arranted to be the same in every respect as those sold by L. M. SINGER &

Co., in the States, for \$110. FITHIS price includes an Iron Stand such as Singer sells for \$10. I have made an improvement on Singer's large-size Machine, by which Patent Leather can be stitched without oil. Shoemakers had a great objection to use these Machines before, owing to the oil continually working off the leather on the lastings and cloths of ladies' gaiters. The necessity of applying I foil to patent leather is entirely obviated by

his new improvement. These machines are well adapted for family and manufacturing purposes, and in point of utility, durabitity and cheapness, surpass uny of the kind ever offered

for sale in Canada. I have received numerous testimonials from Boot and Shoe makers, tailors, dressmakers, and private families, who are using my Machines; all unite in recommending
