P. S .- The bedstead, on which there was a feather tick, was uninjured, as also those of the rafters which were of cedar .--Belleville Chronicle.

There has been a similarity of weather in Europe and this continent, an extreme degree of heat followed by severe thunderstorms, and rain occasioning floods, which appears to arise from one disturbing cause. This is said to be the great comet of 1556, expected this year, and which is credibly announced to have been seen from Limerick in Ireland, for several successive nights .- [Montreal Advertiser.

SMASH-UP ON THE CENTRAL RAILROAD. An accident, the result of miscalculation | erality. and want of precaution, occurred at West Albany on Friday evening, which, while sociation for the advancement of science will letting, no one was injured. They were atl ta- are treated by the former as their guests. caused great damage and loss. A freight made by gentlemen to have it in Baltimore, but train of eighteen cars, going East, was run | the preference was given to Montreal, which way, and with such headway that five or ada in general. six cars were entirely demolished. One car contained swine, nearly all of which were terribly mangled. Some three or four it is said, escaped injury, but they were so frightened that they scampered off into the woods. Five or six other cars containing butter and produce of a perishable nature were dove-tailed together in such a manner that it is impossible to tell butter from cheese and cheese from butter. The hind cars of the foremost train, when the two trains came in collision, were piled one ployed to enable the vessel to resume her voyupon the other in great confusion.
