THE IRISH HEROES, OF THE CRIMEA. --The privilege of pronouncing a formal eulogy upon the services of one of the Irish regiments engaged in the recent war has devolved upon the Earl of Carlisle. His Excellency is to present in the name of the Queen, a stand of colors to the 18th (Royal Irish), in lieu of those honorably ragged banners which they carried into Sebastopol on the 18th June last year. The old colors of the regiment are to be deposited with solemn triumph in St. Patrick's Cathedral as worthy for the example of succeeding generations of Irishmen. The whole ceremony, it is said, will be conducted on a scale of splendor which cannot fail to corps. The reception given by the citizens Persia of Sheffield to the Royal Irish Dragoon C. of Baltim Guards does not look as if John Bull meant Canadian to monopolize in his own person the whole Kangaroo glory of the war in the East.

LIVE STOCK .- At Wimpson, Hants, N. American there is a farm which is chiefly devoted to the breeding and rearing of swine and poultry for the Southampton steampackets. There is an old pond in the farm, which this year has been appropriated to the web-footed poultry species. Soon after the ducks on the farm were hatched, of course they took to the water in the pond, | that navigation is almost stopped on the Ottafoot. It was ascertained, without a doubt, in making her way down from Kingston light; that these injuries were received in the and the Ida had to return from the Chute a water. It was resolved, therefore, to drain Blondeau, being unable to get through that Cathe pond to discover the cause of the pal. mutilation. This has just been done, and the bottom of it found to be formed of mud three feet in depth, in which are thousands of cels, many of them of immense size. There is not a doubt that these ells are the culprits .- [London Globe.

The following, clipped from a recent English o a o paper, shows strikingly the effects produced upon personal appearance by a recent discovery, well worthy of being called the greatest discovery of the age. But to the quotation.

"In the fall of 1853, a distinguished friend of ours, Lord C-, visited the United States, and while there spent some time in the city of St. Louis, where his attention was called, by means of a circular, to the testimony of a well-known and distinguished statesman of Illinois in favor of a restorative for the hair, together with the testimony of many other distinguished gentlemen and ladies, all going to the same point. The statements were so extraordinary in regard to its effects that he was led to make some inquiry, when he learned that the honorable gentleman alluded to was stopping at the same hotel, viz: the Planter's House. He sought and obtained an interview with him, when he soon became convinced that this was no pretended discovery but a real bona-fide reality. Our friend at once procured half a dozen bottles, and commenced using it, and continued to do so until he reached London, in the fall of 1854, and positively such was the change in his appearance that many of his acquaintances were really puzzled to recognize him. His head, the top of which was bereft of its covering when he left, was now covered with a rich and glossy suit of hair, and all his white locks had disappeared; indeed, many a high-born dame who had formerly looked upon him as too antiquated, now seemed to have few smiles for any one else. But as soon as the secret of this change came out, our druggists were so overwhelmed with inquiries for the preparation that they at once commenced and imported a large amount. It is now for sale by all the popular druggists in London. We make this statement so that al! who desire can avail themselves of so important a discovery. and thus preserve their youthful appearance and beauty. It is known by the name of Prof. Wood' Hair Restorative. - [St. Louis Pilot.

A WORD ABOUT SICKLY SEASONS.—The lives of thousands of children and grown persons might be saved and restored to perfect health by the timely use of Dr McClintock's Diarrhea Cordial. By its use Diarrhea, Cholera Morbus, Dysentery, Cholera Infantum, and Summer Complaints are instantly relieved and speedily cured. Discovered, and administered to over two hundred cases in a single day, at the City Cholera Hospital and City Prison, Philadelphia, during the dread-

While Thousands of Scientific Men have kept the result of their discoveries a secret, or laid away in musty books on publishers' shelves, Dr. Jas. McChintock, late Dean of Philadelphia College of Medicine, brings out his discoveries in medicine in the way of a real scientific remedy for each disease. His Dyspeptic elixir and his Tonic Alterative cures dyspepsia and indigestion, and purifies the blood, invigorates the

system, and prevents disease. Dr. Jas. McClintock is known wherever profound science and vast experience are appreciated, as the most successful of living physicians in the treatment of Pulmonary complaints. His Cold and Cough Mixture removes Colds, Coughs, Hoarseness, and all Ordinary Irritations of the Respiratory System, as certainly as water quenches flame; while his Pectoral Syrup is the only reliable cure for Consumption, Bronchitis, and all serious diseases of the Traches and other portions of the breathing apparatus

The Pale, Emaciated, Broken-down victim of Fever and Ague, derives immediate relief from Dr Jas. McClintock's Fever and Ague Specific In the first place, the chills are broken, and the subsequent effect of the medicine is to fortify the system against any further attacks of the disease. Scarcely less celebrated are Dr Mc-Clintock's Anti-Bilious Pills, for their extraordinary operations upon the Bilious secretions they impart a healthy tone to the liver when all

other remedies fail. For sale by E. W. Palmer, Druggist.
