TYPOGRAPHERS' UNIONS.

ORIGIN AND HISTORY OF THE INTERNATIONAL BODY.

Recent Work of the Union—D. M. Pascoe, the Youthful Secretary-Treasurer. An Office of Responsibility That Has Been Satisfactorily Filled.

PHILADELPHIA, Jan. 11.—The oldest national trades organization in America is the International Typographical union. There are 219 subordinate unions located in the important cities and towns of the United States and Canada.

At the last session of the International, held at Pittsburgh, Pa., last June, a member of the Philadelphia delegation, D. M. Pascoe, was announced as a candidate for the important office of secretary-treasurer.

D. M. PASCOE.

Mr. Pascoe was born in the city of Philadelphia about twenty-six years ago. He learned his trade in the composing room of Lippincott's Magazine.

The next session of the International Typographical union will be held at Buffalo in June. The present officers are: President, William Aimson, No. 343 Cedar street, Nashville; first vice-president, Joseph F. Rymar, New York; second vice-president, Charles Gamewell, P. O. box 101, Washington; secretary-treasurer, D. M. Pascoe, No. 728 Filbert street, Philadelphia; chief organizer, David P. Boyer, P. O. box 76, Columbus, O.; secretary-treasurer of insurance, H. Thomas Elder, Herald office, Boston; trustees Childs-Drexel fund, August Donath, Washington; James J. Dailey, Philadelphia; Frank S. Pelton, Chicago.

The union has done good work for the printers of this country and Canada, and new unions are being constantly organized.

THE ANDOVER TRIAL.

The Theological Professors Who are Accused of Heresy.

Few events in the theological world have received greater attention of late years than the trial of Professors Smyth, Tucker, Churchill, Harris and Hinks of the Andover (Mass.) Theological seminary, the chief doctrinal school of the Congregationalists.

The charges upon which they have just been tried were proffered Oct. 25, 1886, the complaints being Dr. Henry M. Dexter, of the Congregationalist, Dr. J. W. Wellman, of Malden; Professor J. J. Blaisdell, of Beloit college, and the Rev. O. T. Lamphear, of Beverly, Mass.

From all accounts it appears that Professor Egbert C. Smyth, professor of ecclesiastical history, is the leader in the teaching of the doctrines which are considered objectionable.

The most objectionable of the doctrines not approved is that there may be probation after death. The holding of this doctrine would not be thought sufficient to call for trial for heresy if held by any one but a teacher of theology.

It is claimed that in teaching if the professors have proven recreant to the trust reposed in them. According to this theory the seminary is not an institution for the investigation of theology, but for the conservation of the faith as held by those who founded the school, as set forth in the creed.

No decision has yet been reached as to whether it is expedient that it will be some time before judgment will be rendered, as the documents to be examined by the board of visitors, before whom the trial was held, are very voluminous.

PROFESSOR PARE.

WAYS OF DAKOTANS.

No Credentials Required—Scandinavian Women Plowing.

NEW YORK, Jan. 11.—Shortly after reaching Dakota I wished to make myself known to a person to whom I had letters. I prefaced my talk with him by stating that I brought credentials.

"Credentials be —. We want no credentials out here in Dakota. Say, I guess you must be a tenderfoot, ain't you?"

I pleaded guilty to the soft impeachment.

"Now, looky here, mister, take my advice. If you want to succeed in Dakota you must be a Democrat, a Protestant, a Catholic, Jew, Infidel or Atheist, according to the company you are in. You mustn't ask a man for his credentials, and you mustn't speak of any in your own possession, unless you want to wake suspicions. That's on the square."

I walked to the door and looked out musingly. Grass, grass, grass, far as I could see, and the loveliest twilight closing in that mortal eye has ever beheld.

The harsh, guttural accent of a strange language smote upon my ears.

"What sort of a tongue is that, anyhow?"

I said, turning to the editor.

He laughed heartily.

"Norste," he answered.

"What's that?"

"Scandinavian. Every blessed soul in this city is a Scandinavian, barring my wife and me."

"Oh!" I said it as though I were hurt. I was, indeed, a stranger in a strange land.

"What in the world is that?" I cried one day, pointing at a wheat field, where a woman and a horse were dragging a plow—a man driving.

"Oh, that's a common sight out here. A Scandinavian looks upon his wife as a beast of burden." WILL HUBBARD KERNAN.

Judge Gresham's Impatience.

Writing of Judge Gresham, a western correspondent says:

In the circuit court room he may be seen nearly every day, sitting in a big chair and listening in a preoccupied sort of way to the rather uninteresting tales told by lawyers. He has a bright face, well colored with health, a shock of iron gray hair and a beard full and dark, but streaked more with silver threads than it was even a year ago.

Dr. J. Collis Browne's Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish to calm and assuage the weary aching of protracted disease, invigorating the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Menstrual, &c.

From Squires & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5, 1888. To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy that their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred in our personal observation during many years. In Cholera, Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist, prescriber and patient alike. We are, Sir, faithfully yours, Squires & Co., Members of the Pharmacy Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION—Vice Chancellor Sir Page Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "Times," July 13, 1884.

Sole Manufacturer, J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London E.C. 4. Sole Accompanist each bottle. CAUTION—Beware of Piracy and Imitation.
