Suffering humanity, Thousands die annually from these horrible habits. Don't be frightened at once, but be reasonable and try the remedy. It will not hurt you. Yet the pleasures of debating and boasting will be changed, into disgust. Life will be real to you. Like the Opium Eater, he first uses the drug to deaden pain, ends as a hopeless asthmatic. The soothing influence of the drug being short lived upon the nervous system, the patient being kept under the influence of Opium finding it impossible to throw off the habit. Samaritan Nervine gradually and surely will build up the nervous system, and restore the digestive organs, stomach, which embodies its cravings until it becomes both the disease and the remedy, and a dose of liquor or cure of opium, instead of satisfying, only adds to the flame, which consumes the vital force and thus itself. Like the gluttonous beggar, it must "have, give, give more," and the more you feed it the more ravenously it craves. SAMARITAN NERVINE is a positive remedy, under the control of which the system gradually, surely and restores body self mind to a healthy condition.

Our Nervine is a scientific remedy, and make commercials to assist, and invests in the cures of our fellow men. If you will call, or not keep this a secret longer, until it may your relation, and consult with the doctor, you will not be three millions, lost.

DEAR, DEAR NEW YORK.

Fabulous Prices paid for City Property.

A New York correspondent writes:—The price at which choice real estate is now held in this city does not bear out the idea of impending panic and financial collapse of which we hear so much from the omnipresent croaker. For ten lots, 25x100, facing Central Park on Fifth avenue, $100,000 each were offered the other day. A million of dollars for the first set of frontage in a very large price, remembering the location, which is by no means a pleasant one, as it is right at the place opposite the park's entrance, where street cars are continually passing and the traffic is tremendous. Yet this land is worth $3343 per inch! To put up a most ordinary dwelling on one of these lots would cost at least $50,000. Then $100,000; total, $125,000, which, at 6 per cent., represents an interest of $7,500 a year—a pretty steep rent to pay for a house in one with cannot exceed 25 feet. Yet, as they will not be sold except for cash, it enables people to bear this locality of location that such lots are in great demand at constantly increasing prices, while magnificent sites in New Jersey, Long Island, Staten Island and other charming sylvan retreats near the city are neglected. Fifty thousand dollars' pidonomy spent on the lots on Staten Island, say, would give a man a splendid lot with a lawn and garden and a roomy, comfortable house with every modern improvement, three times as wide as the Fifth avenue lots, with as handsome a setting as the whole Fifth avenue lot. It is amazing to go into the regulation house to see how full on a single lot and notice the recreating surroundings of the country with the wealth of space stifled in such a place.

Odds and Ends

Her manager to Mrs Langtry "Madam, Jim Abbey to see you."

That Iowa bounds is said to have lived to over one hundred and fifty years.

The man who married an "awfully pilly girl subsequently discovered that she was "awfully jolly."

The foregoing my be true, with the slight exception that Sheridan was not then born.

The Chesham Examiner has a story (to fellow passenger) "Can you tell me what station this is, please?" Foreigner (looking out of window at an advertisement), "I took it to be Colman's Mustard." Didn't she make it warm for him after, though!

Why, yes, said the tramp, as a tear glistened like a gem drop upon his sun-stained face, "I owned during the entire war. After shooting away the considerable breech fast that was given him he finished the session—"I was a waiter in a Canadian restaurant. Philadelphia Bulletin.

"My friend, said the offending clergyman at the marriage of two colored persons near Uniontown a few Sundays ago, "my frens, it am a serious thing to get married, especially when dey gits as black as you an' me. Some parents to fall back on, an am de present case.

A Philadelphia youth who is training to pay the correct undertaker's bill of the people who shoot at sale should be no carelessness. Half a dozen stray bullets have already come through his window.

Miss deserted her room with knee-deep and pictures, and placed the bouquet in a glass on the topmost rail. Then she sat down to admire her work and blissfully remarked, "Now, everything is arranged for the grand hop."

Some years the following sentence has stood as the shortest one which all the alphabet could be compressed —"Cwm fjord bank glyphs vext quiz." Recently a gentleman recently improved on the above sentence as follows —"Quick, glad replies, waltz my javelin for —." Perhaps a London lawyer has now forced the record, the letters of the alphabet appearing in only thirty-one letters, "C Badger the waxy comic quick fly."

A literary reviewer says "Edmund L. Anderson has written a book on Horse-manship which will have very little effect if the horse was trotting at the time, for he unanimously must have looked like the effect of a runaway." Why, I keep in full May that when you went away they would have a regular pound.

It was a French woman who exclaimed, holding up a glass of sparkling fresh water, "Ah! if it were champagne!" "Yes," said her husband, "how much it would taste."

According to the Court Journal a trade in the land of champagne corks is carried on by some of the London waiters. It seems that a waiter having good nights can buy from experience to a shilling each on certain corks, and the once to which they are put can be pretty fairly guessed.

It was in a new England school. "What is the Institution of Labor?" asked a teacher of a class in geography.

"Dress-maker, was the prompt reply of a bright eyed little boy.

"What do you do for a living," asked an Austin Justice of a huge, burly negro, who had been arrested for vagrancy. "My wife takes in washin' and works out by the day, an' I takes what what yuh reckon she done 'ain't use. A man and wife only am one, and as we am one, what I do we each one leader for. Member of the church, out of health, "What are you ranging that bell for? What are ranging that bell for" Sexton "Why Mr Bowler is dead. Mr C'ty, and it isn't true. Stop that bell. Sexton "Well, then, I guess I've tolled a lie.

It is reported that Barnum has made an offer to Sarah Wilde for the latter to ride on the top of Jumbo and ride in the street process. Sarah Wilde, instead of Wilde sitting on the elephant, Jumbo was to sit on Wilde, the latter would be more satisfactory to the people, and it would be least Jumbo much.

A Little Smith.

Child of Patrick Smith, living at 30 Chauncerille street, Montreal, pauses 11 years, stomach worms on Saturday last. Symptoms—Sore of the throat. Smith's Great German Worm Remedy—Dose.

Farmers' Wives.

It is an evident fact that farmers' wives are afflicted with many diseases which are the result of overwork. They are constantly on one consecutive routine of toil from daylight of morning until late at night. No change, no relaxation, no rest. Farmers should note this fact, and be forewarned before it is too late. It is astonishing what an amount of labour the wives of farmers perform. Many of them get up and have breakfast ready before their husbands are out of bed. Then it is work, work, work until near midnight, their minds during the time being constantly occupied with their duties, and with them only passing and the traffic is tremendous. Yet this land is worth $3343 per inch! To put up a most ordinary dwelling on one of these lots would cost at least $50,000. Then $100,000; total, $125,000, which, at 6 per cent., represents an interest of $7,500 a year—a pretty steep rent to pay for a house in one with cannot exceed 25 feet.
