The New American Watch.

IN ORDER TO MEET THE RE-QUIREMENTS OF GENTLEMEN who 206 prefer a thinner watch than those usually made by us, we have lately issued a new style of watch on the three-quarter plate model, especially designed for this purpose. In establishing this new series, it has also been our design to produce a watch in every way superior to the best and highest priced products of the most reputable of English and Swiss manufacturers; and no labor or expense has been spared to this

In all respects of fine and durable mates rial, of external and internal finish, accurate compensation and adjustment, of mathematically just proportions, and of prace tical results our new three-quarter plate watch challenges competition with any in the world.

FOR THE AMERICAN WATCH CO., OF WALTS HAM, MASS., ROBINS & APPLETON, Agents. 182 Broadway, N. Y. New York, August 14, 1860 Imd&w194

Heath and its Plastres DISEASE WITH ITS AGONIES:

MARK THESE FCTS! The Testimon of the Whole World HOLLOWAY'S OINTMENT BAD LEGS, BAD BREASTS, SORES AND

All description of sorce are remediable by the proper and dilligent use of this incetimeble preparation. To attempt to cure bad legal by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with ton fold fury in a few days. The only rational and successful treatment, as indicates by nature, is to reduce the inflamation in and about the wound and to soothe the neighbor-

ing parts by rubbing in pienty of the Qintment as salt is forced into meat. DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS. Any of the above diseases may be cured by well rubbing the Cintment three times a day into the chest, throat and neck of the patient it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Cintment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved

PILES, FISTULAS, STRIUTURES. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rub bing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merel to smear the Ciutment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubing i of the Ointment, will do great service. This h the only sure treatment for female cases cancer in the stomanh, or where their may bo a general bearing down.

INDISCRETIONS OF YOUTH ;-SORES AND ULCERS. Blotches, as also swellings, ean with certainty, be radically cured if the Ointment \ Medichies, will never afterwards be without they only dry up in one place to break out his another; whereas this Clutment will remove the humour from the system and leave the pas I tient a vigorous and healthy being It will require time with the use of the Pills to ensure a lasting cure. DROPSICAL SWELLINGS, PARALYSIS

AND STIFF JOINTS.
