Ross, Esq., President of the late Board, read the following

THE DIRECTORS. REPORT OF

The usual General Statement of the affairs of the Bank, as on 16th June, 1860, is herewith submitted,

The profits, including balance of Profit and Loss Account at 18th June 1859, after deducting expenses of management, and entries for bad debts, have been \$378,636 39.

Of this amount there has been appropriated, to

Government tax on circulation,
Annual reduction of Real Estate account, \$333,507 39

for the above ports, running all the Rapids | leaving a balance of \$45,129 07 at credit of Profit and Loss Account.

This amount would have been greater, had interest upon certain advances, to a public Company in the Province, been paid. Owing to a CHRISTOPHER COLUMBUS AND understanding, which has arisen between the Company and the Beak printerest of the debt, has been received. As mismisunderstanding, which has arisen between the Company and the Bank, neither principal nor interest of the debt has been received. As misapprehension exists in regard to these advances, the Directors deem it right, to make this case an exception, to the general rule of not alluding to his Crew. particular debts in the Annual Report, and to state, that although they still hope an amicable settlement will be made, they have considered proper, to submit the whole facts and documents connected with the case, to the most eminent Counsel in the Pravince, and that the result has been, an unanimous expression of opinion, respecting the justice of the position claimed by the Bank, and a recommendation that legal proceedings be taken against the Company. The matter will doubtless have the early attention of the new Board,

The Reserve Fund remains as stated in last Report \$600,000, or 15 per cent, on the capital,

The remarks about the general business of the country, contained in last Report, may in part, be repeated now. It has continued to be country to purchase, without the additional reduced in extent, as compared with that of years preceding 1858; but at the same time, what has been done, has been of a sound character Gift. and fairly remunerative. As regards Bank matters, the Directors have found, that the crop of 1859 gave the means of carrying on the current business, and of enabling the community to discharge a large amount of indebtedness; that it could make up for the whole deficiency of the harvests of 1857 and 1858 could not be expected, but it is beyond doubt that the liabilities of merchants generally, both to foreign and to BATH, PICTON, and BELLE-Canadian creditors, are now much less than they were in past years. From almost every quarter the growing crops are represented as look-149 VILLE (calling at intermediate ports) ing unusually well, and if they shall be safely harvested, business during the autumn and winter can scarcely fall to be active and healthy.

> During the past year the usual policy of the Bank has been continued, via, supplying all legitimate wants of customers, and while 150 avoiding undue pressure, securing further all debts not attended to at maturity. Obviously it would have been imprudent to extend the business of the Bank, at such a period of comparative inactivity, and nothing of the kind has been attempted,

The Directors doesn it their duty to advert to the change of the executive Officers of the Bank, caused by the resignation of the Hos. > The Directors being of opinion that it would be for the interest of the Bank, that the President should be an officer, devoting his attention | 3m-140 to its affairs, to the exclusion of all other business, desired that Mr. Ross should take the office, under a different arrangement of duties, from what had hitherto prevailed. In accordance with this desire on the part of the Board, Mr. Ross, having been elected Director until the Annual Meeting, was unanimously chosen President; and Mr. Campbell, formerly Inspecting Director, has been appointed Cashier, for the duties of which office, from his experience and ability, he is in every way qualified.
