CHICAGO'S WHEAT DEAL.

THE VERY WORST BREAK EXPEFI-ENCED IN SOME YEARS.

A Number of Suspensions Forced -The Clique in Trouble-Dickering on the Market To-day-A Pot of Money Saves a Big House From Going Down.

CHICAGO, June 13.—The calm of yesterday was followed by a whirlwind of excitement to-day. Traders had just nicely steadied their nerves after the break of Saturday when the second cyclone came. The liberal taking of July wheat by the clique made that feature steady at or about 84c. per bushel. Outside traders talked themselves into the belief that the combination permitted the sharp decline for a purpose on Saturday, and that it was about to buy up July wheat as it had already done May and June. Many became "tail ers," the scalpers became active, and it looked as if the worst were past and the lowest point for July reached when the three cent drop of Saturday occurred.

For the first offerings of July wheat there were no takers. The uproar grew intense. July dropped from 83%c. to 82c., while men were thinking what to do. Everyone want ed to unload. In a little time July wheat was offered at 80%c. It was a short storm but terrible in its effects on the crowd. Traders crawled out of the pit, dripping with prespiration and weak from excitement. For an hour there was a slight rally. At Il a.m. the indicator for July showed that it was again selling down, and in fifteen minutes it was offered at 73c. Then came the third tumble, and July wheat sold down to 76 c. The entire board was little less than a pandemonium. Margins were freely called and heavy deposits demanded. The Chicago banks refused to advance any more on wheat, and the checks of some partied interested on the "long" side were re-

At 12:30 came the startling announcement that all persons having trades with Rosenfeld & Co, should close them at once. The uproar had not subsided when July wheat took the worst turn of the day and dropped to 74c. The crowd was ready for anything short of an earthquake. Throngs of people rushed in from the streets, and the gallery

was filled with men and women. The intermission at 1 o'clock gave the members a chance to catch their breath. At 2 o'clock it was officially announced that E. W. Bailey & Co., and Hamill & Baine, requested all parties having trades with them to close at once. July wheat dropped to 73 c., but went back to 74c. Five minutes later Secretary Stone read the following from Kershaw & Co. : "We have assurance that margins and ample funds will be forthcoming by to morrow morning, and we request that no trades be closed out." In a few minutes July wheat was selling at 75 c. The lowest figure touched by July wheat was 101c. under yesterday's close.

Although the chief excitement of the day was in July, yet June sold with the wildest fluctuations from 92c down to 90c, up to 91c and then jumps down to 73c, when a slight reaction occurred. June closed at 74%c. The deferred tutures declined less sharply, but during the morning dropped about 2 c for August and September.

An evening paper says: "The I6,000,000 bushels of grain collected here and held by a mysterious combination will now be sold out 'under the hammer.' The losses of Rosenfeld & Co. on the decline, are estimated at \$500,000."

NEW YORK, June 14.—The news of the failure of Moses Rosenfeld & Co., caused something of a stir in wheat circles. When the telegram was read on the produce exchange bears boredown the market. In a few minutes wheat was selling at a rapid decline. Morris Rosenfeld, the head of the firm, only entered the grain business two years ago. Previous to that time he inherited \$1,000, 000. He began speculating, and was so successful that he decided to start in business for himself. In his endeavour to control the wheat market he overreached his resources and collapsed. The option dealings reached nearly 31,000,000 bushels, the largest ever recorded.

MILWAUKEE, June 14.—The sudden drop in wheat caused intense excitement on the change. Three failures were announced, viz.: Frank Wilson, Joseph Wilde and Hill, Fleitsheim & Co., the latter being the Milwaukee branch of C. J. Kershaw & Co., of Chicago. Their failure depends on the ability of the Kershaw crowd to meet all their obligations.

CAICAGO, June 15.—Frank E. Johnson, member of the firm of Roxenfeld & Co., who went down in yesterday's panic, said : "A good portion of our liabilities is in the other clique houses, and that makes a difference. It makes the clique our debtors as well as creditors. We never had any difficulty prior to this week. The clique had always met their financial engagements, and we had look. ed into their condition and were sure they could,"

CHICAGO, June 15. - Three small firms suspended to-day, viz., J. W. Youst & Co., B. J. McCleary, S. C. Orr'and Pickering & Co. The suspension of these firms did not cause any excitement, as they were in no way identified with the clique. The indications now are that Kershaw & Co. will pull through, and that a dozen of big failures that were imminent will be averted. J. Wiltshire, of Cincinnati, the head and front of the wheat clique, with a number of other friends, is in town with a pot of money to back up Kershaw. It is said the Cincinnati crowd will insist, before putting up, that Kershaw's trade be reinstated. This Eggleston, Kershaw's partner, is able to do himself if he chooses. Kershaw said just before the opening of the board this morning : "I will pay my differences to-day and magins to the market. Wiltshire said Kershaw has the money and will go through to-day all right."

CHICAGO, June 15. (11 a.m.)-The announcement in regard to Kershaw & Co. seems to have been well grounded, and that firm is apparently meeting all claims. Rumor puts the amount of money at their command at \$1,000,000. The bears are steadily pounding the market however, and the prices since 10 o'clock have declined.

CHICAGO, June 15, (11:30 a.m.)-Four more failures have just been announced, viz., T. B. Balding & Co., Crosby & Co., Hibbard & Co., and A. B. Crafts, Balding & Co., claim to be even on the market, The suspension of Hibbard & Co. and Cros by & Co., caused some surprise as both came unexpectedly. Hibbard & Co. claim is to be solvent. Charles Henrotin & Co., stock brokers, and members of the New York and Chicago stock exchange, have failed. The firm was caught in the wheat squeeze and pushed to the wall. Henrotin was until recently president of the Chicago stock exchange. His fallure was a great surprise.

CHICAGO, June 15, (2:15 p.m.)—The suspension of S. M. Robinson & Co., Crafts & Co., has been announced. It is as yet en-tirely impossible to give any adequate idea of the amount involved in the failures of this morning. B. J. Cleary's downfall is thought to be the heaviest, and will reach more than any other firm. Cleary, it is said, was in the deal quite heavily. The failures on change have not so far affected the banks. One or two banks may have wheat on which margins were exhausted, but the majority refused to touch the wheat paper offered by the clique, and those who advanc-ed on it required 10 per cent. more margins than were exacted from the customers. Merchants and all other classes engaged in legitimate trade rejoice that the burst has occurred, as the corner was injuring business and casting a stigma on the entire busi-ness interests of the city.

Kershaw & Co. are officially posted as having failed to go through the clearing house. This means their collapse. The immediate cause of the failure was due to Rosenfeld & Co., who garnisheed Kershaw's account in the American Exchange National bank.

Altering an Arbitration Award in Order to Reward Him Handsomely-No Wonder He Admires the Minister of Railways and all in Sundry Who Labour With Him for Party Benefit.

OTTAWA, June 15 .- Astounding revela-

tions were made, in the public accounts. committee regarding the purchase by the government of rolling stock on the British Columbia section of the Canadian Pacific from Mr. Onderdonk on the completion of his contract last year. Mr. Schrieber, un-der examination by Mr. Mulock, admitted that after the arbitrators awarded \$72,000 he had council advise the minister of railways, after conversation with Mr. Onderdonk, that the award was too low. An attempt was made to get the arbitrators to reopen and increase the award. Two of them positively refused to do so, adhering to the award. Subsequently, after urgings by Mr. Schriber, who was advised by the minister of railways, a new award of \$202,-000 was made, which was paid to Onderdonk. Mr. Clarke, one of the arbitrators, was examined. He said the latter award was made by instructions of the government, the cost of carrying rolling stock to British Columbia before the construction of a railway being added. Mr. Mulock read a letter, found among papers addressed to him from Mr. Reid, another arbitrator, which said: "This matter is a fizzle, and it appears to me that we are to be used as tools." He admitted the correctness of the letter. The whole matter will be brought up in parliament and other sensational developments are pro-

The first award called for the payment to Mr. Onderdonk of \$172,665, and the second award \$202,000. Although the rolling stock was taken over by the government in March, 1886, it was allowed to remain in the siding in British Columbia unused until this investigation commenced, and then the locomotives were shipped to the Intercolonial railway.

Arrival of Visitors in the Great City-Big

Prices Paid for Seats. LONDON, June 14.—Preparations for the jubilee progress rapidly and London is filling beyond precedent with country cousins and foreigners. Their fresh or unaccustomed features are seen everywhere on the streets. Four thousand tons of timber are being used in the Westminster Abbey fittings. The authorities vainly attempt to appease the applicants for tickets. Sixty tickets have been allotted to the workingmen, and loud are the complaints over the manner of their distribution. They have fallen into the hands of the trade secretaries, who hold on to them for dear life, to the disgust of presidents, treasurers and walking delegates. Prices for seats along the line of the royal procession are rising daily. As much as \$250 has been paid for a single window in Pall Mall, and \$750 for a balcony. One large store on Charing Cross is already let for \$15,000. The funniest thing so far about the jubilee is a hoax played upon the boards of poor law guardians in Ireland. Seyeral of latter in the North of Ireland of ultra-loyal tendencies, received a letter purporting to come from the lord chamberlain inviting them to the Abbey ceremonial. Great preparations were made for going in state when the joke leaked out, and the disgust of the guardians is only equalled by the fun at
