A Very Placid Indifference to Si: John Macdonald's Fate.

New York Herald. PITTSBURG, Pa., Feb. 17. The assertion of the Toronto Standard, that the manufacturers of this city had clubbed together and sent the trifle of \$150,000 to Canada as a corruption fund, to secure the defeat of Sir John Macdonald, was duly received from the Herald to-day. Your correspondent immediately set to work interviewing such of the chief representatives of the iron and steel industries of Pittsburg as could be reached. It was manifest that the first effect of this remarkable charge upon those supposed to be implicated in this conspiracy against Sir John Macdonald's political aspirations was one of downright amusement, coloured by lively astonishment. The play of the features of any one of them would have made a first rate illustration to the French adage, "C'est toujours l'inattendu qui acrice." Some laughed outright.

RIDICULOUS ON ITS FACE.

Said Mr. Holmes, of the firm of A. Garrison & Co.: "The thing is ridiculous on its face. What in the world have we to do with Canadian politics or the fight of Canadian parties? I do not believe there is, in the two cities of Pittsburg and Alleghany, a single manufacturer of iron or steel who knows anything about Sir John Macdonald's views, or who cares one rush for them. Nor can I see how his failure or success could have the slightest interest to us or have any bearing upon such business as we do with Canada. I presume it is pretended in the Canadian newspapers referred to that his defeat might in some way influence the Canadian tariff to the invery of the iron and . If it would we steel business of th know nothing about ... For instance our iron firm received an order from Canada yesterday. With that order they send a custom house manifest, which we will fill up, describing the goods shipped. They pay the duties. We don't concern ourselves any more about it, and don't even know what their duties are. That is about my view of this assertion. It is pure nonsense.

NOT THE SHADOW OF A SHADE. Mr. A. M. Byers, of the firm of A. M. Byers & Co. and president of the Iron City Bank, on reading the Herald message of in quiry said :- "Well, that it tolerably good. There is not the shadow of a shade of a foundation for such a statement, which merely shows that they must be badily off for excitement of some kind across the border. I think it perfectly safe to say that the connections between Sir John Macdonald's political fortunes and the iron and steel interests of Pittsburg is a subject that has never entered into the mind of a single manufacturer to suspect much less to inquire into but. But the idea of a subscription of \$150,000 being made here to defeat him is simply the wildest kind of nonsense. There is not enough knowledge of the man or interest in him here to induce any one to send \$5 either to help or to defeat him. The chief forms of iron sent from Pittsburg to Canada are for structural purposes and to know even whether England is favored as against us in the Canada tariff.

IT MADE HIM LAUGH Mr. Graff, of Graff, Bennett & Co., laugh ed heartily when shown the Herald's des patch. "A hundred and fifty thousand dollars " exclaimed the white haired old gen tleman. "Why, there isn't a manufacturer in Pittsburg who would give, for the whole dominion put together, the price of one man's dinner either to elect or defeat Sir John Macdonald They would not give five cents. We don't know anything about the man, and, if possible, we care less. Those who wrote that wild goose story don't know much about Pittsburg, otherwise they would have known that if there is a set of men that button up their pockets quite tight when it is a question of politics, tariff or no tariff, that set of men is the iron and steel men of this city. We don't meddle in such things. The whole thing is a wild piece of absurd invention or inventive absurdity. whichever you like, and you can quote me emphatically in the Herald as saying so.

It would be a loss of time and space to report the views of other representatives of the great industries of this city which were sought by your correspondent on this subject. The majority of them would not discuss the matter seriously at all. They treat ed it as a mere piece of absurdity, the fig ment of somebody's brain who had very lit tle of that commodity to call upon. They laughed the matter out of court, so to speak.

OTTAWA, Feb. 17.—Mr. Disson, manu facturer, Pittsburg city, charged with send ing large amounts of money into Canada to assist in securing the election of the liberal party, is taking proceedings against several Canadian journals who gave publicity to the statement under the international law applying to such cases. Mr. Disston declares that the statement is false.

### WAR GOES BRAVELY ON.

FEELING OF THE PEOPLE FAVOURS THE LIBERAL PARTY.

The Corruption in the Maritime Province Some of the Boodlers in the Toils Excitement at the Nominations-Mr.

Tait Makes Mr. McMaster Mad.

QUEBEC, Feb. 16. The friends of the our position are jubilant over the demonstration in favor of Laurier and Mercier in Quebec East, and the result throughout the province on nomination day, which they regard as the presage of a more sweeping victory on the 22nd. They claim the whole of the eight elections by acclamation in this province theirs, as all the members returned gave pledges to support Blake before they were allowed to go in unopposed; since then Dupont has proven a traitor. It seems that there were three nominations for Beauce, Poirier, government; Godbont, opposition; and Dulac, independent, and four for Charlevoix, Clement, government: Tremblay, independent: Hamel, liberal, and Cimon, national conservative.

The fight is going on bravely and vigorously throughout the Quebec district. Quebec East and Centre, Levis, Portneuf, Dor chester, Montmorency. Bellechasse, Mont magny, Lotbiniere, Drummond and Arthabaska, Kamouraska and Rimouski are sure for the opposition. Sir A. P. Caron may escape defeat in Quebec county, but if so it will be by a terribly reduced majority. In Quebec West McGreevy is getting the most serious opposition he ever received, and all the probabilities are that he will be badly beaten. The opposition are also pretty certain to retain L'Islet and Megantic and to win Beauce and Charlevoix and perhaps Bonaventure, where Riopel is getting a bad shaking up.

Unblushing Bribery in York, N. B.

FREDERICTON, N. B., Feb. 16. - Imme diately after the nomination the secretary of the liberal association laid information against Thomas Temple, ex M.P., tory candidate for the county; Frederick S. Hilyard, J. Douglas Hazen and John Woodward, charging the three former with personal bribery and the latter as received a bribe. The preliminary examination of the charge against Mr. Temple is now in progress, and sufficient evidence has already been adduced to clearly indicate that all the parties charged are guilty.

Temple. John Woodward swore that he was formerly a liberal; that he was visited by Temple, who asked him how much he would take and work for him; that his an swer was one hundred dollars; that Tem ple agreed to give him eighty; that after ward, he was visited by F. S. Hillyard, Temple's son-in-law, and J. D. Hazen, Temple's campaign man; that both parties talked to him on the subject; that F. S. Hilyard brought him \$75 in an envelope for the pur pose agreed upon. F. S. Hilyard swore that he paid Woodward the money; that it was for election purposes. Temple made a statement that he authorized no one to spend money for him. When Hazen, for whom a writ was out, arrived in Frederic ton, he was spirited away by friends, and

has not been found since. The workingmen's meeting was attended by three fourths liberals, and when John Bowen asked to be heard as a workingman's representative he was cheered and carried to the platform. Then there was a wild free fight. Benches flew through the air, men clutched at each other's throats, and throttled them, eyes were blackened, heads broken, and finally when the contestants tired, Speaker Bowen went on and spoke in turn with the tory speakers. The meeting was a magnificent liberal triumph. A tele gram to night from Temple to the Sun an nounces his retirement from the contest.

The Situation in Nova Scotia.

HALIFAN, Feb. 16. The Nova Scotia conservatives are in a fearful state of depostion. The fact that in no province east of Lake Superior have they secured a single seat by acclamation, while the opposition has elected such a large number, has given them a fit of blues. They place no hope whatever in the maritime provinces and despairingly awaited more encouraging signs in Quebec and Ontario, but their anticipations have been ruthlessly dashed to the ground and they now only await in pitiable suspense the result of the contest. The liberals are clated over their prospects, and the only question remaining with them is as to the extent of Blake's majority. The liberals looked upon the prospect of Tup per's defeat as very promising.

The North-West Scats. Winnings, Feb. 16. Politicians are busy throughout the country, large meetings are being held nightly. Reports from all parts of the country say the battle is waging warm, and it is hard to forecast how it may turn on the night of the 22nd. In the city chances about even between Scarth and Sutherland. Royal will probably be reelected for Provencher, Daly in Selkirk, Watson in Marquette, Ross in Western Assiniboia, Perley in Eastern Assiniboia, Laird in Saskatchewan, and Lafferty or Davis in Alberta. There will be a fair divide between the two parties.

Echoes of the Camaipga. Mr. Fleming, candidate for Peel in the Reform interests, is very ill.

On dit that the ladies of the city will pre sent an address to Hon. O. Mowat. "A blizzard of bluster and blackguardism.

This is what one party says the campaign of the other party in Nova Scotia is, A. F. Wood, who represented Hamilton from 1874 to 1878, and a wholesale hardware

merchant, wants Hon. E. Blake for pre-Sands paid the Rykert-gang \$2,000 a square mile for his limits. At this rate, the Dominion government have given away to boodle supporters timber enough to pay off

our national debt. Sir John Macdonald never yet won an election except by having two-thirds of Quebec in his favor. Quebec is against him now, and his government is doomed.

Mr. Tait, in Glengarry, charged Mr. Mc Master with voting against Outario's interests in the legislature. Mr. McMaster said it was "false as hell," and when Mr. Tait produced the evidence of his treachery Mr. McMaster refused to look at it and knocked the book on the floor.

The toboggan slide was in fine candition last evening.

A CASE OF "ON, STANLEY, ON!"

The Man Whom the Great Explorer has Gone to Africa to Rescue.

#### EMIN PASHA.

The "true inwardness" of Henry M. Stanley's abrupt departure from America is understood in the light of later information. He is now on his way to rescue Emin Pasha or Emin Bey, from impending dangers, probably to encounter active hostility from King Mwanga, at whose hands the whites are apt to fare very badly.

Emin Pasha is a native of Austrian Silesia, a surgeon by profession. When in the Turkish army he was ordered from Cairo to join the late Gordon Pasha, who was in 1878 governor general of Upper Egypt. Gordon placed him at the head of the administration of the Central Soudan, where he dealt heavy blows at the slave trade, economized the public money, and won entirely the confidence of the native population. When, in 1882, Gordon had thrown up his command in disgust. Emin Pasha received instructions to defend himself as best he could in the country which had been placed under his administration. He The evidence is most conclusive against | has maintained a steady fight against his enemies ever since. The latest news of him was that he was hemmed in by hostile tribes at Wadelai, a station situated in the upper part of Bahr et tiebel, near Lake Albert

The above portrait of Emin Pasha is from a photograph in the possession of the French geographical society.

### The Cloture Adopted.

LONDON, Feb. 18. In the house of commons last night Mr. Smith moved that the discussion of the rules of procedure have precedence over all orders of the day. There was strong objection from the nationalists: they claimed to have been unfairly treated. The motion was sustained by 289 to 74, and the address was adopted by a vote of 283 to 70, amid conservative cheers. Sir William Vernon Harcourt and Messrs. Childer, Morley and Bright left the house to avoid supporting the speaker in enforcing the cloture. Many Gladstonians shared in the general opinion that the debate on the address had been continued too long. In the divisions Chamberlain and Lord Hartington voted with the government.

# Riotous Paupers.

DUBLIN, Feb. 17. The paupers at the New Ross workhouse yesterday broke into the council chamber of the poor guardians while that body was in session, and pelted them with various missiles. The master of the workhouse received a severe beating from his assailants. The police were powerless to prevent the outrage. The paupers are still mutinous and are holding the workhouse against the authorities.

# Talking Threateningly.

Lospos, Feb. 18. At a mass meeting of striking Lanark miners yesterday it was resolved to continue the strike till the advance asked for was conceded. The secretary of the meeting, one Small, in a most violent speech, condemned the action of the police and said dynamite was abroad, and that be fore long the Scottish miners would raise such a revolution as has never been seen in Scotland. Michael Davitt has arranged to come to Scotland and con le t meetings in the strikers' behalf.

# Gladstone Points Out a Fact.

LONDON, Feb. 18. - Gladstone has written a letter in which he says he believes that many members of the house of commons are ignorant of the fact that, down to the time of the union with England, the Irish protes tants were the the most prominent support ers of an Irish nationality. The letter adds "They now have an opportunity of support ing a nationality within safe bounds and giving peace to Ireland and comfort to the whole kingdom.
