Money! Money! Money!

WHY BE WITHOUT MONEY! when it is just as easy for any one to be around with a pocket full as not, if they only think so.

I sent one of my Circulars to an Editor in Georgia, and he gave notice in his paper says the following: "Mr Munroe sent me one his Circulars, and I will just say to my readers that whoever of you are out of employment that Mr Munroe's business is a good business, and money can be made out of it by any one who engages in it, for it is no humbug."

PROFESSOR WOOD'S HAIR RESTORATIVE!

IT HAS WORKED MIRACLES!

WHAT ALL the bald and gray can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions, even scald head, and in no possible case will it fail of curing, as if by magic, nervous or periodical headache, and it used twice a week by the young, regularly, it will preserve the color and keep the hair from falling to any imaginable age.

Logansport, Ia., June 1855.

Messrs. G. J. Wood & Co.,

GENTS: Yours of the 18th came duly to hand. Enclosed please find thirty eight dollars, being the amount for Hair Restorative. I have sold it all.

C. R. R. Office, Vandalia, June 21, 1854.

PROFESSOR WOOD—

DEAR SIR: I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago my hair was very gray. It is now a dark brown, (the original color) smooth and glossy.

Vincennes, In., June 21, 1853.

PROF. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it, and known others to use it—that I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know.

St. Louis, June 29, 1853.

PROF. WOOD: As you are about to prepare and vend your recently discovered Hair Restorative, and as you requested my opinion of it, I will state that my hair was, a few months ago, very gray, but after using two bottles of your Hair Restorative, it resumed its original color; and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp.

St. Louis, June 29, 1853.

PROF. WOOD—

DEAR SIR: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness, which rendered the constant application of oil necessary in dressing it. When I commenced using Hair Restorative about two months ago, it was in that condition; and having continued its use till within the last three weeks, it has turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used.

Waterstown, Mass., May 1, 1854.

PROF. WOOD: Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use two bottles; and it soon began to fall in restoring the silver locks to their native color, and the hair which was before dry and harsh, and falling off, now became soft and glossy, and it ceased falling; the dandruff disappeared and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again.
