We publish to-day a letter from the passengers by the royal Canadian steamship North Ship merican, which vessel arrived in port on Ara Thursday evening last, at ten o'clock. The City North American left Quebec on Sunday morning, the 25th ult., at five o'clock, bringing dates om Toronto up to the 23d ult., and making asage in one hour less than 114 days, and oly seven hours more than the American crack

It will be seen that this is the first voyage com the St. Lawrence to Liverpool, under the ntract entered into between the Canadian goternment and the " Montreal Ocean Steam ship Company." We have been informed that the coal was so very inferior, that only three out of the four boilers were used on the voyage, -- that | the ship came south of Newfoundland, -that in succeeding voyages throughout the season, the route will be through the Straits of Belle Fulton, sle, thus shortening the distance to Quebec nearly 330 miles, and that the probability hat even with vessels of inferior speed some he steam-ships plying between Liverpool, ston, and New York, we shall be frequent adebied to this line of steamers for the earliest intelligence from America. Indeed, we see no eason why mails and freight, destined to or rom Canada and the Western States of America, should not be delivered in less time by the oute of the St. Lawrence than by any other, As regards freight, it is not, perhaps, generally known that the vessels composing this line of steamers, (which, we believe, are about 1800 ms burthen) can now ascend the St. Lawrence to the Port of Montreal without breaking bolk. This is an important fact, inasmach as a point is thereby reached 120 miles nearer Lake Eric than any United States Atlantic Port. The termination of the Canals on the St. Lawrence, by in the Port of Montreal, so that goods can be Pirce 2d. transmitted out of the steamers belonging t the new company into the steam propellers and vessels destined either for Western Canada or the U.S.; and, as regards mails, it must be evident that since the distance from Liverpool to every Friday morning. Quebec is some four hundred miles tess than to New York, and the City of Toronto equi-distant, vessels of equal speed with those now plying to the United States should deliver mails i Canada in less time than the same mails could be delivered in New York. But, even with vessels of inferior power, mails can be delivered through Canada in less time in consequence of its taking from one and a half to two days to transport the mails inland from New York and Boston. We must confess to a warm interest loice in their success, and in everything which draws us into closer relation with our brethren in Canada. The people of Canada pay to this num. The imperial government give no aid day night. whatever, but give an enormous sum for mail steamers to the United States, against the influence of which aid the Canadian Steam Comtrade through the route of the St. Lawrence .-

THE DERBY .- The great English racing event of the year, "the Derby," was run at Epsom o the 28th ult., and was won by Admiral Har- the feed pipes broke down and she has colt, "Ellington," by "the Flying put back here again for fresh repairs. Dutchman." Twenty four horses started, and the value of the stakes is £5,795 stg. The trainer, Dawson, the owner and his friends, win large sums; one of them, Mr. Jackson, having backed the horse at long odds, twenty to one, to Jack was second, " Cannobie" third, and "Fazzoletto" fourth. " Wentworth", the great favor- pool, to the London News:ite in the betting, was nowhere. The victory the winner was the only Dutchman colt in the 1851, in 1852 by "Daniel O'Rourke," in 1853 rell." The time of the race this year, owing to mature. the state of the course, was slow—3 min. 4 sec. We need not tell sporting men that it is only that the weights carried are 8 stone 71b each.

FARMERS' PROSPECTS.

The following agricultural report for the north-western counties, is condensed from the

"The extremely dry spring was beginning to cause some uneasiness at the commencement of the month of May, but early in the month we were favored with a seasonable and plentiful supply of rain, which has since continued with alternate heat and sunshine. The effect, as might be expected, has been most beneficial for every kird of crop, and the season now is all that could be desired, both as regards temperature and the requisite moisture for vigorous growth. Every description of crop is looking well, and fully up to the average degree of forwardness usual at the 1st of June. Wheat, of which we had reason to speak well throughout of rain in the month of July that it is never safe to predict anything of this crop till after that period. Oats have already recovered from the cold | Butter-inspected No. 1 dry weather of April, and are now promising, and rather early. A large quantity of potatoes have been planted, and, as far as we know, the seed has advanced well in growth. In this distime last year, but not so favorable as they were | Private do. at 90 d.s., good yield, but what was sown at a later period, after the rains in May, is not sufficiently advanmoist weather has greatly benefitted the pastures, and land under grass is able to bear as much stock now as we ever remember to have seen it. Meadow and upland bay both promise. more than an average yield, and, probably owing to this favorable change, the price of cattle has advanced considerably during the last month. Dry beasts are not less than 25s a head dearer than they were on the 1st of May. There has not suffered so much from rain as it ceived no information on that subject upon has been subject to in a more easterly di- which any reliance can be placed. (Hear, hear.)

# Albany Lumber Market.

For the week ending Wednesday, June 18. The first loads of lumber from Buffalo were received yesterday, and as others will follow, the assortment in the market will now be completed itiatory operations of the most important of the Fernanc's bought the whip on the previous by the addition of Whitewood, Black Walnut and Ash, of which there has been none here, and by increasing the supply of Clear Pine. The sales and acquitted Rodrigues. They were for the past week have been fair, a decided improvement on the previous week, and as dealers willl now be able to get all the kinds wanted, a better trade may be anticipated.

The receipts by Canal during the second week June, in the years named, were as follows: Boards and Shingles, Timber, Staves, Scantling, ft. 850 9778300 1014600 1851 8758300 4139400 1852 12406643 

1855 8225847

1856 9113211 The receipts of Boards and Scantling during the second week in June exhibit a slight increase over the corresponding week of last year, but in every other article enumerated in our table, there has been a fadling off.

The receipts by Canal from the opening of navigation to the 14th instant, in the years named, were as follows:-

Boards and Shingles, Timber, Staves. Scantling, ft. 53274130 23315700 60367243 18068820 59600 1852 68629582 15461 17517651 1853 79890483 9388527 1854 68013605 707 17220295 48163454 9714637 1856 \$4996933 3546.10 The figures above show a falling off in Boards and Scantling of 13,166,521 feet, Shingles 7,086

M, and Staves 6,168,527 lbs, and an increase of Timber of 260 feet, compared with the corresding period of last year. The annexed table exhibits the prices as established by the principal yards :-
