No questions asked. If we are not in leave them with the boy.

DRAWING AN AVERAGE .- In a town in Consectiont resides a man who made a fortune in the milk business by not giving the full measures; as he grew rich he thought he would change his occupation to something more respectable, and accordingly bought a grist mill. In conversation with his wife, he did not feel right about the cheating he had practiced in the milk business, and wished r way could be devised whereby he could repay in the grist mill what he had cheated the other. At last they settled on the following plan which was to have the measures which they took toll as much too large as the milk measures were too small.

A friend once visiting an unwordly philosopher, whose mind was his kingdom, expressed some surprise at the smallness serene, unappreciated answer, " I do not want to swing a cat."

The Pall Mall Gazette states that the salaries. The office of maniciple has, i' in the form of a bursar's cierkship.
