, "to study up the rules of order and thus be prepared on a future occasion to carry out the functions of the civic chair."

According to the remarks of Principal Dawson at the closing ceremonies of McGill University, that institution is badly in need of funds. The financial depression caused such a diminution in the revenue of the college that retrenchment became absolutely necessary, and while this was effected an appeal was made to the friends of the University for aid. Mr W. C. Macdonald gave $26,000 to be added to the Endowment fund for the maintenance of scholarspips, and a further annual sum of $5,000 was secured, sufficient to tide over temporary difficulties. But $150,000 is required to complete the endowment of the University, and the prospect of obtaining it is not very bright. In the rich city of Montreal there seems to be a few generous men, who are willing occasionally to make large donations for worthy purposes, but the majority of the population are absorbed in commercial pursuits and have little sentiment about learning. It will reflect immense discredit upon them, however, if they allow their apathy to extend to the decadence of a noble seat of learning.

There is a prevalent idea that Governments are improvident and wasteful managers, and that the less they have to do with business the better. The Canadian Government, since Sir Charles Tupper's occupancy of his present position, has shown in the case of the Intercolonial railway that this is a mistaken opinion, and that prudence and economy are within the reach of Governments, as well as of private individuals. The Imperial Government has also demonstrated the same thing by the success with which it has conducted the telegraphing of the Kingdom. The people of England now enjoy cheap rates, uniform treatment, and careful attention to public convenience, while a considerable profit is returned to the treasury. On this continent we have monopoly, high rates, and great neglect of the public interest. Sir Charles Tupper has, however, given the hope that we, in Canada at least, will be freed from those evils by the Government stepping in and itself taking control of the whole telegraphic machinery of the country. The matter is most important, and if carried through would add one more to the strong measures passed by the present administration for the public benefit.

The statement of Dominion revenue and expenditure published in last night's News shows the great increase in the revenue for ten months of almost $4,000,000 as compared with a similar period of last year. When the growth of the revenue was pointed out before the present session the answer was that anyone could put on taxes and extort money from the people. But now the tune must be changed, for the immense augmentation witnessed this year has taken place in spite of the fact that the Finance Minister has relinquished a million dollars a year by throwing off the duties on tea and coffee. It cannot be asserted therefore that the surplus now pouring into the Treasury is due to an oppressive heightening of the rate of taxation; nor can it be said that the Government is taking the money from the pockets of the people to no purpose. During the past year the Finance Minister was able to pay from money in his hands about five millions of subsidy due to the Canada Pacific Railway Company, and to effect a saving of $75,000 per annum by lowering the rate of interest on an almost equal amount of Government bonds. This year the surplus will probably amount to five millions, and there is every likelihood that a similar state of affairs will exist next year. The Government will soon be able by the use of the resources thus acquired to reduce the rate of taxation; and the country at large will appreciate the advantage of having removed some of the national burdens out of the abundance of our prosperous days.

Stammering Cured.

To the Editor of THE DAILY NEWS.

DEAR SIR,—It is a matter of the utmost importance to all those who stammer that they should be freed of such a serious barrier to public life and so disagreeable an impedement to social intercourse.

To all such I would say, Prof. Sutherland of the Canadian Stammering Institute, at London, has spent many years in studying the nature and cause of stammering and its cure, including a searching investigation of the vocal organs and the most successful means by which they may be used as instruments of speech, and as a result of his labours has developed a system which, though simple in its application, is most efficient in its results and calculated to meet the requirements of the most obstinate cases of stammering so that this disagreeable affliction can no longer be regarded as beyond the reach of human aid, and as something which must be meekly borne through life; and I wish most emphatically to join with many others in stating that stammering can be cured, I care not how obstinate the case or how old the patient, provided he receives the services of a competent person who understands the nature and requirements of his case. I am well aware there are unprincipled persons travelling through the country preying upon the public promising for a certain cash consideration to impart a magical secret which will instantly transform his stuttering victim into a fluent speaker but I speak from experience when I say I have no faith in such persons or phenomenal cures and am glad to state that Prof. Sutherland promises a cure only after hard work and persistent effort, at the same time it is quite within the reach of any one to make the necessary exertion, and adhere strictly to instructions given to become a fluent speaker, for, the cause of hesitancy is removed, and hence, permanent cure. This system has also been applied with success to the art of public speaking by teaching the proper use of the vocal organs, and enabling public speakers to acquire a large volume of voice with the least possible effort and at the same time avoid that almost universal bane of public speakers known as "Minister's Sore Throat." Therefore those in Eastern Ontario requiring this treatment should hail with pleasure as announced in another column the proposed visit of such a man as Prof. Sutherland who spent many years in developing a system which is combined testimony of hundreds to prove its successful application to the cure of stammering in all its forms.

I am yours, &c.,

ONE WHO HAS TRIED IT.

The Ring.

New York, May 4.—Sullivan having failed to meet Elliott and sign articles for a fight, and not having covered his forfeit for the championship, the latter claims the belt. He offers to fight Sullivan for $2,500 aside and the heavy weight championship, or will make a match that Sullivan can not stop him in four three minute rounds, in a twenty-four foot ring. Marquis of Queensbury rules, for a like sum. Richard K. Fox to be stakeholder.

Mr. Fox has sent the passage money to bring out Joe Collins, better known as Tug Wilson, from England, to fight Sullivan, and will back him for £500 and the championship of the world. On his arrival he will post $1,000 forfeit, and challenge Sullivan.

THE RELEASE OF THE SUSPECTS.

Parnell Comments on the Situation—He Will Try to Prevent Outrages and Crime.

London, May 4.—Parnell was interviewed at Kingstown yesterday. It is reported that he said: "From the altered tone of the Ministry since the meeting of Parliament, we had supposed that our release might come after weeks, but we had no reason to anticipate it so soon. It is of course entirely unconditional. I consider that our release, coupled with Forster's resignation, indicates the determination of the Goverament to amend the Land Act as far as possible during the present session and a desire not to revert to coercion. As a result of their change of policy and the prospect of further remedial legislation, the state of Ireland will be materially improved and the outrages will diminish. I shall be very much disappointed if the outrages should not be materially diminished by a reversion of the policy of coercion. No efforts of mine will be wanting to end the outrages and crime, but the success of my exertions must materially depend on the nature of the extent of the remedial legislation proposed by the Government, and also on the unconditional release of Michael Davitt and the other popular leaders. Davitt's arrest was a fatal blow to the cause of order in Ireland. The man who should follow Forster ought to be a strong man in accord with real liberal thought, who, from his position and character, should be supported by public opinion in carrying the measures of reform necessary for the peace and well being of Ireland. Such a statesman would see the necessity of the participation of Irishmen under some representative system in the management of his own affairs in accordance with the wishes of the majority. I consider the prospects of self government in Ireland greatly improved in the change of Government. I believe the change indicates a desire that the Government will examine into and discuss this great question with us, with a view to its settlement, and there is a growing belief that upon the satisfactory solution of this question depends the prosperity of Ireland."

Dillon's health seems to have suffered considerably from imprisonment, but Parnell and O'Kelly are in their usual health.

A Brakeman's Dream.

A brakeman on one of the regular freight trains on the New York, Lake Erie and Western Railroad met with a most singular escape from death the other night. There had been an unusually heavy rush of freight over the road and he had been at work constantly for two days and three nights. Between Deposit and Hancock two trains collided and caused a wreck, which was likely to detain the trains and blockade the track for some time. The brakeman in question was sent back to flag the first approaching train. He went back about a fourth of a mile, the regular distance required by the rules of the company, and feeling very tired from overwork he sat down on the track, on the outside rail, to wait. Before five minutes he was sound asleep. While thus asleep he dreamed he was lying on the track and that the Atlantic express, one of the swiftest trains on the road, ran over him and cut off both his arms, mangling him so terribly that he could not possibly survive. The dream was so horrible that the man awoke, with a start, to find himself lying flat on the track and the Atlantic express coming round a curve, about thirty yards away, at the rate of forty miles an hour. To seize the red lantern and leap from the track was but an instant's work. The engineer of the express saw the light and stopped the train just in time to prevent a collision with the blockaded freight train.—Philadelphia Times.

A Nurse Who Fed Pins to a Baby.

The infant of Mrs Sachs, No. 68 North Eden street, which was relieved of four pins it had swallowed, has fully recovered. The pins, which were one shawl pin, an inch an a half long, and three pins an inch long, were, it is believed by the mother, given to the infant, which is 7 months old, to brandy by the nurse, and partly by poking them down its throat. While the mother was at market last Friday the nurse it is stated, got a small quantity of brandy in the neighbourhood. On her return from market Mrs Sachs found the child, which she left three-quarters of an hour before well and chirping, vomiting blood. Dr. Gross was called. Under his treatment three of the pins were passed Saturday and the fourth Sunday. One of the smaller pins was considerably bent, an the others slightly. The doctor was satisfied the pins were all swallowed head foremost, which probably saved the child from greater harm than was done to it. The nurse, who is 18 years old, expressed surprise at being charged with so heinous an act, but afterward, Mrs Sachs states, she admitted it to her. She has been sent by her mother to an institution for the care of young women.—Baltimore Sun, April 21.

Died in a Diving Dress.

Port Huron, May 3.—Joseph Boyce, a diver on the wrecking schooner Wilcox, died in his diving dress this afternoon while engaged in looking for the body of Captain F. Colven that was lost on the schooner Clayton Belle. The pipes that supply air got foul of the anchor of the Wilcox, and on account of his inexperience in a diving dress it is supposed that Boyce got excited and could not clear them. His home was at Bronte, Ont., and he had only been in the dress once before.

Sad Drowning.

Quebec, May 4.—Yesterday afternoon a man named John Charlebois accompanied by two of his children attempted to cross a lake in the Gatineau lumber district. The ice being in a bad condition Charlebois went through. The children aged 7 and 11 years respectively, came to his rescue and made desperate efforts to save their father from a watery grave. Unfortunately however they were unsuccessful and the ice giving way beneath them all three perished.

"I was attacked with muscular rheumatism in my limbs on a late visit to Boston," says Mr B. B. Hardwick, 350 Washington street, New York. "Three bottles of St. Jacobs Oil cured me completely."

Liver, Kidney and Bright's Disease.

A medicine that destroys the germ or cause of Bright's Disease, Diabetes, Kidney and Liver Complaints, and has power to root them out of the system, is above all price. Such a medicine is Hop Bitters, and positive proof of this can be found by one trial, or by asking your neighbours, who have been cured by it.

THE COLLIER-BEATTY FIGHT.—Col. Collier who has been in Kingston for the last week, has got the better of Capt. J. H. Beatty in the legal fight that has been going on. Mr Dalton yesterday morning ordered Collier's judgment on Beatty's tailor bills to be set off against Beatty's verdict for commission on sale of engines, after the first deducting Mr. Beatty's solicitors' costs. The assignment to Mr James Beatty in trust for the debt due Mr E. S. Cox was held to be subsequent to Mr. Collier's claim on the tailor's bills. The fight seems to be now over.

ALL THOSE WANTING bargains in books, stationary, and fancy goods should visit Stacey & Walpole's old stand this week, after which the cost price sale will be discontinued and a small advance on cost added.

MUSKRAT SKINS.—This morning Mr John Leader, of Barriefield, sold 300 muskrat skins to Mr H. Richardson. The rats were caught about 12 miles down the Rideau, and during the last six weeks. The skins are selling for 19c. each.

PROBABILITIES for the next twenty-four hours: Lower Lakes—Moderate to fresh winds, cloudy to fair weather with shower and thunder storms. St. Lawrence—Moderate to fresh winds, cloudy to fair weather with shower and thunder storms.

RELEASE OF THE SUSPECTS.—The flag is flying on St. Patricks Hall, in recognition of the release of the suspects in Ireland. It is said the I. C. B. U. will meet tonight and make arrangement for a celebration, a large bonfire, etc. The members of the society are enthusiastic over the release.

A NOVELTY.—This morning Mr M. McGurl, showed us a lady's work box which he made himself. It is the model of a lumber shanty, with fixings complete. The roof is made of bark which is so arranged as to make the covering perfectly watertight. It took him five days to make the box, but the result well repays him for his trouble. The novelty is worth seeing.

DOCK LABOURERS.—The iron ore gang on the K. & P. esplanade have plenty to do now a days. The vessel captains say that a better gang of workers could not be found. They are always on hand and ready and willing. The prices they receive for loading vessels are: off the car 10 cts per ton; off the wharf on the inside of the track 15 cts; off the wharf on the outside of the track 13 cts. A car load is about ten tons.

OUR WEEKLY EDITION.—The Chronicle and News was issued today from this office and will be found, as usual, filled with interesting reading matter of all kinds. Correspondence from the villages around about, news in brief both local and foreign, correct market reports and well selected reprint combine to make it one of the best weeklies in Central Canada. For sale at the Bookstores and at the office in wrappers. Price 5 cts.

ENTERTAINMENTS TO-NIGHT.—Our readers are reminded of the Listeman concert in the City Hall this evening and the minstrels in the Opera House. The latter made a very showy parade on the street this morning, being accompanied with a fine brass band. Eight Zouaves headed the procession. The Drum Major carried a rifle, with fixed bayonet, instead of a staff, and this he kept in constant motion, whirling it around as if it were a walking stick. He is an adept at such work. The Zouaves were put through military evolutions on the street.

CLERICAL APPOINTMENTS.—The Right Reverend Bishop Cleary has just made the following changes in the location of his clergy: The Rev. Michael Donohue, having been relieved of the burden of the pastoral office in Erinsville at his own request, has been appointed to Belleville, as assistant to Monsignor Farrelly; the Rev. J. T. Hogan, has been transferred from the Cathedral, Kingston, to the position of Pastor in Erinsville; the Rev. Patrick Hartigan from Peterboro to the Cathedral; the Rev. James Connolly from Madoc to Peterboro; the Rev. John Fleming from Lindsay to Madoc; and the Rev. Morgan C. O'Brien from Brockville to Trenton, as assistant to the Rev. Henry Brettargh.

KINGSTON RIFLE ASSOCIATION.—A meeting of this association took place at Colonel Kerr's office at 8 p.m. last evening. There was a large attendance. The officers elected for the ensuing year are:—President, Lieut.-Col. Kerr, 14th P.W.O. Rifles, (re-elected); Vice President, Lieut.-Col. Kirkpatrick, 47th Battalion; Treasurer, Capt. Strachan, 47th Battalion; Secretary, Capt. W. M. Baillie, 47th Battalion. The following members compose the Council:—Major King, 14th P.W.O. Rifles, Major Hebert, B Battery R.S.G., Major McGill, 4th Troop Cavalry; Major Gordon, 14th P.W.O. Rifles; Capt. Byrne, 47th Battalion, Lieut. Strachan, retired list; Lieut. Murray, 14th P.W.O. Rifles; Sergt. Hume, 14th P.W.O. Rifles. Range Officer, Lieut. Abrams, 47th Battalion. The weekly practice will commence next Wednesday afternoon. The report showed the Association to be in a flourishing condition.

WHITEHEAD ... Trial and is Acquitted at Last.

Corregan Stands His Trial ... a portion of the

Yesterday we published a portion of the evidence taken in the trial of T. H. Corregan before Judge Price. Below will be found a conclusion of the evidence:

J. Kearns was recalled and stated that he did not wish the proceedings to go on. He had dropped the case so far as he was concerned.

Mr Smythe—What has transpired since you first prosecuted, that has changed your mind?

Witness—I have received a consideration that satisfies me.

Mr Smythe—What are the details of the consideration?

Mr McGuire took objection to the question.

Witness—He gave us a quit claim on some property in the town of Prescott, and $50 in cash. The property is supposed to be worth $700. Corregan thought he had a good case, but his wife being poorly he took her advice and settled the matter. It was out of sympathy for his wife, in a measure, that he settled the case.

The Judge—That was a queer way to sympathize with her—take money from her husband.

John S. Henderson also gave evidence, but stated nothing new.

During Mr Hutcheson's evidence the learned counsels had a few tilts about the putting of leading questions. He did not get any money from Mr Kearns directly. He got two checks from Mr Henderson—one for $475 and one for $375. The former he cashed and paid the money to Mr Mudie, in payment of a claim on the Whitemouth property.

Mr Smythe then submitted Mr Whitehead's evidence, and on it being proved that he (Whitehead) was out of the city, it was accepted.

This concluded the case for the Crown.

Mr McIntyre referred to the indictment which charged Corregan with obtaining $140 of J. K. Kearns money under false pretences. The evidence had shown that Corregan had not received one cent from Kearns. Kearns had not even given him his note, but he had to Mr Henderson. This money ceased to become Mr Kearns' when it got into Mr Henderson's possession.

The Judge—Well, could Mr Henderson be prosecuted for misappropriating the money?

Mr McIntyre said there was a specific statute governing that matter.

Mr Henderson was recalled and stated that he had not received Kearns' note until ten days after he (Henderson) had paid Hutcheson for the land. Kearns was not bound to take the lots after they were purchased unless he liked. Witness was prepaired to keep all the lots if Kearns did not want any of them.

To Mr Smythe—There was no written agreement between Kearns and I. He adopted the bargain after I purchased the lots.

Mr Smythe in a short address contended that if a person ratified a bargain after it had been made it was equal to a prior request.

SUMMING UP.

The Judge said there was no evidence of a sale having been made to Kearns by Corregan. Henderson had only been led to believe that Kearns would take some lots after they had been purchased. If that were a correct statement of the facts the matter did not come within the reading of the act. A subsequent arrangement would not make the defendant liable. If the parties concerned had any regard for moral consequences they would take good care in the future to state actual facts when making sales of lots.

Mr McIntyre stated that Mr Whitehead's evidence was not sufficient to prove that the posters had misrepresented Whitemouth. The evidence was very flimsy.

The Judge then disposed of the case upon the grounds that the evidence did not show that a sale had been made to Kearns by Corregan.

CONFIRMATION.

The Lord Bishop of the Diocese of Ontario held Confirmation service in St. James' Church last evening at 8 o'clock. The Rev. Mr Kirkpatrick, Incumbent of the Church presented the candidates, numbering 31—14 males and 17 females—to the Bishop, who went through the usual ceremony of the laying on of hands, after the example of the holy Apostles. After the holy rite had been administered the Bishop addressed the congregation and especially the newly confirmed members, giving them some excellent advice with regard to their lives from this time forth. He said that they should now lead new lives, that the lives should be model ones and should be examples of purity and excellence which will be looked upon with respect and will inspire hope into the hearts of some who may have strayed from the right path. A good example is worth any number of sermons. His Lordship specially impressed on them the necessity of attending the table of the Lord and of becoming regular communicants in the church. He told them not to give ear to a statement which had been made by some people, that a person might be fit for Confirmation and yet not fit for the table of the Lord. This is not so, for what is required of them that come to the Lords supper? To examine themselves whether they repent them truly of their former sins, steadfastly purposing to lead a new life, have a lively faith in God's mercy through Christ and be in charity with all men. This is what is required. And had not they all examined themselves in that manner, and had they not purposed all those things? They had, and, therefore, they were fit to approach the table of the Lord. The Bishop concluded his loving and instructive remarks by giving to the newly confirmed members of the congregation two pieces of advice to guide them in their careers: (1st), To go on to perfection, striving ever to better their lives, and (2nd) To make their lives examples, to make themselves worthy of the names of Christians and to make use of all the means of grace to the glory of God.

When His Lordship concluded his remarks, the Rev. Mr Kirkpatrick announced that the Sacrament of the Lord's Supper will be administered on Sunday next after the usual morning service to which all new as well as all other communicants of the church are affectionately invited. The choir sang several appropriate hymns during the service. The Bishop was assisted by the Rev. Mr Loucks, of St. Mary Magdalene Church, Picton.

DIOCESE OF ONTARIO.

Meeting of the Executive Committee—The Various Reports.

The Executive Committee met at ten o'clock this morning. Present: The Bishop, the Dean, and Rev. Messrs. Burke, White, Pollard, Baker, Lewis, Crawford, Macdonald, Kirkpatrick, Loucks, Low, Tighe and Mullock, and the Chancellor, and Messrs R. T. Walkem, Hartney, Matheson, and the Clerical Secretary.

The communication of the Rev. Mr Burke respecting the Belleville rectory lands, and asking for a Committee to be appointed to look into and report upon the affairs of the rectory was laid over, Mr Burke having stated his intention of applying to the Synod for such Committee.

It was moved by Mr A. J. Matheson, seconded by Mr R. T. Walkem, that the Clerical Secretary be instructed to write to the applicants for the sale of the church lands at Frankford, and that the Committee is prepared to receive an offer for the sale of the property en bloc. Carried.

It was moved by Mr Walkem, seconded by Mr R. V. Rogers, that Messrs. D. Callaghan and F. R. Sargeant be appointed auditors of the Synod for this year, at a salary of $50 each. Carried.

The report of the Mission Board, as printed on first page was received and adopted.

RECTORY LANDS.

The Rev. E. Loucks, chairman of the Rectory Lands Committee presented the report of that Committee.

The report stated that it was not deemed advisable to go into details of the several rectory accounts until the auditors had gone over the books. The chairman was requested to report progress to Synod, and ask leave to sit again.

Report received and adopted.

EPISCOPAL TRUST FUND.

The report of the Episcopal Trust Fund Committee was submitted by the Rev. Mr Lewin, chairman. It stated that there were

27 mortgages, covering sum of	$30,956 12
Debentures	19,000 00
Property	4,200 00
Total productive capital	$54,156 12
Premium on Brockville debentures	322 50
Overdrawn interest	4,301 00
Rev. T. A. Parnell	2,251 55
	$61,091 17
Less amount over invested	165 25
	$60,925 92

Received and adopted.

CLERGY TRUST FUND.

The report of the Clergy Trust Fund Committee was submitted by the Rev. Mr Crawford, chairman.

The total capital of the fund is $262,108 24, $4,463 24 of which is in the bank at the credit of the fund.

The Clerical Secretary reported a yearly income from invested capital $14,736 75, leaving a balance over and above expenses of $168 52. To this may be added $916 of over due interest, making a balance of $1,084 52.

The lamented death of the late Canon Forest will free the Annuity Fund to the extent of $400 per annum, and the investment of the large balance of $4,463 24 at five per cent will add about $223. The Committee therefore felt justified in placing two annuitants on the list of beneficiaries—Ven. Archdeacon Jones and the Rev. T. L. Stephenson.

The chairman of the Committee was instructed to propose at the next Synod an amendment to Canon XV. to the effect that, after the decease of any annuitant, his widow, or orphans, if such survive him, be entitled to receive the quarterly amount formerly paid to him for the current and ensuing quarter. This instruction was given, as a quarter had been made as to the legality of payments usually made.

WIDOWS AND ORPHANS.

The Rev. Mr Tighe presented the report of the Widows' and Orphans' Committee:

Total receipts	$4,717 54
" payments	3,776 57
Balance in bank	$ 940 97

The widow of the late Canon Forest was placed on the pension list.

The Ontario Bank having reduced its stock to one half its value, and the Synod holding shares to the amount of $720, the Secretary was instructed to dispose of said stock, provided the loss does not exceed half the nominal value, otherwise, that the Secretary take three shares under the new act, and the balance in cash.

The committee authorized the sale of a certain lot in the township of Mara, in the interest of the fund.

The report was adopted.

THE DEPOSITORY.

Rev. Mr Bousefield submitted the account of the Diocesan Depository, which showed the receipts to be $1,270 10, expenses $1,245 96, leaving a balance on hand of $24 14.

It was moved by Judge Macdonald, that the Book and Tract Committee be requested to consider the propriety of closing the Depository, and report at the next meeting of the Executive Committee in reference thereto. Carried.

FINANCE REPORT.

The report of the finance committee was submitted by Mr R. V. Rogers, lay-secretary, which concluded the proceedings of the meeting of the committee:

In the absence of Dr. Wilson, Mr R. V. Rogers was appointed chairman.

A letter was read from the Rev. G. Gardiner, stating that the arrears of assessment ($12) which his predecessor had allowed to accumulate, the people would not pay, as they assert that it had been handed to Mr Scammel.

The expense account was read as follows:

Assessment fund	$ 560 43
Clergy Trust Fund	777 00
Divinity Students' Fund	67 00
Episcopal Fund	126 00
Mission Fund	350 00
Rectory Lands	490 00
Sustentation Fund	142 00
Widows' and Orphans' Fund	131 00
Prayer Book Fund	60 00
Total expenses	$2,693 43

THE R. & O. NAVIGATION COMPANY.

It will be remembered says the Star that some two years ago the Bohemian, of the Richelieu and Ontario Company's line, struck against one of the gates of number two lock in Montreal and sank, carrying with her to the bottom a considerable quantity of valuable merchandise, a portion of which consisted of furniture belonging to one Louis Levesque, who was journeying to Valleyfield. Levesque brought action against the Company for the recovery of the value of the property lost. Defendants opposed this claim on the ground that the accident was one beyond their control, and one therefore for which they could not be held responsible, and pleaded in legal terms vis major to the demand. The Court, however, held otherwise gave judgment in favour of plaintiff. Defendants then appealed. The case dragged its weary length along in the Courts from that time up to the 28th ulto., when judgement against the Company was confirmed by the Court of Review. The amount of Levesque's claim is not large, but it is the principle involved which renders the case interesting.

AUDITORS' REPORT.

To the Mayor and Aldermen of the City of Kingston:

GENTLEMEN,—

Your Auditors beg to report that they have completed the Audit of the City Books, and find them in every respect correct and satisfactory. Vouchers and warrants for all monies paid out have been carefully examined and found to agree with the entries made by the Treasurer.

The Rolls and Cash Book of the Collector agree with the amounts credited by the Treasurer.

We have also Audited the Books of the Police Department, the Collegiate Institute, and the Vouchers for payment of Salaries to the teachers of the Public Schools.

The Collector having made a final return for the year 1881, we would recommend that the balance on the City Books uncollectable be written off for 1879, 1880 and 1881, so as not to appear as Assets in next year's Balance Sheet.

The following Statements we submit in Duplicate:

No. 1—Abstract Statement, showing sources of Revenue and Ordinary Expenditure for the year 1881.
No. 2—Statement in detail of Receipts and Disbursements as charged to the various Streets, Wards and Departments for 1881.
No. 3—Showing the Assets and Liabilities of the City on 31st December, 1881.
No. 4—Abstract Statement of No. 2.
No. 5— " " No. 3.
No. 6—Statement of Taxes for the year 1880.
No. 7— " " " 1881.

We again respectfully submit that from the amount of time and labour required to thoroughly examine the City Books and the various accounts and additions thereto—that your Auditors are inadequately remunerated for their labour.

Respectfully submitted,

F. J. GEORGE, ADAM McARTHUR, } Auditors.

Treasurer's Office, Kingston, April 13th, 1882.
