A VISIT TO CATAQUA!

What J. W. Garman saw at Place de la Paix
of the St. Valentine's News:

SUNSTROKE.

Promises to be a pleasant summer applica-

tion.

Sunstroke is caused by excessive heat,

and especially if the weather is sultry.

It is more apt to occur in the second

or third or fourth day of the heated tem-

perature than on the first.

It is a fatal disease, and often debili-

ates it. It is the only known Puff-

and-panture for corns ever.
