MEDICINES.

PORUSEU

Cures Backache, Lung Troubles

Kidney Diseases,

Rheumatism. Etc.

A trial will convince the most skeptical that they are the best. They are medicated with capsi-cum and the active principle of petroleum, being far more powerful in their action .han other plasters. Do not be in acced to take others, but be sure and get the genuine "Petroline," which is always enclosed in an envelope with the signiture of the proprietors, The P. W. P. Co., and directions in four languages; also seal on front and back of each plaster. Sold by first-class druggists, at 25

QUESTIONS AND ANSWERS.

Curious Queries from Every Department Answered in this Column. A Question Answered.

Can you inform me to whom Tennyson refers in his first verse of In Memoriam?" "I held it truth, with him who sings To one clear harp in divers tones, That men may rise on stepping stones

Of their dead selves to higher things" -- Lancelot. The following reply to the above has been

received: "Tennyson in that verse in 'In Memoriam' you have quoted probatly referred to Longfellow's 'Ladder of St. Augustine,' which begins with the verse,

St. Augustine, well hast thou said That of our views we can frame A ladder if we will but tread

Beneath our feet each deed of shame. He does not refer to this verse alone, but to the entire poem, which sings the sentiment of St. Augustine in 'divers tones.' Perhaps the last verse is nearer to Tennyson's paraphrase:

> We deem the irrevocable past As wholly wasted, wholly vain, If rising on its wrecks at last To something nobler we attain.

> > C. F. C.

Taller in the Morning. I have often heard that a person is shorter in the evening than in the morning. Can you

tell me if there is any truth in it? It is supposed that a man is taller in the morning than in the evening by a quarter of an inch, which comes from a relaxing of the cartilages during rest.

A Familiar Quotation.

Would like to know the origin of the very familiar quotation of "Silence gives consent."

It is from Thomas Fuller's "Wise Sentences.

Settlement of New York. Can you inform me whether the city of New

York was first settled by the Dutch or by the

English, and when! J. L. In September, 1609, Henry Hudson, an Englishman employed by Dutch traders, sailed into New York harbor in the yacht Half Moon and proceeded 150 miles up the river which bears his name. Being delighted with the country, he sailed back to Europe and reported his discovery at Amsterdam, in Holland. A Dutch fleet, accompanied by the Half Moon, came over and landed on the southern front of Manhattan island, at present known as Bowling Green. There they built four log huts and a stone house. Thus, in 1612, began what has grown to be the city of New York.

The Sun's Motion.

A neighbor, in speaking of the motions of the heavenly boules, recently assured the that the sun is not fixed in the heavens, but moves. I denied this. Will you be good enough to settle the matter between us: ASTRA.

The motion of the sun as seen by us from the rising to the setting is apparent, being caused, as every one knows, by the rotation of the earth on its axis. It has a motion about the center of gravity of the whole solar system which is always within the sun's volume. Lastly, the sun, with all its attendant planets and its satellites, is moving in space toward the constellation Hercules. This motion was discovered by the stars directly before the line of motion, apparently separating, and those behind coming together as objects before and after a moving railway train.

Origin of the Indian.

Will you please state what is generally supposed to be the origin of the American Indians?

There are a number of theories with reference to the origin of the red men. It is supposed by some that they are aborigines. Others think they are descendants of Asiatio tribes who crossed Behring's strait. Others that they are descended from the l'hornician and Carthagenian colonies. Many biblical scholars have considered them the descendants of the lost tribes of Israel; while some hold that they are of Egyptian origin. There has thus far never been conclusive proof of any of these theories, but recent archæeological excavations seem to indicate that, another race occupied the land before the In-

Parthenon and Panthcon.

There are two words, Parthenon and Pan theon, which I always get confused. Will you please state what each is'

The Parthenon (from the Greek parthenes, a virgin) was a Grecian temple sacred to Minerva, built on the Acrepour at Athens. Its ruins still exist, a part having been utilized for modern purposes. The l'antheon (from the Greek words pan, all; and Theos, a god.) is at Rome. It was originally dedicated to all the gods. It is new a Caristian church, dedicated to the Virgin Mary and all the martyrs.

Chautauqua.

Please state in your Answers to Correspondents the meaning of the name Chautau; .. a.

11. H. C. We have no means of knowing the meaning of the word certainly, consequently we suggest one. It may come from a combination of the French word "Chateau" and the Latin word "Aqua," together meaning a muntry house by the water. If this derivation is not satisfactory we should be pleased to receive suggestions.

The World's Bibles.

Will you kindly give the names of the principal sacred books or bibles of the world? The Koran of the Mohammedans; the Tri Petikes of the Buddhists; the Five Kings of the Chinese; the Three Vedas of the Hindoos; the Eddos of the Scandinavians; the Zend Avista of the Persians, and the Scriptures of

the Christians. Patent Leather.

Will you please inform me through the columns of your paper what kind of keather 'patent Co , Toronto, Ont. leather" is, and why so named? Patent leather is ordinary heather with a "patent" coating put upon it which gives it a glossy, smooth surface and does away with the necessity of blacking.

Limit to Patience. Can you inform me of the origin of the saying:

"Patience ceases to be a virtue." "Observations on a Late Publication on the Present State of the Nation."

An Ingenious Device.

A pharmacist of Lancaster, l'a., has just had patented an ingenious device in the way of an attachment to drug bottles containing poison. Druggists who have seen any in filling prescriptions by the use of the little invention mistakes are impossible.
