The Advantages of Morse's Carbolated Cod Liver Oil.

It is believed that the not unfrequent and dis-couraging failures of plain Cod Liver Oil and other tonic and alterative treatment to cure consumption, grow out of the fact they have no. positive power to arrest the decay of the lungs; that while Cod Liver Oil supplies the waste of adipose tissue and vitality that the disease has made, as no other known substance can, it does not exercise any controlling power over the discase itself; it only gives Nature a fair chance to work her own cure. Something more is wanted-SOMETHING TO ARREST THE DECAY THAT DESTROYS LIFE - some prompt remedial agent that shall act directly upon the discase to check it while the Cod Liver Oil is building up the system. This important addition we have in Morse's Carbolated Cod Liver Oil. The power of Carbolic Acid-to arrest decay-something marvelous. The destruction of

matter cannot proceed where it is administered, Its disinfectant, purifying and cleansing properties are truly remarkable, and have been of the greatest practical value to medical mon. It is palatable, and now put up in bottles bolding a full pint. Price, \$1. Formula on every label.

## UNTRUE TO KINGSTON

SIR JOHN'S SPEECH BEFORE THE PEOPLE OF CARLTON.

HE TAKES CREDIT FOR HIS DESER-TION OF THIS CITY.

He Says Ottawa has the Parliament Buildings Owing to his Persistency in Having Them Put There-Not a Matter for Which Some Men Would Take Credit-The Government Has Not Done Anything for the Poor of This City-The Facts in Brief.

At a time when Kingston is asking a science school from the Mowat government and its premier, whom she once rejected in favour of Sir John A. Macdonald, it is in order to enquire what Sir John himself has ever done for the city to which he owes his political life and successful career. Kingston first returned John A. Macdonald to parliament in the year 1844 : for a period of 34 years, and on a dozen lifferent occasions she renewed the misplaced confidence he now again wishes her to bestow. During over 20 years of that period, as the real head of the government, he had unlimited opportunities to advance Kingston's interests. Did he ever trouble himself to secure her even simply justice? Has he not rather, time and again, sacrificed her interests—as he has ever remorselessly sacrificed the friends to whom he owed the most -to his own personal interests and selfish ambition? Take as a signal instance, but one of many, his treasor in securing the seat of government for Ottawa instead of Kingston - the first, the best, the most natural position, and which, if only he had so willed it, had been to-day the national capital. Read these words, fresh from his own lips at Manotick, on Thursday last,' as reported by his own of ceremonies of personal organ, the Ottawa Citizen, not yet Buffalo Bill's"

repudiated: As a candidate for the suffrages of the county of Carleton he had good claims He claimed their support as being IN-STRUMENTAL IN HAVING OTTAWA ESTABLISHED AS THE SEAT OF GO-VERNMENT, thereby ensuring its development from a lumbering village to a large and prosperous metropolis of the great dominion. (Cheers and applause.) He then referred to the great advantages which the farmers of the surround ing district derived in having so valuable a home market for the produce of their farms. He also claimed their suffrages on the ground of having LOCATED THE DO-MINION EXPERIMENTAL FARM IN THE COUNTY OF CARLETON, and described the great advantages which such an institution would confer upon the agricultural industries of the dominion, and particularly those of the county of Carle-

Or this, from the report of the same speech in the Toronto Mail, the subsidized organ whose inconvenient utterances he now pretends to repudiate, but whose "independent" support he says he is still glad to re-

He (Sir John) was seeking re-election in Carleton, and thought he had some claims on the constituency. He recited the events which led to THE SELECTION OF OTTAWA AS THE DOMINION CA-PITAL OF THE DOMINION and said. when defeated in the house because he had held that the Queen's choice should be accepted, he had refused to continue the government or accept a vote of confidence under any other circumstances. BY SOME SECOND SIGHT a quality which it was said Scotchmen possessed (laughter) HE HAD IT IN HIS MIND THAT AT SOME FUTURE DAY HE WOULD REPRESENT CARLETON IN PARLIAMENT Renewed laughter OT-TAWA WAS FINALLY AGREED UPON. THROUGH HIS PERSISTENT ADVOCA-CY, and to-day, instead of being a mere backwoods lumbering village every inhabitant of Carleton and of the Ottawa Valley generally owed the prosperity of that section of the country to the fidelity with which the CONSERVATIVE PARTY. LED BY HIMSELF, FORCED THE UN-WILLING LEGISLATORS OF CANADA to stand by the honor of the country and by the selection of the Queen Applause A great experimental farm had been located in Carleton, so that bethought, even if he were not a member for the county. HE HAD A PRETTY GOOD CLAIM UPON

THEIR SUFFRAGE." Every schoolboy knows that under our constitution the Queen has no more to say than the man in the moon, but is guided en tirely by the governor, acting under his responsible advisers, of whom Sir John was chief. It is not the only time that the "right honourable and gallant knight has taken shelter behind the throne and sought to cast the odium of his own doings upon the sovereign he had sworn to honour and defend. No quibbling ingenuity can efface the damning fact that Kingston has to thank the man she trusted for this base and heart less betraval of her trust. What has he done for her since ' Can be even claim that his policy has developed her local industries. from the cotton mill to the smelting works. with its tall but smokeless chimney 'Years before Sir John turned hiscelebrated somer. sault from free trade to protection, landing him on his feet in office, Canada had her cotton and woollen factories paying both their owners and their bands better than ours have ever done in Kingston. Such as they are would either they or the locomotive works be running to-day but for reformers' capital and energy ! Who holds the bulk of their stock? Who is the larkest individual shareholder. Is it not Alexander Gunn? Has Sir John invested in Kingston » enterprises any of the thousands he wrung, under the pleasant make-believe of "testi monials," from the civil servants, the contractors, and the companies? Too knowing a bird for that was our guileless old man. Salted away in Liverpool docks, and other safe and lucrative foreign bonds and securities, are his substantial tokens of the bood lers' gratitude for "favours to come." Not a dollar of his capital is invested in King

Poverty And Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness it becomes scant and watery, a condition termed anemia in medical writtings. Given this condition, and scrofulous swellings and sores, general and nervous debility, loss of flesh and appetite, weak lungs, throat disease, spitting of blood, and consumption, are among the common results. If you are a sufferer from thin, poor blood, employ Dr. Pierce's "Golden Medical Discovery," which enriches the blood and cures these grave affections. Is more nutritive than cod-liver oil, and is harmless in any condition of the system, yet powerful to cure. By druggists.

OLD FOR WHITTAKER,

The "Master of Ceremonies" Par Elx-

Old "Pop" Whittaker is dead. "Pep's" career was one of the most checkered of which I have ever leard or read. Although a habitue of sporting resorts, and not infrequently the master of ceremonies at glove fights and sparring exhibitions, he was not addited to vicious habits.

Francis Warren Whittaker was born in this city nearly seventy years ago, At an early age he joined the Chatham Street circus, From that time his life was one long drawn out series of ups and downs mostly downs-to which any ordinary

man would have succumbed at the outset. At the time of his death "Pop" was master?

"Pop's" second marriage was quite a little romance. While his first wife was still living they saw a little baby girl to whom the childless couple afterward took a great fancy. They adopted her, brought her up well and gave her schooling. When, after the lapse of years, Mrs. Whittaker died, "Pop" proposed to and was accepted by the girl to whom he had been more than a father, and they were married. But no children ever came to bless their union.

Whittaker was an extremely proud man and was never known to ask anyone even for a loan. This trait was all the more praiseworthy, in view of the fact that he had many 1 bends carong them P. T. Barnum, to whom a more hint would have met with a prompt response. These friends, however, knowing of this trait were ever on the lookout for some sign of "hard luck," and when "Pop's" clothes would get to be very sooly, a new sure, accompanied with innumerable packages of grocerrs, etc., was sure to be left at his

"Pop" was the best as he was the most amusing master of ceremonies in the country, and every sporting man will recall his peculiar manner of eyeing the contestants preparatory to a boxing bout, and the sudden, almost spasmodic manner in which he would extend his one arm at the same time that he roans! Upon the subject of speed in races he says: "It seems from records of this year's performances that 3 min. 13 sec. is the fastest outdoor skating; indoor, 3 min. 26 sec. which goes to prove that no skater is likely ever to make even the time of an ordinary trotting horse, the wonderful stories of the Lincolnsbire men on the fens to the contrary notwithstanding.
