THE FIRST OF THE SEASON .- The schooner Minetta, a small craft owned in Gauanoque, arrived from that port on Monday evening, and therefore claims, to be the first vessel arrival of the season in Kingston harbor. The channel of the river being clear of ice, she did not find the least Empediment till she reached Point Frederick, where she quietly dropped anchor, awaiting a shove of ice to gain the docks. The Minetta is seeking a charter for Oswego, and will probably take in a cargo of lumber for that port.

STEAM NAVIGATION .- The pro peller North left port yesterday for Gananoque, to wood for a trip up the lakes. She is the first propellor out this season. The tug Hercules made a trial trip from Garden Island to the city yesterday afternoon, adding another to the arrivals at the docks

THE STRAMER PLEASEPOST. The ferry steamer Pierrepont was yesterday launched from the ways of the Marine Railway, where she received extensive repairs during the winter season, having been newly timbered and caulked, as well as otherwise generally overhauled and greatly strengthened. The Pierrepont will commence her trips from the and to avoid city to Garden and Wolfe Islands at once, and elieve the stamer Gazelle, which is not adapted or mever was intended for forcing a. passage through the ice.

ANOTHER LAUNCE, -- A new schooner eight thousand bushels carrying capacity. was launched in the Bay, inside the Grand Trunk Railway Bridge, on Monday afternoon. She is owned by Mr. James Richardson, and was built on the ways alongside the saw mill of the Messrs. Anglin. Her dimensions OF THE FINEST WORKMANSHIP are 90 feet in length, 23 feet in breadth and 8 feet depth of hold. Mr. Richardson, being extensively engaged in the grain trade between Kingston and ports on the Bay o Quinte and Oswego, has built this new vessel for his own convenience, and doubtless will keep her constantly plying on his own ac-
