> SYLVANIA, PUBLISHED IN THE ME DICAL JOURNAL, IN 1847.

In various local diseases I have tested the effi- re asonable terms. cacy of Dr. Sherwood's Embrocation to my satisfaction. In Erysipelas, no matter where present, of what description, he found the Embracation, painted over the parts with a hair pencil brush. preferable to leeches, bitions, incissions, scarifiation of caustic. When pain and throbbing only existed, one or two applications of the Galvanic Embrocation, cut short the disease, and where the superation had commenced, its repeated use not only checked the progress of the disease, but caused the deposited matter to be absurded. Not a single case of failure occurred when the Embrocation was applied before superation took place; and even then the pus was much less in quantity, then where poultices were used. In acute inflamation of the Joints it was more efficacious than any of the ordinary local applications over the knee-if the skin be delicate, it may be the lying tetween Williamsville (on the applied, one half the strength, diluted with spirits Macadamsied Road) and the Provincial Penof camphor, and the strength increased as re- itentiary, A diagram of which, may be seen quired.
