## A MAN OF THE TIMES.

AND THE BEST KNOWN EVANGE-LIST IN ALL AMERICA.

Converted at the Bedside of His Dying Father-The Work he Has Done in Later Years-How he Spends the Money Given Him by the People-His Orphanage.

REV. SAM JONES.

The leading revivalist of the day is of good stock. He was born in Cartersville, Bartow County, Georgia, in 1849. His father was a soldier in the war, and afterwards practiced law. Several of his uncles and his grandfather share, or did share, with him the preacher's vocation, with preference for the Methodist denomination.

Sam Jones, though not a learned, is far from being an unlettered man, and could be ative. more elegant in his diction if he cared more for the literary proprieties. He received a good academic education, and was a voracious reader during his boyhood and youth. Having attained the proper age he adopted the profession of the law and prospered in practice notwithstanding that, according to his account of what he was at that period of his life, he was a drunkard and a gambler. There is no evidence that he was even a "hard" character. He was generous, gay, jovial and a bit wild, and blundered into wickedness sometimes, but was never a hardened sinner, and his friends deprecate his being so understood when he calls his past to mind in the great congregation.

The revivalist married when young, and began a singularly harmonious domestic life with a daughter of Kentucky who is now living and the joyful mother of six chil-

It was in the year 1870 that Sam began to take a religious view of life, the occasion of the change being the impression wrought on his mind by the death of his father. Soon after this event he was "soundly converted," joined the church and began to be heard in meeting. His gifts illuminated his graces, and before long he was a popular preacher. The first ten years of his work in the pulpit was spent in different parts of Georgia. After that time, in 1881, he began revivalistic work outside of his native state. His reputation is now wide as the diffusion of ephemeral literature.

Introducing the Evangelist.

"Let loose your questions," was the response of Sam Jones to a Montreal Star reporter who interrogated the revivalist on his financial resources.

"To begin with." he said, "my orphanage is situated at Decatur, one of the suburbs of Atlanta, Ga. It was founded about 1866, but in 1880 was everwhelmed with debt and about to be abandoned. In that year I took charge, and since then have paid off the debt, erected new and commodious buildings costing about \$30,000, and got the institution solid on its feet. There is a farm in connection, on which the orphan boys are taught farming. The orphans are in charge of a superintendent, a matron and resident teacher. The aim of the management is to make it a true home for the orphans, and it is in fact patterned after the christian family.

"How long have you been in your present work "

given him great sorrow by my sinful life, and his dying appeals to me to lead a better life broke up my very nature, and I turned from the world to God and gave up my life to his service at my dead father's side."

"Have you had any theological training?" "None whatever. I have studied God and his ways, and man-God as he is revealed to dian river, Florida, has sent to England for us in the bible, man as he is in the world. leave theology to those who like to get their knowledge out of books. I go to the sources of books themselves. I am very fond of Shakespeare and the best novelists, as Dickens, Scott, Thackeray, and before my conversion these were my principal reading. Since then I have read with great profit Emerson, Joseph Parker, Dr. Holland and Dr. Philip Brooks. In history Hume, Ma-

caulay and Green are my favorites." "Do you hold the orthodox views on hell

and future punishment ?" "I suppose so! I believe in hell as the bible describes it, 'a burning lake of fire and brimstone, where the worm dieth not and the fire is not quenched.' I believe in the endless punishment of the wicked on the same ground that I believe in the eternal peace and happiness of the good. "Would you say a frank word or two regarding your mannerism, which has been

"I have been," said he, "through the Southern, Eastern and Middle states. The attendances have always been large. The people of the South are more emotional than those of the other states. They express their feelings in sobs and tears. In the Middle states the people express their feelings by slapping their hands. In the Eastern states by slapping their hands and crying, 'Hear, hear!' ### TEACHER'S LITERARY SOCIETY.

An Interesting Programme Presented Discussion of a Question.

Last evening the teachers, with a few invited friends, filled the school board rooms at the second regular meeting of the society. After a little routine business a special committee presented an elaborate constitution, which was adopted with very little change, and Mr. R. Balmer, B.A., was elected critic for the society.

The glee club made their first appearance with Mr. J. M. Sherlock as leader, and Miss Dunlop as pianist. Their rendering of "Lottie Lee" was received with much favor. It showed that Mr. Sherlock is supported by some excellent voices. Mr. A. F. Newlands read a yankee yarn with considerable expression.

The feature of the evening, however, was a debate: "Resolved that it is better to be born rich than poor." Mr. Joyner was assisted by Miss Lovick on the affirmative, and Mr. Bell by Miss Holmes on the negr. tive. The addresses were characterized by eloquence, earnestness, and cool, clear reasoning. The decision, given by the whole society by ballot, was in favor of the affirm-

While the ballots were being counted Miss Walker favored the society with an excellent piano solo. The president announced that at the next meeting Messrs. S. H. Clark and C. J. Cameron, B.A., assisted by Misses Hewton and Minnes, would discuss the question: "Resolved that it would be for the best interests of Canada to be annexed to the United States."

A meeting of the trustees of the Kingston Women's Medical College was held yesterday. It was resolved to again hold public closing exercises in about a fortnight's time, as the written examinations close this week and the orals will be held next week, concluding the session. Drs. and Putnam Jacobi, the eminen: lady doctors of New York, prominent advocates of woman's education and exemplars of her ability to achieve signal success, will be invited to be present and thus encourage Kingston's noble stand in this branch of education. It was reported that the funds continue in a most | ing the money from them than from you." satisfactory state; that the session has been quite satisfactory to the students; the hospital clinics of late ample and most acceptable; and the lectures generally fully up to the mark. The services of Miss Blaylock, as demonstrator of anatomy, were highly spoken of, and the honorarium voted. The three scholarships it was decided to offer as before. As the Women's Dispensary, on Princess street, had met its practical designs and promised still further usefulness, the order was passed for its continuance during the summer, thus making it not merely sessional but continuous. A question of lecture tickets, upon which the board felt strongly, was referred to the dean of the faculty, Dr. Lavell, for arrangement in preference to formal action.

THE JUDGE THINKS IT CANNOT BE CALLED H. T. SHIBLEY'S.

A Deposit in a Returning Officer's Hands Garnisheed-Proving the Ownership-The Queen's, N.B., Decision Reviewed, and if Correct Applicable to Addington

-The Judge's Statements.

The money deposited in the hands of J.B. | ing. Walkem, returning officer for the electoral district of Addington, on behalf of the liberal candidate, H. T. Shibley, was garnisheed by a citizen of Toronto and the case hear ! at the division court last evening before Judge Wilkison, of Napanee. Mr. G. M. street. Macdonnell, who appeared for the creditor, George Michael, said that the point to be decided was the ownership of the money deposited for Shibley by Mr. Britton and claimed by Michael in view of the fact that Shibley had sufficient votes to redeem the deposit. The onus of disproving that the money did not belong to Mr. Shibley rested with the claimant. Mr. Britton did not accept the condition, though he was prepared to prove his claim. This he proceeded to do. He said that the money deposited with Mr. Walkem was his money, that Shibley had not borrowed it, nor had it given to him, nor had he ever seen it. The money was the witness's to all intents and purposes. "I took," said Mr. Britton, "all risks in the case if Mr. Shibley did not poll a sufficient | wa. number of votes, and if he did get enough votes the money was mine, that if he did get it from Mr. Walkem he was to hand-it back to me." Mr. Britton was not Mr. Shibley's election agent. Mr. H. M. Mowat acted in that capacity. Mr. Macdonnell asked for the circumstances under which the deposit had been made, and Mr. Britton replied that he was anxious to have a contest in the riding, and as he knew Mr. Shibley of tub butter, 18c; any quantity of pic was not able to make the deposit he did so, peaches and table peaches at 15c can; thinking that there was not much risk in oranges and lemons, 20c doz. There was a distinct and unequivocal understanding that the money was Mr. Britton's. "You made the deposit in the usual way"

said Mr. Macdonnell.

"I don't know that I did," responded Mr. Britton, "it the decision in the Queen's, N.B., case is correct. According to it the | can won the race by about three laps. usual course was not pursued, as the agent | Z. Prevost, at the New York clothing did not deposit the money. Therefore Mr. Shibley was not a candidate." "Had you any writings?"

Mr. Britton said there was not the scratch of a pen until the Saturday before the declaration was made. Then the witness heard that the money had been garnisheed. Shibley was also told so, but he had not been served with any papers. Then the understanding between Mr. Shibley and Mr. Britton was reduced to writing.

"I have it," said the witness, and he started off to get it. "I don't want it put in." said Mr. Mac-

It was shown that the agents were not appointed at Harrowsmith until after the nomination documents were both candidates was improperly deposited.

Mr. Britton further held that Mr. Walkem was an officer of the election court, and money placed in his possession could not be attached; that it was never a debt of Mr. Walkem to Mr. Shibley. Then Mr. Macdonnell suggested that the holder of the money could not be sued by the claimant for its recovery, but it was held that he could, that in a noted local case Mr. Dalton, of Toronto, had been sued for the recovery of \$1,000 which had been left in his

THE JUDGE FAVORS BRITTON. Mr. Walkem testified to the receipt of the \$200 from Mr. Britton for Mr. Shibley. He (Walkem) gave a receipt for it, and this Mr. Britton promised to put in. The witness at the time thought Mr. Britton was the election agent, but he was afterwards corrected on that point. Mr. Britton showed that the money could not be attached, and the judge, evidentally getting impatient, said that the money was evidentally not Shibley's; that unless the law provided differently than in usual cases the money was Britton's and he should get it. He had put it up for a parti-

Mr. Macdonnell - "Mr. Britton relinquished his claim upon it when he placed it in the returning officer's hands for Mr. Shibley." Then the speaker ran over the misdemeanor clause to prove Mr. Britton's alleged illegal action. The clause was taken up, and the disingenuousness of Mr. Macdonnell shown. He was quoting penalties imposed for the payment of money for a candidates' election expenses. A deposit was not classed under this heading.
