The Picton Gazette says, the quantity of whitefish taken on the Wellington and Presq Isle fishing grounds this year has been for in advance of what the most sauguine fishermen anticipated. At least £5,000 worth of fish and oil have been taken on the Wellington beach alone; and perhaps as much more at Presq' Isle. On Weller's Beach there has been no fish so far. One result of this is that men have deserted the harvest fields in order to obtain a " hand's share" on the beach - two dollars a day have been offered to them in vain, as FURTHER PARTICULARS OF THE LOSS OF THE | there was a chance of making sixteen or twenty

Commercial Review.

Business for the last three weeks has been nearly at a stand, the transactions being few and the fluctuations trifling.

FLOUR, in the face of a falling market in Bri tain, has continued firm, and even with an up ward tendency, on account of the barrenness of the market, and deficient supplies. The price being relatively somewhat higher in Montreal than New York, has latterly attracted shipments from Oswego, Ohio, and Michigan, to the extent of a few thousand barrels, and Flour from new wheat is coming to market. These Europe just brought by the Baltic, will probably somewhat affect prices here. Nothing doing for

Whear of the new crop has begun to come forward. A very fine sample of Michigan white was offered at 8s 6d, and Chicago winter red has been offered, without finding buyers, at 7s 6d per bushel. Nothing near those prices can now be got.

OATS, BARLEY, PEAS, CORN.--There is nothing special to notice in coarse grains, and very tri-

We have heard of one small sale for shipment at 93d. What the price will be when the fall supplies come forward, will of course depend upon the extent of those supplies and of the demand for them.

Pork continues very high, viz., \$23 for mess. and great exertions should be made to fatten, pack, and forward as much as practicable this fall, and as early as possible, in order to avail of

Money .-- The supply is about equal to the demand, both being good. The Banks, probably pressed on one hand by the post-office moneyorder system, and on the other by private competition, have reduced their rates of discount as before noticed by | per cent on Upper Canada Bank Notes, and have made all their drafts from one office upon another payable at sight for i per cent, which is lower than money can be sent in any other way. All these are great facilities in the way of doing business, and will reduce
