ALL AROUND THE HOUSE.

FURNITURE, ARTISTIC AND FASHIONABLE AS WELL.

The Decoration of Chairs—The Uniformity in Suits no Longer Necessary—Variety is Everything Now, a-Days, And it is Favourable as Well.
 Favorite materials that continue to be used in upholstery, as enumerated by The Decorator and Furnisher, are mottled silk plushes, foliage designs in deeper shades than ground and shadows introduced, also fringed borders of berries, leaves and buds; Alhambra plush and mohair, plain and embossed, electra or long napped; the frisee plush—these for furniture covers. Indian silk Madras is much used for curtains; for portieres velour Bagdad, velour Treviso, Turcoman and jute velours continue to have their hold on fashion. Favorite hues for fringes are coral, blue, old gold, golden red, apple olive and lavender.
 In screens, the three leaved ones, of which each panel shows such figures as gallants and ladies in quaint, picturesque costume, painted in subdued but warm and rich colors, are just now great favorites with buyers. Some of the frames are of white wood, polished and varnished so as to show the grain of the wood, the ends having outstanding bars, and the top ornamented with miniature balustrades. In others the wood is covered with fine red baize attached by imposing rows of brass-gilt headed nails.

The Perfect Way to Roast Meat.
 Mrs. E. P. Ewing, of the School of Domestic Economy, Iowa Agricultural college, discourses upon the roasting of meats of all kinds as follows: The method adopted should be the one that in the most perfect manner preserves all the juices inside the meat. To roast beef in the best possible manner: Place the clean cut side of the meat upon a smoking hot pan, which must be over a quick fire. Press it close to the pan until seared and slightly brown. Reverse and let the opposite side become similarly seared and brown. Then put it at once in the oven, the heat of which should be firm and steady, but not too intense, and leave it undisturbed until cooked. The time that should be allowed for cooking beef in this manner is twenty minutes to the pound, if it is to be rare, less half an hour, deducted from the aggregate time on account of searing. In other words, a five pound roast of beef will require about an hour and a quarter, a six pound roast an hour and a half, and so on. If the oven is not too hot, the meat requires no basting, and is better without it.

Artistic Possibilities in Pine.
 A correspondent in Demorest's Monthly describes a pretty example of the artistic possibilities in pine; a bedroom set made of it and painted with cream white. Space can only be given here for a description of the bedstead:

A HOME MADE BEDSTEAD.
 It was made of square beams of pine about five inches thick, which were most carefully and neatly mortised together. It was low, the footposts only extending a little above the bed after it was furnished with mattresses and clothes. From the headpost sprang a lighter wood frame which supported a pretty pink and white drapery, such as is sold for about fifteen cents a yard. The drapery was full, but simply finished with a hem. The spring mattress, being bound beneath, fitted upon the bed without slots, and this was a good arrangement, as the simple four sided frame was thus rendered almost secure from troublesome visitants; perfectly so, with a careful housewife and faithful duster. The other mattress was laid above this.
 The "set" consisted of the bedstead described, a dressing table and washstand. The wood was ornamented with a design of vines and flowers painted in delicate colors; on the bedstead pink poppies, the emblems of sleep; on the washstand the lotus flower and leaf; on the toilet table honeysuckle, the emblem of ease.

How to Sweep Without Dust.
 It is best to use something to prevent dust from rising when sweeping. Of course the dust must be gotten out of the carpet, but it is not necessary to send it over all the walls and contents of the room. For this purpose damp tea leaves, moistened cornmeal or bran and salt are used, scattered over the carpet. Tea leaves are excellent, but if it is feared that they may stain a light colored carpet, either of the other things may be used. Salt is a favorite with many because it seems to brighten the colors. It must, however, be swept out very thoroughly and not used too often; for after frequent use moisture may be observed on the carpet on damp days, an unpleasant odor will be perceptible in the room, and the carpet will be damp to the touch. This is caused by salt that accumulates in the carpet.

Fruit Juices for Flavoring, Etc.
 Fruit juices for use in syrups, cordials and beverages, or for flavoring ice cream, fruit ices and bonbons, may be prepared as follows: Mash the juicy fruits in a basin, to a pulp, place on the fire and make scalding hot; now pour into a hair sieve and allow the juice to run through. Put into bottles and close securely. Place these bottles in a caldron of cold water and boil twenty minutes. Remove from the fire, let them become cold and then set away for use. In the case of non-juicy fruits, such as apples, pears, etc., put the fruit into a basin, cover with water and boil to a pulp. Then drain on a hair sieve, bottle and boil as above.

Novel Notions in Decorations.
 Quite a pretty and certainly very unique cover for the top of a tiny round stand was recently made of chamois skin. The skin was decorated in gilt and bronze. The edge was finished with a fringe of chamois, made by clipping it in narrow strips. The fringe was tacked on with brass headed tacks. Very nice looking window curtains can be made from ordinary house flannel. First color it a pleasing shade by immersing it in made coffee. Then embroider it at top and bottom with wide horizontal bands of red in cross stitch.

Brown Bread.
 For good home made brown bread take one cup each of Indian meal, rye meal and molasses, two cups of flour, one pint and a half of sour milk, a teaspoonful of salt, an egg and a teaspoonful of soda. Mix the dry ingredients, dissolve the soda in two tablespoonfuls of boiling water, add it and the milk to the molasses and pour on the other materials. Beat the egg and add it. Mix it well; steam it in a tightly covered two quart tin pan, then remove the cover and bake in the oven for half an hour.

The conservators had nearly purchased the Toronto World as the organ of the party, but its proprietor held out for \$75,000, which Sir John Macdonald thought too much.

ON THE WATER.

George Gould's schooner yacht Hildegarde is not three masted, as reported.
 Capt. Thomas Cooley is in command of the schooner yacht Speranza, owned by H. W. Collender.
 Tennyson has recovered from his attack of gout as the result of a cruise along the Devonshire and Cornwall coasts.
 Dr. John C. Barron, of the Atlantic Yacht club, has gone to Europe with his family. He intends to tell all about the Thistle when he returns.
 At the Canadian regatta of Aug. 6 the Metropolitan Rowing club will be represented by junior and senior double and senior single sculls.
 E. Platt Johnson, of the Nassau Boat club, has had a new cedar racing shell made. It is a beauty, and, with all attachments, weighs only twenty-six pounds.
 Capt. George Cooley, of Red Bank, N. J., who commands Commodore A. Cass Canfield's iron sloop Priscilla, is the owner of the fast ice boat Grover Cleveland.
 The carsmen of the Kill von Kull do not place a barrel of confidence in the wooden shell. They prefer the paper craft, claiming it is peculiarly adapted to the uses of these rough waters.

MUSICIANS OF NEW YORK.

Good slide trombone players, it is said, are hard to find.
 The Philharmonic club are giving concerts in the northwest.
 Gilmore's band of sixty-five pieces is at Manhattan beach.
 Cappa furnishes the music at Brighton beach and in Central Park.
 There is less demand for stringed instruments than brass in the summer.
 The majority of the professional musicians of this country are German born.
 It is doubtful if any city in the world pays musicians better than New York.
 Mr. Thomas keeps his orchestra together in summer through out of town engagements.
 Many of the leading players in orchestras and military bands go abroad for the summer.
 About 3,000 people make their living in bands and orchestras of some grade at or near New York.
 New York contains about 300 orchestral players capable of participating in musical performances of the highest class.

THE FIRST IN ENGLAND.

Cricket was first played about the year 1300.
 Postoffices were first known in England in 1581.
 The first navigable canal in England was made in 1134.
 Money was first coined in England about the time of Christ.
 The first geographical map of England was made in the year 1530.
 Spectacles were first used in the latter part of the Thirteenth century.
 Woolen cloth was first made in England in 1331, though its making is one of the most ancient arts.
 Pens were first used in the Seventh century. They were quills. Steel pens did not come into use until 1820.
 The first London directory was printed in 1677, and contained sixty-four pages, with the names of 1,790 persons or firms.
 The first voyage around the world was made in the Victoria, a ship which formed part of the expedition that sailed under Magellan in 1519.

Give Them a Chance!
 That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter, which ought not to be there, your lungs cannot half do their work. And what they do they cannot do well.
 Call it cold, cough, croup, pneumonia, catarrh, consumption of any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Will Make no Compromise.
 New York, July 22.—At a meeting of the anti poverty society last night, Dr. McGlynn said the united labor party would make no compromise with any party that would nominate a full ticket at each election, including a candidate for president and vice-president of the United States in 1888.

Like Magic.
 "It always acted like magic. I had scarcely ever need to give the second dose of Dr. Fowler's Extract of Wild Strawberry for summer complaints," Mrs. Walter Govenkock, of Ethel, Ont.

From Manitoba.
 "I have been cured of chronic diarrhoea by the use of Dr. Fowler's Extract of Wild Strawberry. I used about twelve bottles of it and am now entirely free from the disease." William McLaren, Clearwater, Manitoba.

A Cure for Drunkenness.
 Opium, morphine, chloral, tobacco, and kindred habits. The medicine may be given in tea or coffee without the knowledge of the person taking it if so desired. Send 6c in stamps, for book and testimonials from those who have been cured. Address M.V. Lub on, 46 Wellington St. East, Toronto, Ont. Cut this out for future reference. When writing mention this paper.

In the National league George Myers leads the catchers; Ferguson, of the Phillies, the pitchers; Merrill, of Boston, the first basemen; Richardson, of New York, the second basemen; Sutton, of Boston, the third basemen; Smith, of Pittsburg, the short stops; Dalrymple, of Pittsburg, the left fielders; Johnson, of Boston, the center fielders; Coleman, of Pittsburg, the right fielders.

The Triumphant Three.
 "During three years suffering with dyspepsia I tried almost every known remedy but kept getting worse until I tried B.B.H. I had only used it three days when I felt better; three bottles completely cured me." W. Nichols, of Kendall.

Blaglock, the jockey, whose riding at Chicago led to the expulsion of E. Corrigan from the American association, is from Woodstock, Ont. He gets \$500 from Corrigan and was riding to his orders when the centreposts occurred.
 Joseph Warren, boat builder, has just completed a racing shell for Hanlan, in which he will row at Pullman, on Saturday. The shell was shipped for Pullman by the afternoon express.
