

MEDICAL.

Listen to Your Wife.

The Manchester Guardian, June 21st, 1883, says: At one of the "Windows" Looking on the woodland ways! With clumps of rhododendrons and great masses of May blossoms!!! "There was an interesting group. It included one who had been a "cotton spinner," but was now so Paralyzed!!! That he could only bear to lie in a reclining position. This refers to my case. I was first attacked twelve years ago with "Locomotor Ataxy" (A paralytic disease of nerve fibre rarely ever cured) and was for several years barely able to get about. And for the last five years not able to attend to my business, although Many things have been done for me. The last experiment being Nerve stretching Two years ago I was voted into the Home for Incurables! New Manchester, in May, 1882. I am no "advocate" "For anything in the shape of patent "Medicines" And made many objections to my dear wife's constant urging to try Hop Bitters, but finally to pacify her— Consented!!! I had not quite finished the first bottle when I felt a change come over me. This was Saturday, November 3rd. On Sunday morning I felt so strong I said to my room companions, "I was sure I could Walk!" So started across the floor and back. I hardly knew how to contain myself. I was all over the house. I am gaining strength each day and can walk quite safe without any Stick! Or support. I am now at my own house, and hope soon to be able to earn my own living again. I have been a member of the Manchester Royal Exchange For nearly thirty years, and was most heartily congratulated on going in the room on Thursday last. Very gratefully yours, John Blackburn. Manchester, (Eng.) Dec. 21, 1883. Two years later am perfectly well.

One Experience of Many.

Having experienced a great deal of "Trouble" from indigestion, so much so that I came near losing my Life! My trouble always came after eating any food— However light. And digestible. For two or three hours at a time I had to go through the most Excruciating pains. "And the only way I ever got "Relief" Was by throwing up all my stomach contained!!! No one can conceive the pains that I had to go through, until "At last" I was taken! "So that for three weeks I lay in bed and Could eat nothing!!!! My sufferings were so great that I called two doctors to give me something that would stop the pain. Their efforts were no good to me. At last I heard a good deal "About your Hop Bitters! And determined to try them." Got a bottle—in four hours I took the contents of One!!!! Next day I was out of bed, and have not seen a "Stick" Hour, from the same cause, since. I have recommended it to hundreds of others. You have no such "Advocate as I am." GEO. KENDALL, Allston, Boston, Mass.

Holloway's Pills.

The united testimony of thousands, extending over more than forty years, most strongly recommends these pills as the best purifiers, the mildest aperients, and the surest restoratives. They never prove delusive, or give merely temporary relief, but attack all ailments of the stomach, lungs, heart and bowels in the only safe and legitimate way, by depositing the blood, and so eradicating those impurities which are the source and constituent of almost every disease. Their medicinal efficacy is wonderful in renovating enfeebled constitutions. Their action embraces all that is desirable in a household medicine. They expel every noxious and effete matter, and thus the strength is nurtured and the energies stimulated.

From His Feet.

While out skating last winter, G. Varcoe, Man., got his feet badly frozen. He rubbed them with snow, and then applied Haggard's Yellow Oil, which speedily cured them, and saved him from being a cripple.

THE PRINTING PRESS.

The Benefits This Great Engine of Public Opinion has Conferred on Man.

How wisely events follow each other in proper order! Just at the time when the mind of Europe was walking from a thousand years' lethargy, and when means were required to spread abroad the results of the inquiries which the learned were making in all branches of science, Caxton gave to the world the printing press. By its instrumentality the discoveries and inventions of one land have become the property of the entire globe, and the advancement of science has become greatly promoted. No man of the present age has more fully comprehended this truth than Holloway. The same intellect that led him to the studies which resulted in the production of his celebrated Pills and Ointment saw at once the immense advantage, to the world as well as himself, which might be drawn from this source. He laid his discoveries before the world, sowing his seed broadcast, wherever a written language is read, and modestly awaited the result. His confident statement of his theory led men to try his remedies; their intrinsic excellence when once tried established them firmly in the confidence of the public of both hemispheres, and Thomas Holloway stands now, in the estimation of the people, as the most powerful opponent of all diseases. For disorders of the liver and stomach the Pills are claimed to be a swift and sure specific, and the claim is verified by an overwhelming mass of testimony. Now we all know how entirely the bodily health depends upon the condition of these two important organs. If the digestion is impaired, the bowels disordered, and the liver torpid or congested, the whole frame suffers; the strength declines, the spirits droop, the complexion becomes cadaverous, the flesh wasted, supineness and despair take the places of energy and hopefulness, the sick man becomes as dead to the great objects and pursuits of life as if he were entombed alive. Out of his self-sepulchre, as it were, this powerful remedy lifts him as if by magic; a few timely doses of the Pills bring back digestion, appetite, and physical energy. These statements are too plain, and too easily contradicted if untrue, to admit of the slightest doubt. On the contrary we know them to be nothing but the literal fact. They are not founded merely upon common report, but upon the testimony of parties occupying high positions in society—men of unblemished reputation and matured judgment—that likewise is confirmed by circumstances within our own immediate knowledge.—Leverack Telegram.

Raising Popples in Florida.

We take pleasure in welcoming to the river Dr. W. W. Winthrop, of St. Paul, Minn. This gentleman has traveled widely, and is a keen observer of what he met with in his travels. His primary object in coming to this state is to encourage the growth of the poppy and the manufacture of opium. His experience in this branch of production is of fifteen years' standing, and he has grown the poppy successfully in the East Indies, Persia, Germany, France and in the Levant, while on the American continent he has experimented in Massachusetts, New York, Illinois, Iowa, Minnesota, Dakota and Florida. The plant grows everywhere, but best of all in Florida, producing larger bulbs and capsules. The difficulty hitherto of producing opium in the United States successfully has been the high wages paid to labor.

Dr. Winthrop has invented a plan, however, by which opium can be produced here better and cheaper than in India, where the average wages are ten cents per day, and the cultivation is so perfect by this method that sixteen plants can be made to produce a pound of opium. The gentleman assures us that at the present price of the drug a net revenue of \$1,000 per acre is an exceedingly moderate estimate. Every orange grove can be laid out between the trees with this plant, and the demand for the same at good prices is illimitable. An English syndicate of capitalists is going into the cultivation of the poppy largely on the Indian river, and Dr. Winthrop is prospecting and perfecting the arrangements of the company. The poppy will grow and ripen every month in the year, and thus, doubtless, another large source of wealth will shortly be added to Indian river.—Titusville Fla.) Star.

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size 75 cts. Sold by all druggists and dealers in the United States and Canada.

Avoid the Small

Annoyances of life if you would be happy A very slight headache will make us miserable and give a sense of discomfort to all with whom we come in contact. Nature's intimations are seldom pleasant, but they should be valued as pointing out a cause and demanding a remedy. Never has a remedy given equal satisfaction in all diseases of the liver, stomach and bowels as have Hamilton's Pills of Mandraks and Butter-nut. They at once strike at the root of the trouble, give aid to the torpid inactive liver, restore tone to the digestive organs, and promote a supply of new healthy blood. Though disappointed hitherto do not fail to test the wonderful efficacy of Hamilton's Pills. Sold by all dealers in medicines.

Try and be Cured.

Lame back and nervous debility, associated with rheumatism, is sometimes met with in every day life, but as a rule we find not more than two of these complaints in the same party. Be this as it may. The only sure and perfect cure is electricity and the best form of administering it is by Norman's electric belts and insoles. W. J. Wilson is agent, and from him you can procure testimonials and circulars relating to any of your complaints.

In a Bad Condition.

"I was so bad with dyspepsia that I could not take food of any kind without distress, and could not take a drink of water for a month at a time. I have been a great sufferer from liver complaint and dyspepsia for many years," says Mrs. Nelson W. White head, of Nixon, Ont., whom two bottles of Burdock Blood Bitters cured.

A Matter of Fact.

One of the few preparations that seldom disappoint on trial, is that old standard throat and lung medicine, Haggard's Pectoral Balsam, for coughs, colds, bronchitis, asthma, sore throat and other diseases of the air passages.
