POLICE COURT, Tuesday.—William Werness, a deaf and lame pauper, charged with vagrancy, was allowed to go to Brockville. Arch. Buchanan, a miserable wreck of his former self, was charged with drunkenness and vagrancy, and on promise to find work in the country, was discharged.

ONTARIO STEAMBOAT COMPANY.—A meeting of the stockholders of this company was held on the 6th inst., when it was resolved to increase the stock of the company, (which is now $105,000) to $200,000. The company is building a dry dock at Charlotte, at a cost of $15,000, and we hear that they intend building, the present season, a new steamer suitable for navigating the St. Lawrence; and thereafter a new Lake steamer of the best class, though not propably so large as the 'Ontario.' The boats of the comapany are being put in the most complete order, preparatory to the opening spring business.—Syracuse Standard.

CATTLE FOR THE STATES.—Mr. H. J. Lawry, and Mr. Buckingham, well known butchers of this city, inform us that there could not have been less than 20,000 head of cattle taken from this section of the Province during the past week. As immense number of horses were also bought by American speculators. All day on Saturday there was one continual stream of cars crossing Suspension Bridge.—Spectator.

It is rumored that the Provincial tug boats Lady Head and Queen Victoria are to be got in readiness as soon as the navigation opens for the protection of the fisheries. The only boats remaining here will be the Napoleon and the paddle wheel steamer Advance, which will remain here to carry the light house supplies. Should this be a fact, the St. Lawrence Tow Boat Company will place their powerful steamer now in course of construction on the Picton route in the place of the Lady Head, instead of the Saguenay route as was at first thought of.

THAT THE

GREAT SHOSHONEES REMEDY

OF THE CELEBRATED INDIAN, DR. LEWIS JOSEPHUS, OF THE DISTINGUISHED TRIBE OF SHOSHONEES, BRITISH COLUMBIA, IS NOW FOR SALE IN CANADA.

THIS all-possessing Great Indian Remedy is warranted, and in broad and emphatic language, we can safely say may be relied upon to make a permanent cure of all Diseases of the Throat, Lungs, Liver, Kidneys, Digestive Organs, &c., as well as Scrofula, the various Skin Diseases, Humors, and all diseases arising from Impurity of the Blood, excepting the third stage of Consumption. In the Western Country, where this Great Remedy has been in use for a short time, it has indeed affected some of the most Marvellous Cures, ever recorded in the annals of Historical Medicine. Such being the case, in addition to its former renown and celebrity, we defy humanity to dispute the fact, that this, the Great Shoshonees Remedy, in connection with the Shoshonees Vegetable Restorative Pills, is the Remedy of Remedies of the 19th Century, and the greatest boon ever laid at the alter of suffering humanity. For the discovery of this Wonderful Remedy, the world is indebted to Dr. Jasper, formerly of St. Louis, Mo., who spent, before he succeeded, over two long years in Columbia, endeavoring to obtain from Dr. Josephus the life-long secret of preparing it. Dr. Jasper, with Dr. Hall and several other physicians of St. Louis, witnessing the astounding curative effects of the Great Shoshonees Remedy, entered into combined cogitation for the purpose of ascertaining the peculiar mode of action of this Great Remedy, and the result of their researches was that the wonderful healing properties of the Remedy were due, not only to its salutary effect upon the blood and the organs themselves, for diseases of which it is recommended, but also on the Digestive Organs and more particularly upon the Lacteal Vessels, which Lacteal Vessels combining the New Theory of Disease, as well as history of the Discovery of the Remedy, Certificates of Cures, &c., &c., are fully laid down in the Treatise accompanying each bottle of the Remedy.

☞ Price of the Remedy in large Pints $1.

SIR,—

I have the honor to transmit, for your information, and for insertion in the public papers, the accompanying Copy of an Order of Her Majesty in Council, dated the 5th instant, allowing the Distilling Apparatus of Messrs. Chaplin and Company, as well as those of Dr. Normandy and Messrs. Winchester and Gravely, to be used on board Passenger Ships.

I have the honor to be,
Sir,
Your most obedient
Humble servant,
EDWARD CARDWELL.

[Signed,]
The Officer Administering the Government of Canada.

[L. S.]

AT THE COURT OF WINDSOR,
The 5th day of December, 1865.
PRESENT:
THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS, by "The Passengers' Act, 1855," it is amongst other things enacted, that before any Passenger Ship shall be cleared out, the Emigration Officer at the port of clearance shall satisfy himself that there is on board a sufficient quantity of pure water, carried in tanks or casks, to secure throughout the intended voyage the issue of three quarts daily to each statute adult, for the use of passengers, exclusive of the quantity required for cooking:

And whereas, it is also enacted, that it shall be lawful for Her Majesty, by any Order in Council, to prescribe such rules and regulations as to Her Majesty may seem fit, for permitting the use on board passenger ships of an apparatus for distilling water, and for defining in such case the quantity of fresh water to be carried in tanks or casks for the passengers, and such order in council from time to time to alter, amend and revoke, as occasion may require:

And whereas, Her Majesty, by an order in council, dated the ninth day of January, one thousand eight hundred and sixty-three, prescribed certain rules for permitting the use on board passenger ships, propelled by steam engines of less than a certain power, and on board passenger ships propelled by sails, of a certain apparatus for distilling fresh water from salt water;

And whereas, it is expedient to repeal the said order in council, and to issue in lieu thereof the order hereinafter contained:

Now, therefore, Her Majesty doth, by and with the advice of Her Privy Council, and in pursuance and in exercise of the authority vested in Her by the said "Passengers' Act, 1855," hereby repeal the said order in council of the ninth day of January, one thousand eight hundred and sixty-three, except in so far as the same repeals a certain order in council of the thirteenth day of May, one thousand eight hundred and fifty-nine, and doth hereby order as follows:

Any passenger ship propelled by sails only, or by steam engines of less power than is sufficient, without the aid of sails to propel the ship at the rate of five statute miles an hour, may be cleared out and proceed on her voyage, having on board, in tanks or casks, only half of the quantity of pure water required by the said Act to be carried for the use of the passengers, provided the following conditions be observed, that is to say:

1. That there be on board such ship an efficient apparatus for distilling fresh water from salt water, of the description commonly known either as Normandy's patent, as Winchester and Graveley's patent, or as Chaplin and company's patent.

2. That the owners, charterers, or master of such ship, before clearance, lodge with such Emigration Officer a certificate from some engineer, or surveyor of the board of Trade, or from some other competent person to be named by such Emigration Officer declaring that within seven days immediately preceeding the date of such certificate, the apparatus has been examined by him, and is then in good working condition, and stating the number of imperial gallons of pure fresh water which it is capable of producing in every twenty-four hours, and further declaring that the apparatus on board is either Normandy's, Winchester and Graveley's, or Chaplin and company's patent as the case may be.

3. That in every case such Emigration Officer, shall be satisfied that the number of gallons of pure water which the apparatus is so certified to be capable of producing is not less than, the whole number of persons about to proceed on the intended voyage of such ship, that is to say, the whole number of cabin passengers, passengers and crew.

4. That there is rated on the ship's articles, and that there is on board the ship, some person or persons who to the satisfaction of the said Emigration Officer, shall be competent for the proper management and repair of such distilling apparatus.

And to prevent all doubts on the construction of this order in council, it is hereby further ordered, that the terms "Passenger Ship," "Emigration Officer," "Statute Adult," and "Master," shall therein have the same significations as are assigned to them respectively in the said "Passengers' Act, 1855."

And the Right Honorable Edward Cardwell, one of her Majesty's principal Secretaries of State, is to give the necessary directions herein accordingly.
