WHAT SHALL WE WEAR?

FANS OF GAUZE, CRAPE AND SAT'N WITH DECOTATED STICKS:

New Scotch Tweed Costumes for Traveling Purposes - Imported Toilets for Visiting and Reception Which Show New Combinations.

The assortment of fans exhibited this season is as varied in styles as is the stock of new parasols. The group in the cut show three pleasing patterns.

The largest fan represented has gilded sticks and a cover which simulates three lily pods, made of creped silk gauze; one leaf is brown, one yellow and one red. The leaves are decorated with sprays in water colors. The fan lying underneath the one decorated has sticks of inlaid woodwork in two colors and a narrow cover of white satin with a printed lace design. The remaining fan is a palette shaped one, of brown silk crape, decorated in water colors.

Visiting and Reception Toilets.

The graceful reception dress represented in the cut is of mauve faille francaise, opening over golden lampas. Attention is called to the pointed corsage, which has the faille cut down at the top, and the lining covered on the shoulders and down in a point in front with lampas. Jockeys or caps of lampas are at the top of the faille sleeves, which end in a band with a bow of faille set on the inner side of the arm. Cream white gloves, mauve faille slippers and yellow silk stockings are worn with this costume. The hair is dressed high, with a high shell comb.

VISITING AND RECEPTION TOILETS. The imported visiting costume seen in the same cut shows how to combine plain French faille with that striped in checked pattern; this faille is in plain absinthe green shades, and the velvet with which it is trimmed, also the corded gros grain ribbon on the bonnet, is of bright ruby red. The plain faille front covers the foundation skirt easily, and is caught here and there with bows of green faille doubled and two inches wide. The half polonaise of the striped faille has the back in continuous pieces from top to bottom, while the front is double breasted, cut off blunt and square at the end, and has two rows of large silk covered buttons. A wide and full guimpe of the plain silk is gathered in the neck and shoulders, and disappears under ruby velvet revers, notched and pointed at top. Red velvet collar and cuffs. The bonnet is of plain silk in capote shape, with ruby bows in front. The parasol is green in color; the gloves are tan suede.

#### The New Jerseys.

There is an endless variety of jerseys this sea. son. Some of these have elaborately beaded yokes; others are decorated with hand embroidered sprays; still others are heavily decorated with braid in military fashion, and some are made full both back and front. They are shown in all the choice colorings, prominent among which are heliotrope, slate, black white and sky blue. Some of the newest jerseys show a complete

alteration in form. They are well shaped bodices, which adapt themselves to any figure, and are made of the glove fabric, not stockinette, the former being more silky and fine in weaving.

#### Note Paper and Menu Cards.

Note paper may be decorated with a small monogram, if liked, but the most usual stamp now for note paper is the number of the street printed in color at the top of the sheet.

Colored ribbons, upon which the names of the guests are painted or embroidered, are now much employed for menu cards, and men make use of these strips by placing them inside their hats to identify them in a crowd.

#### Fashions for Travelers.

English traveling ulsters are in some instances close fitting, with perfectly plain fronts. Others have loose fronts, and an ex-

tra driving cape is arranged to button on.

A new tweed, designed especially for traveling costumes, is of Scotch make. Silk is interwoven with the wool, a decrease of weight and increase of coloring being thereby attained.

#### Fashion Notes.

In men's walking gloves it is hard to decide which is stitching and which is glove.

It is no secret that dress skirts are so heavy now with their additional burden of hoop and crinoline that modistes have devised suspenders for women.

The new parasols are furnished with very long handles. Novelties in b'ack lace dresses are constantly

Many of the spring mantles are in scarf shape, the back being merely a round cape reaching to the waist line, and long, slender

mantilla front. Gray and white check materials are meet-

ing with favor for spring dresses. The combination of plaids, stripes and figured designs of all kinds with plain stuffs is

English dealers are displaying a novelty in hose which has an embroidered stripe down the center and an oblong piece of open work on either side, which arrangement reduces

French gray kid gloves, bound and stitched with black, are new and stylish.

DOES 'TRUCK FARMING" PAYT

What a New York Gardener Says About It-Rates of Rent.

Finding the farmer willing to talk, the re-Porter put the question: "Does truck farming

"For the amount of capital invested," was the reply, "it pays well, even better than most people suppose. We can raise vege-tables and salads at all seasons of the year and receive cash when we market our truck. To do tiptop a garden ought to contain frem five to eight acres, but a neighbor of mine cleared \$1,000 last year off of two acres, a third of which is covered with glass. By glass I mean hot beds. This is the best paying part of the work, as it is by the use of hot beds that we are enabled to work the year round. About 100 glass frames, 3x6 feet in size, can be placed on a city lot, with plenty of space to pass between the rows. There are sixteen city lots on an acre. The space under a single frame can be worked so as to pay a profit of \$3 clear of all expense of rent, labor and marketing. Figure this up and you will see how easily my neighbor could have made his \$4,000. It requires constant labor, especially in the winter, when we have to cover up our beds with mats of hay to protect the plants from frost. But three men would be help enough to care for an acre of glass properly. "Oh, yes," he continued, "there is some stuff

that we have considerable trouble in raising. For instance, we haven't been able to get good spinach in several years. This is owing to the fact that since the cows were driven out of the city we have had to depend on horse manure for fertilizing purposes, which we obtain in large quantities from the breweries. This is excellent on wet land and for forcing plants in hotbeds, but it is too coarse and dry for general field uso. Worked over for a couple of years into a compost it is nearly as good as cow manure. The latter we consider the best natural fertilizer we can use, and prefer it even to guano, which is largely adulterated. It is stronger, and retains its strength the longest, keeping the soil moist and cool. "Rent ? Rent is all the way from nothing

up to \$5 per city lot for a year. This makes \$80 an acre, about ten times what ordinary farms rent for. After the owner gives notice that he wants his land for building purposes we pay no rent; then he can take possession in thirty days. If we paid he would have to wait a year. That gardener across the way has paid no rent for two years.

Another gardener said he had worked his ten acre farm for twenty-eight years, but did not expect to stay on the place more than five years longer, there was so much building going on. He believed he would live to see the time when the gardeners would be driven entirely out of the city. - New York Sun.

#### GLEANINGS.

The Rev. Geo. H. Thayer, of Bourbon, Ind., says : 'Both myself and wife owe our lives to Shiloh's consumption cure." W. J. Wilson, agent, Kingston.

One hundred and forty thousand Austrian soldiers are under arms in Dalmatia, prepared for a campaign. Will you suffer with dyspepsia and liver

complaint? Shiloh's vitalizer is guaranteed to cure you. W. J. Wilson, wholesale and retail agent, Kingston. It is reported, at Bombay, that the rebels against the Ameer have captured Kelat-I-Ghilzai, and now have surrounded Ghuzni. The Russians are rapidly bridging the Amu-

#### Hamilton's Pills

Cure liver complaint, biliousness, &c. These troubles arise from torpidity or inaction of the liver, and should be promptly treated. An active dose should at first be taken, say three of Hamilton's Pills, followed the next night by one or two pills as the occasion may demand; after which take one pill once or twice a week which will gradually restore the action of the great blood filter and thereby allow it to perform those functions so essential to the health and comfort of the body. Sold by dealers in medicines.

#### In a Bad Condition.

"I was so bad with dyspepsia that I could not take food of any kind without distress, and could not take a drink of water for a month at a time. I have been a great sufferer from liver complaint and dyspepsia for many years," says Mrs. Nelson W. White head, of Nixon, Ont., whom two bottles of Burdock Blood Bitters cured.

#### A Matter of Fact.

One of the few preparations that seldom disappoint on trial, is that old standard throat and lung medicine, Hagyard's Pectoral Balsam, for coughs, colds, bronchitis, asthma, sore throat and other diseases of the air passages.

Since last October I have suffered from acute inflammation in my nose and head. For a week at a time I could not see. have used no end of remedies, also employ ed a doctor, who said it was impure blood, but I got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eyes are well. It is wonderful how quick it helped me.—Mrs. Georgie S. Judson, Hartford, Cond.

#### Froze His Feet.

While out skating last winter, G. Varcoe, Man., got his feet badly frozen. He rubbed them with snow, and then applied Hagyard's Yellow Oil, which speedily cured them, and saved him from being a cripple. Why will you cough when Shiloh's cure

will give immediate relief? Price, 10c., 50e and \$1. W. J. Wilson, agent, Kingston.

Alma Tadema, the artist, has a staircase in his new London residence made of brass. Being modest himself, he felt the need of a brazen stare.
