Your Children

Are constantly exposed to danger from Colds, Whooping Cough, Croup, and diseases peculiar to the throat and lungs. For such ailments: Aver's Cherry Pectoral, promply administered. affords speedy relief and cure.

As a remedy for Whooping Cough, with which many of our children were afflicted, we used, during the past winter, with much satisfaction, Ayer's Cherry Pectoral. For this affection we consider this preparation the most afficacious of all the medicines which have come to our knowledge, Mary Parkhurst, Preceptress, Home for Little Wanderers, Doncaster,

My children have been peculiarly subject to at tacks of Croup, and I failed to find any effective remedy until I commenced administering Ayer's Cherry Pectoral. This preparation relieves the difficulty of breathing and invariably cures the complaint. David G. Starks, Chatham, Columbia Co., N. Y.

I have used Ayer's Cherry Pectoral in my family for many years, and have found it especially valuable in Whooping Cough. This medicine allays all irritation, prevents inflammation from extending to the lungs, and quickly subdues any tendency to Lung Complaint. - J. B. Wellington, Plainville, Mich.

I find no medicine so effective, for Croup and Whooping Cough, as Ayer's Cherry Pectoral, I was the means of saving the life of my little boy, only six months old, carrying him safely through the worst case of Whooping Cough I ever saw. Jane Malone, Piney Flats, Tenn.

> Australia is a sustant source of surprise to people who live in the northern hemisphere. It is difficult for us to realize a constry in which the blasts of winter come in July and the sweltering hot weather is due about Christmas. The farmers of that country have two en-mes to contend with about which we literally know nothing. One is the kangaroo and the other the rabbit. The former is practically a gigantic rat, almost as large as a human being and fearfully destructive to plant life. Then rabbits have nantiplied so enormously as to render million upon millions of acres of land, formerly cultivated, uninhabitable. Not many years since Australia raised immense quantities of wool, but the rabbit pest has destroyed vegetation to such an extent that sheep can no longer live over vast tracts of country, and the wool product of Australia has fallen off so greatly as to raise the price of that fiber all over the world. The government has expended \$150,000 in Victoria alone on the extirpution of the raidit, which is done by means of poison. It offers to purchase surject and cars, giving the some and see, and in less than two years, in one beality, 1.84.000 skins were paid for. No could Australia's will in time overcome the animal plague, but it seems increshide that so marguificant a creat are should threaten the industrial prosperity of what is substitutially one of the large sections of the globe. The Match Between Evan Lewis and Jo-Acton-Some Horse Talk.

[Special Correspondence.] NEW YORK, Feb. 9. The great catch-as-catch-can wrestlin match between Evan Lewis, the "Strangler, and Joe Acton, the "Little Demon," has been decided at last, and, as I have several time predicted, Acton had not the slightest difficulty in winning. He captured the first, third and fourth bouts, Lewis winning only the second. There was, however, much dissatisthe decisions of the referce, Jack Burke, in the first and fourth beats. In both of these Lewis caught the "Little Demon" "on the fly" and threw him quite heavily. By the ral's of catch-as-catch-can, it requires two shoulders and a hip, or two hips and a shoulder to constitute a fall, but this match was wrestled with the distinct understanding that two shoulders should be sufficient, and it was claimed that Acton's shoulders touched twice, but the fact was entirely ig mored by the referee. It claimed that the whole affair was a bipposisome from beginning to end. From what

Now that the winter is almost over co. siderable interest is being manifested in the e American turi. The admirers of Bessie Jane, who have all along seen in Tremont and Connemara two insurmountable barriers for their favorite, whom they would like to term "The Queen of Three Year Olds," thought that both of those obstacles had been removed when they heard that Tremont was wintering hadly and had, in fact, gone Jame, while Connemara was suffering from a Severe three t trouble, which has laid low namy a noble animal. But it now transpires that the run r concerning Tremont was a canard, pure a d simple, while the one referring to Connemara was very much exaggerated, and he is now almost well again. Tremont will surprise even his most enthusiastic admirers the coming season. Stick a pin in this prediction. It is worth remembering. Volante I do not regard as being worth following, as with the great weight he will have to carry (127 pounds) he cannot be expected to win against the

Astonishing Success,

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

Glenburnie School,

KINGSTON, Feb. 8.—(To the Editor) Allow me to correct statements made in public assigning why the young lady who taught Glenburnie school last year did not get a permit to teach the same school for 1887. I state emphatically that I never requested the inspector to withold a permit from this lady or from any other person, and never even spoke to him about the school. I declare also positively that I never attempted to influence any person to do or say anything that would injure her in any way, and that I did not treat her or any other person unfairly, but merely applied for the school as did several others. - J. W. EDWARDS.
