KENNEDY'S MEDICAL DISCOVERS.'--IL may be thought strange that we should attempt to give publicity by a notice in our paper to an article that is as well known as the old family mansion, and whose name is as household words in the family circles of our citizens. But we wish to keep before the eyes of the community an article that is doing so much for the sons and daughters of earth. This medicine has been declared to be the greatest cure for numors of every description that was ever invented, and such it has ever proved itself to be. Scrofula and Erysipelas, Canker and Humor, Rheumatism and Neuralgia are all cured in the shortest possible time, and each succeeding year adds to its popularity and the number of those who unite in pronouncing it a medicine for the Peo-For sale by every Dauggist in the British

THE WORDERS OF THE MICROSCOPE .-We understand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length sneceeded in finding the Palludal miasm and determining its character. Of itseffects we in this section have abundant evidence in the Fever and Ague which it alone produces when absorbed through the lungs into the blood, ilt has long been held to be a vapor or something in the vapor of water from decayed and decaying vegetation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blood of Ague subjects. They are 13,000 times less than visible to the naked eye, but have distinct character and form. He thinks they are reproductive in decaying matter or in the blood, and heace their long continued life or the remote effects of them in the system. He maintains that they resemble in character all of which are known to reproduce themselves with great rapidity like yeast in moistened flour, so that the slightest quantity impregnates the whole mass. Yeast, through a powerful magnifier, is seen to be THE LATEST FROM CHINA-We have been a forest of vegetation which grows blos-
